The extent of atrocities however has overshadowed the calculus Nazis used to justify their deeds. According to German wartime media it was German citizens who were targeted for extinction by a vast international conspiracy. Leading the assault was an insidious belligerent Jewish clique so crafty and powerful that it managed to manipulate the actions of Roosevelt, Churchill, and Stalin. Hitler portrayed the Holocaust as a defensive act, a necessary move to destroy the Jews before they destroyed Germany. Joseph Goebbels, Minister of Propaganda, and Otto Dietrich's Press Office translated this fanatical vision into a coherent cautionary narrative which the Nazi propaganda machine disseminated into the recesses of everyday life. Calling on impressive archival research, Jeffrey Herf recreates the wall posters that Germans saw while waiting for the streetcar, the radio speeches they heard at home or on the street, the headlines that blared from newsstands. *The Jewish Enemy* is the first extensive study of how anti-Semitism pervaded and shaped Nazi propaganda during World War II and the Holocaust, and how it pulled together the diverse elements of a delusory Nazi worldview. Here we find an original and haunting exposition of the ways in which Hitler legitimized war and genocide to his own people as necessary to destroy an allegedly omnipotent Jewish foe. In an era when both anti-Semitism and conspiracy theories continue to influence world politics, Herf offers a timely reminder of their dangers along with a fresh interpretation of the paranoia underlying the ideology of the Third Reich. **Hitler's People** Richard J. Evans, 2005-11-18 Named a Best Book of the Year by Kirkus Reviews and *Air Mail*. A fascinating and instructive book elegantly written and perceptive. *Wall Street Journal*. Kaleidoscopic. A fascinating exploration of individual agency that never loses sight of the larger context. Just the kind of probing, nuanced and unsparing study to help us think things through. *The New York Times*. Through a connected set of biographical portraits of key Nazi figures that follows power as it radiated from Hitler to the inner and outer circles of the regime's leadership, one of our greatest historians answers the enduring question: How does a society come to carry out a program of unspeakable evil? Richard J. Evans, author of the acclaimed Third Reich trilogy and more than a dozen other volumes on modern Europe, is our preeminent scholar of Nazi Germany. Having spent half a century searching for the truths behind one of the most horrifying episodes in human history, in *Hitler's People* he brings us back to the original site of the Nazi movement, namely the lives of its most important and representative members. Working in concentric circles out from Hitler and his closest allies, *Hitler's People* forms a typological framework of German society under Nazi rule from the top down. With a novelist's eye for detail, Evans explains the Third Reich through the personal characteristics and professional ambitions of its members from its most

notorious deputies such as Goebbels the regime's propagandist and Himmler the Holocaust's chief architect to the crucial enforcers and instruments of the Nazi agenda that history has largely forgotten such as the schoolteacher Julius Streicher or the actress and film director Leni Riefenstahl Drawing on a wealth of recently unearthed historical sources Hitler's People lays bare the characters whose choices caused the deaths of millions Nearly a century after Hitler's rise the leading nations of the west are once again being torn apart by an untamed will to power By telling the stories of these infamous individuals as human lives Evans asks us to grapple with the complicated nature of agency and complicity showing us that the distinctions between individual and collective responsibility and even between pathological evil and rational choice are never easily drawn

