Shepherd,1998 *Constructing Russian Culture* offers a pioneering new account of the relationship between literature and other cultural forms in Late Imperial Russia and Revolutionary Russia The general consensus in Western study of Russia and the Soviet Union has been that understanding of historical background is essential to the study of literature But this consensus has so far failed to produce sophisticated overviews of the culture as a whole literary histories seldom venture outside a rigid canon of authors and literary groupings and the account of historical background sometimes amount to little more than a listing of certain predictable political and social factors that can be perceived to have influenced or impeded literary developments This book is an ambitious attempt to recontextualize Russian literature and rethink the relations between literature and other cultural forms The book examines a number of in Bourdieu's term cultural fields in late Imperial Russia science and objectivity national and personal identity consumerism and commercial culture There is also a keywords introduction explaining the evolution of concepts of the self the nation and literariness in Russian culture and an Epilogue outlining the further history of the central themes after 1917 Contributors include leading specialists in Russian literature cultural history and cultural theory from Britain the USA and Russia Intended as a companion to Russian Cultural Studies An Introduction also OUP this stimulating original and controversial book will be a vital resource for all those interested in Russian culture during the age of Revolution **Global Russian Cultures** Kevin M. F. Platt,2019-01-15 Is there an

essential Russian identity What happens when Russian literature is written in English by such authors as Gary Shteyngart or Lara Vapnyar What is the geographic home of Russian culture created and shared via the internet *Global Russian Cultures* innovatively considers these and many related questions about the literary and cultural life of Russians who in successive waves of migration have dispersed to the United States Europe and Israel or who remained after the collapse of the USSR in Ukraine the Baltic states and the Central Asian states The volume's internationally renowned contributors treat the many

different global Russian cultures not as displaced elements of Russian cultural life but rather as independent entities in their own right They describe diverse forms of literature music film and everyday life that transcend and defy political geographic and even linguistic borders Arguing that Russian cultures today are many this volume contends that no state or society can lay claim to be the single or authentic representative of Russianness In so doing it contests the conceptions of culture and identity at the root of nation building projects in and around Russia

### **Power and Legitimacy**

Per-Arne Bodin, Stefan Hedlund, Elena Namli, 2013 This book sheds new light on the continuing debate within political thought as to what constitutes power and what distinguishes legitimate from illegitimate power It does so by considering the experience of Russia a polity where experiences of the legitimacy of power and the collapse of power offer a contrast to Western experiences on which most political theory formulated in the West is based The book considers power in a range of contexts philosophy and discourse the rule of law and its importance for economic development the use of culture and religion as means to legitimate power and liberalism and the reasons for its weakness in Russia The book concludes by arguing that the Russian experience provides a useful lens through which ideas of power and legitimacy can be re evaluated and re interpreted and through which the idea of the West as the ideal model can be questioned
