A. Schwaller de Lubicz, 1986-10-01 We lack direct consciousness of Space and Time We can know of them only indirectly by mass force and energy and by the intermediary of phenomena such as may be tested by our five senses Without direct awareness of Space or Time human beings lack two senses necessary for the knowledge of all causes From this imperfection of which we are always being made aware is born our need to simplify Thus we reduce everything to fundamental properties without paying any attention to the underlying universal organization the effects of which are all around us The result is that the science of numbers the most wonderful guide to the constant creation of the universe remains an enormous hypothesis so long as its use has not awakened in us the higher consciousness of a universal order By deepened knowledge of things and their process of becoming we must come to recognize Numbers as a truth and to experience with our senses the living relation of a cause to an effect this relation being truer and more real than the effect could ever be Published in 1917 under the author s given name of Ren Schwaller A Study of Numbers is the first expression of the teachings we have come to associate with his later and better known name R A Schwaller de Lubicz It is a masterly account of the living universal qualitative and casual reality of numbers Starting from the irreducible one Schwaller

Traditional Forms and Cosmic Cycles René Guénon,2003 Ren Gu non 1886 1951 is undoubtedly one of the luminaries of the twentieth century whose critique of the modern world has stood fast against the shifting sands of recent philosophies His oeuvre of 26 volumes is providential for the modern seeker pointing ceaselessly to the perennial wisdom found in past cultures ranging from the Shamanistic to the Indian and Chinese the Hellenic and Judaic the Christian and Islamic and including also Alchemy Hermeticism and other esoteric currents at the same time it directs the reader to the deepest level of religious praxis emphasizing the need for affiliation with a revealed tradition even while acknowledging the final identity of all spiritual paths as they approach the summit of spiritual realization Traditional Forms and Cosmic Cycles is a wide ranging collection of articles that could just as well have been called Fragments of an Unknown History Although they must remain fragments as Gu non did not return to many of these themes again it would have been regrettable to leave such fascinating articles buried in old journals and so this posthumous collection is now offered to Anglophone readers for the first time The book opens with the key article The Doctrine of Cosmic Cycles followed by two pieces on Atlantis and Hyperborea Two sections follow concerned respectively with the Hebrew Tradition and the Egyptian Tradition The former comprises five

articles concerned primarily with the Kabbalah and the Science of Numbers and the latter includes three articles on Hermes and the Hermetic Tradition Book reviews are inserted at relevant points To lend the collection coherence no other spiritual Traditions are here represented A list of the Collected Writings of Ren Gu non has been provided for those who wish to investigate Gu non s metaphysical expositions on such topics as Christianity Islam the Greco Latin Traditions Celtism etc

God Good and Satan Evil Joseph Sener,2020-11-08 The words of Mighty God are in the Old and New Testaments His words are love letters to His human creation They are about living on life on earth with satan and sins and redemption for salvation by establishing a direct mutual relationship with the Creator God who shows blessings every day and night The complex process of being alive on earth is under constant attacks by satan while we are trying to prevent dangerous outcomes and not to fall into the abyss of satan The humanity has been giv
