Imagining the Witch Laura Kounine, 2018-10-25 Imagining the Witch explores emotions gender and selfhood through the lens of witch trials in early modern Germany Witch trials were clearly a gendered phenomenon but witchcraft was not a uniquely female crime While women constituted approximately three quarters of those tried for witchcraft in the Holy Roman Empire a significant minority were men Witchcraft was also a crime of unbridled passion it centred on the notion that one person's emotions could have tangible and deadly physical consequences Yet it is also true that not all suspicions of witchcraft led to a formal accusation and not all witch trials led to the stake Indeed just over half the total number put on trial for witchcraft in early modern Europe were executed In order to understand how early modern people imagined the witch we must first begin to understand how people understood themselves and each other this can help us to understand how the witch could be a member of the community living alongside their accusers yet inspire such visceral fear Through an examination of case studies of witch trials that took place in the early modern Lutheran duchy of W rttemberg in southwestern Germany Laura Kounine examines how the community church and the agents of the law sought to identify the witch and the ways in which ordinary men and women fought for their lives in an attempt to avoid the stake The study further explores the visual and intellectual imagination of witchcraft in this period in order to piece together why witchcraft could be aligned with such strong female stereotypes on the one hand but also be imagined as a crime that could be committed by any human whether young or old male or female By moving beyond stereotypes of the witch Imagining the Witch argues that understandings of what constituted witchcraft and the witch appear far more contested and unstable than has previously been suggested It also suggests new ways of thinking about early modern selfhood which moves beyond teleological arguments about the development of the modern self Indeed it is the trial process itself that created the conditions for a diverse range of people to reflect on and give meaning to emotions gender and the self in early modern