present the staff of the Office of Chief of Counsel or OCC has been engaged continuously in the discovery collection examination translation and marshalling of documentary evidence demonstrating the criminality of the former leaders of the German Reich Since the 20th day of November 1945 a considerable part of this documentary arsenal has been directed against the 22 major Nazi war criminals who are on trial before the International Military Tribunal in Nurnberg As of this writing the American and British cases in chief on Counts I and II of the Indictment charging respectively conspiracy and the waging of wars of aggression have been completed There is perhaps no need to recall in these pages that the Nurnberg trial represents the first time in history that legal proceedings have been instituted against leaders of an enemy nation It is perhaps equal supererogation to state here that there are no exact precedents for the charges made by the American British French and Russian prosecutors that to plot or wage a war of aggression is a crime for which individuals may be punished Yet it was because of these very facts that in its indictment the prosecution presented a challenge to itself quite as great as to the defense A heavy burden was laid on the accusing nations to make sure that their proof measured up to the magnitude of their accusations and that the daring of their grand conception was matched by the industry of their research lest the hard bought opportunity to make International Law a guardian of peace should fail by default It is not surprising therefore that the American collecting and processing of documentary evidence under the general direction of Col Robert G Storey gradually developed into an operation of formidable scope Although some pieces of evidence were secured in Washington and London by far the greater part was obtained in the land of the enemy As the American Armies had swept into Germany military investigating teams had filled document centers with an increasing wealth of materials which were freely made available by the Army to OCC field investigators Special assistance was given by the Document Section G 2 Division SHAEF and by the Document Sections of the Army Groups and Armies operating in the European Theater OCC investigators also made valuable discoveries while prospecting on their own They soon found themselves embarrassed with riches Perhaps foremost among the prize acquisitions was the neatly crated collection of all the personal and official correspondence of Alfred Rosenberg together with a great quantity of Nazi Party correspondence This cache was discovered behind a false wall in an old castle in Eastern Bavaria where it had been sent for safekeeping Another outstanding collection consisted of thirty nine leather bound volumes containing detailed inventories of the art treasures of Europe which had been looted by the Einsatzstab Rosenberg These catalogues together with much of the priceless plunder itself were found hidden deep in an Austrian salt mine An innocent appearing castle near Marburg was found to contain some 485 tons of crated papers which inspection revealed to be the records of the German Foreign Office from 1837 to 1944 Among other outstanding bulk acquisitions were more than 300 crates of German High Command files 85 notebooks containing minutes of Hitler s conferences and the complete files of the German Navy

Psychiatrists When the ashes had settled after World War II and the Allies convened an international war crimes trial in Nuremberg a psychiatrist Douglas Kelley and a psychologist Gustave Gilbert tried to fathom the psychology of the Nazi leaders using extensive psychiatric interviews IQ tests and Rorschach inkblot tests The findings were so disconcerting that portions of the data were hidden away for decades and the research became a topic for vituperative disputes Gilbert thought that the war criminals malice stemmed from depraved psychopathology Kelley viewed them as morally flawed ordinary men who were creatures of their environment Who was right Drawing on his decades of experience as a psychiatrist and the dramatic advances within psychiatry psychology and neuroscience since Nuremberg Joel E Dimsdale looks anew at the findings and examines in detail four of the war criminals Robert Ley Hermann G ring Julius Streicher and Rudolf Hess Using increasingly precise diagnostic tools he discovers a remarkably broad spectrum of pathology Anatomy of Malice takes us on a complex and troubling quest to make sense of the most extreme evil In this fascinating and compelling journey a respected scientist who has long studied the Holocaust asks probing questions about the nature of malice I could not put this book down Thomas N Wise MD Johns Hopkins University School of Medicine This harrowing tale and detective story asks whether the Nazi War Criminals were fundamentally like other people or fundamentally different T M Luhrmann author of How God Becomes Real *The Ordensburg Vogelsang* Franz Albert Heinen,2014 **Ferdinand Porsche - Hitler's engineer** Philip Barlow,2019-08-06 Ferdinand Porsche s life is a story of a man who owes his success mainly due to his passion and hard work Initially he also had to face the resistance of his own father who did not share his son s passion He came to live in difficult times Why was a man who from the beginning had been considered an apolitical idealist so quick to begin working with the Nazi government of Adolf Hitler What was Porsche s contribution to the development of hybrid and electric models so popular today What was the birth of the famous hunchback produced in the twenty first century or nearly 5 decades after the death of its creator **A Companion to Nazi Germany** Shelley Baranowski,Armin Nolzen,Claus-Christian W.
