Zen Ecology Christopher Ives, 2025-03-11 Discover a way of living that can help you slow down and stay grounded and at the same time reduce your ecological impact and engage more fully with the climate crisis It may seem as though living

ecologically and engaging in activism sacrifices our own enjoyment and happiness on the altar of doing the right thing In this book professor naturalist and Buddhist author Christopher Ives offers an alternative a way of living that can actually be more fulfilling than the modern consumerist lifestyle Rather than deprivation it can bring us richness In Zen Ecology Chris outlines his environmental ethic as a series of concentric circles beginning with ourselves and then moving outward into our communities all the while focusing on spaciousness mindfulness generosity and contentment At the individual level we deal with distraction clutter and ecological harm Here Chris offers ways to help us pay attention simplify our lives and lower our impact Then we explore how to envision our home as a place of the Way with Zen monastic life as a model for this without having to be a monk Next we realize our embeddedness in nature and emplace ourselves in community with others including other forms of life Finally we build on this basis to engage in activism to create a world that is more supportive of ecological health and spiritual fulfillment In this way we avoid the two extremes of apathy and burnout and uncover a way of living that is simple joyful embedded in nature connected to others in community and supportive of collective action **The Quest**

decipherment In an introductory chapter Galan discusses the work of the Spanish Mission at Dra Abu Naga and recounts the complicated history of this important area of the Theban Necropolis down to the Roman period The graffiti illustrate how New Kingdom tombs were reused for the sacred animal cult in the Ptolemaic period Francisco Bosch Puche and Salima Ikram contribute a detailed chapter analyzing the archaeological context of the graffiti and the material evidence for the animal cult in the site The volume a holistic study of this area at the twilight of Pharaonic history represents a true collaboration between archaeologists and philologists
