Russians In The Pribilof Islands 1786-1867:

The Fur Farms of Alaska Sarah Crawford Isto, 2012-03-15 After its rudimentary beginning in 1749 fur farming in Alaska rose and fell for two centuries It thrived during the 1890s and again in the 1920s when rising fur prices caused a stampede for land and breed stock and led to hundreds of farms being started in Alaska within a few years The Great Depression and later the development of warm durable and lightweight synthetic materials during World War II brought further decline and eventual failure to the industry as the postwar economy of Alaska turned to defense and later to oil The Fur Farms of Alaska brings this history to life by capturing the remarkable stories of the men and women who made fur their livelihood For more than 200 years soft gold brought many people to Alaska Fur farming was Alaska s third largest industry in the 1920s and Sarah Isto writes of the many efforts successes and ultimately of the fur farming industry s failure This well researched history contextualizes current fox elimination projects on Alaska islands and explains the abandoned pens one stumbles across This is a story that has long needed to be written Joan M Antonson Alaska State Historian

Empire Maker Kenneth N. Owens, 2015-07-01 A native of northern Russia Alexander Baranov was a middle aged merchant trader with no prior experience in the fur trade when in 1790 he arrived in North America to assume command over Russia s highly profitable sea otter business With the title of chief manager he strengthened his leadership role after the formation of the Russian American Company in 1799 An adventuresome dynamic and charismatic leader he proved to be something of a commercial genius in Alaska making huge profits for company partners and shareholders in Irkutsk and St Petersburg while receiving scandalously little support from the homeland Baranov receives long overdue attention in Kenneth Owens s *Empire Maker* the first scholarly biography of Russian America s virtual imperial viceroy His eventful life included shipwrecks battles with Native forces clashes with rival traders and Russian Orthodox missionaries and an enduring marriage to a Kodiak Alutiiq woman with whom he had two children In the process the book reveals maritime Alaska and northern California during the Baranov era as fascinating cultural borderlands where Russian English Spanish and New England Yankee traders and indigenous peoples formed complex commercial political and domestic relationships that continue to influence these regions today

Committee on Commerce, 1972 **Wildlife Resources** Harald H. Roth, Günter Merz, 2013-06-29 The general interest and attention paid to the use of the renewable natural resources of the world have increased greatly during the last decades This is due to the environmental dilemma into which mankind has got itself by the total disregard of ecological facts and laws the underpricing of natural resources and the overemphasis on economic development coupled with unimpeded rapid population growth and the preponderance of materialistic consumption oriented attitudes The management and use of natural resources such as forests grasslands rivers and lakes were formerly considered purely in a financial context whereas latterly a consciousness of their social function and the indirect economic benefits which can be derived from them has developed Thus as regards these traditional resources multi use concepts comprising economically oriented utilisation as well as recreational educational and social use have become widely accepted Conservation of natural resources for sustainable consumptive as well as non consumptive uses has been recognised as a key element for maintaining economic development all over the world Fortunately the industrialised countries have started to apply this principle themselves and in their technical and financial aid to the developing Third World countries This is manifest from policy documents such as the World Bank Policy on Development of Wild Lands issued in 1987 **Ocean Mammal Protection** United States.
