possible to trace at Newgate the gradual amelioration of the penal code from the days of its pitiless ferocity to the time when thanks to the incessant protests of humanitarian and philanthropist a milder system of punishment became the rule

The History and Romance of Crime: Chronicles of Newgate from the Twelfth to the Eighteenth Century (Complete) Arthur George Frederick Griffiths,2020-09-28

The combat with crime is as old as civilization Unceasing warfare is and ever has been waged between the law maker and the law breaker The punishments inflicted upon criminals have been as various as the nations devising them and have reflected with singular fidelity their temperaments or development This is true of the death penalty which in many ages was the only recognized punishment for crimes either great or small Each nation has had its own special method of inflicting it One was satisfied simply to destroy life another sought to intensify the natural fear of death by the added horrors of starvation or the withholding of fluid by drowning stoning impaling or by exposing the wretched victims to the stings of insects or snakes Burning at the stake was the favourite method of religious fanaticism This flourished under the Inquisition everywhere but notably in Spain where hecatombs perished by the autos da f or trials of faith conducted with great ceremony often in the presence of the sovereign himself Indeed so terrible are the records of the ages that one turns with relief to the more humane methods of slowly advancing civilization the electric chair the rope the garotte and even to that sanguinary daughter of the Revolution la guillotine the timely and merciful invention of Dr Guillotin which substituted its swift and certain action for the barbarous hacking of blunt swords in the hands of brutal or unskilful executioners Savage instinct however could not find full satisfaction even in cruel and violent death but perforce must glut itself in preliminary tortures Mankind has exhausted its fiendish ingenuity in the invention of hideous instruments for prolonging the sufferings of its victims When we read to day of the cold blooded Chinese who condemns his criminal to be buried to the chin and left to be teased to death by flies of the lust for blood of the Russian soldier who in brutal glee impales on his bayonet the writhing forms of captive children of the recently revealed torture chambers of the Yildiz Kiosk where Abdul Hamid wreaked his vengeance or squeezed millions of treasure from luckless foes or of the Congo slave wounded and maimed to satisfy the greed for gold of an unscrupulous monarch we are inclined to think of them as savage survivals in Darkest Africa or in countries yet beyond the pale of western civilization Yet it was only a few centuries ago that Spain did to death by unspeakable cruelties the gentle races of Mexico and Peru and sapped her own splendid vitality in the woeful chambers of

the Inquisition Even as late as the end of the eighteenth century enlightened France was filling with the noblest and best of her land those oubliettes of which the very names are epitomes of woe La Fin d Aise The End of Ease La Boucherie The Shambles and La Fosse The Pit or Grave in the foul depths of which the victim stood waist deep in water unable to rest or sleep without drowning Buoyed up by hope of release some endured this torture of La Fosse for fifteen days but that was nature s limit None ever survived it longer *Complete Works* William Shakespeare,1896 *A Midsummer Night's Dream* William Shakespeare,1896 *Literary Visualities* Ronja Bodola,Guido Isekenmeier,2017-06-26 This book challenges the focus on pictoriality as central constituent of visual culture from the perspective of literary studies which in the wake of an intermedial turn so far focused on the ways texts relate to pictures and visual media either in praesentia e g word and image studies or in absentia e g ekphrasis Instead it emphasizes literature s participation in visual culture at large and focuses on three areas of investigation 1 the depiction of for instance visual perceptions in the literary mode of description which is paramount to formatting the mental aspect of visual culture 2 the readerly practice of visualising situations and events of the fictional world which mediates between those mentefacts and techniques of writing 3 textual visibilities which are grounded in materiality The volume explores these three areas from a systematically integrated perspective and the essays include in depth treatments of seminal examples taken from Western literatures primarily English and German but also French and American literature from early modern times to the present This book s aim is to work out literature s active role in shaping visual culture thus demonstrating its relevance for image studies *Life in Shakespeare's England* John Dover Wilson,1915

Ryan,2014-06-11 This is the first collection of criticism on Shakespeare s romances to register the impact of modern literary theory on interpretations of these plays Kiernan Ryan brings together the most important recent essays on Pericles Cymbeline The Winter s Tale and The Tempest the greatest of the last plays staging a dynamic debate between feminist poststructuralist psychoanalytic and new historicist views of the masterpieces Shakespeare wrote at the close of his career The book aims not only to anthologise accounts of the last plays by leading Shakespearean critics including Stephen Greenblatt Janet Adelman Leah Marcus Howard Felperin and Steven Mullaney but also to dramatise what is at stake in the choice of a particular critical approach It allows the student to compare the strengths and limitations of a deconstructive and a feminist reading of the same romance or to test the plausibility of one psychoanalytic angle on the last plays against another The headnotes that preface the essays highlight their distinctive slants on Shakespearean romance unpack the theoretical assumptions that steer their interpretations and throw into relief the key points at which their authors collide or converge The editor s introduction places the essays in the context of twentieth century criticism of the last plays and makes a powerful case for a fundamental reappraisal of Shakespearean romance The comprehensive fully annotated bibliography provides an unrivalled guide to further reading on all four plays *Sotheran's Price Current of Literature* Henry Sotheran
