**Paul Gauguin** Anna Barskaya,2011-07-01 Paul Gauguin was first a sailor then a successful stockbroker in Paris In 1874 he began to paint at weekends as a Sunday painter Nine years later after a stock market crash he felt confident of his ability to earn a living for his family by painting and he resigned his position and took up the painter's brush full time Following the lead of Cézanne Gauguin painted still lifes from the very beginning of his artistic career He even owned a still life by Cézanne which is shown in Gauguin's painting Portrait of Marie Lagadu The year 1891 was crucial for Gauguin In that year he left France for Tahiti where he stayed till 1893 This stay in Tahiti determined his future life and career for in 1895 after a sojourn in France he returned there for good In Tahiti Gauguin discovered primitive art with its flat forms and violent colours belonging to an untamed nature With absolute sincerity he transferred them onto his canvas His paintings from then on reflected this style a radical simplification of drawing brilliant pure bright colours an ornamental type composition and a deliberate flatness of planes Gauguin termed this style synthetic symbolism

before Gauguin made his first Tahitian journey in 1891 he spent nearly two years in the remote Breton fishing village of Le Pouldu Seeking creative isolation in a primitive setting he pursued his art accompanied by several followers One of them was the Dutch painter Meyer de Haan who was able to pay the living expenses in Le Pouldu and was also knowledgeable in literary and philosophical matters that fascinated Gauguin Their association resulted in some of Gauguin's most remarkable works including the Wadsworth Atheneum's symbolist portrait of de Haan inscribed Nirvana This and the rich variety of paintings and sculpture by Gauguin produced in 1889-90 are the focus of this beautiful book Gauguin and de Haan settled into an inn at Le Pouldu run by an attractive unwed mother named Marie Henry who began a liaison with de Haan despite the fact that he was a sickly hunchback The intensity of relations between Gauguin and de Haan is reflected in many of the works including frescoes which they installed in the inn Gauguin's time in Le Pouldu was crucial to the advancement of his art and the vivid Breton subjects and personality of Meyer de Haan remained in his imagination to reappear even during his later Tahitian period In this book several distinguished experts draw on previously unavailable sources to examine in depth the history of this period Gauguin's relationship with de Haan their interest in religion and exotic cultures and the meaning of the many innovative symbolist works they produced **Getty Research Journal, No. 13** Gail Feigenbaum, 2021-03-09

the evolution of Gauguin scholarship in the recent postmodern era as they confront and consider how the dismantling of the longstanding Gauguin myth positions us now in the 21st century to deal with and assess the life work and legacy of this still perennially popular artist To reassess the challenges that Gauguin faced in his own day as well as those that he continues to present to current and future scholarship they explore the multiple contexts that influenced Gauguin's thought and behavior as well as his art and incorporate a variety of interdisciplinary approaches from anthropology philosophy and the history of science to gender studies and the study of Pacific cultural history Dealing with a wide range of Gauguin's production they challenge conventional art historical thinking highlight transnational perspectives and offer clues to the direction of future scholarship as audiences worldwide seek to make multicultural peace with Gauguin and his art Broude has raised the bar of Gauguin scholarship ever higher in this groundbreaking volume which will be necessary reading for students and scholars of art history late 19th century French and Pacific culture gender studies and beyond

*Sculpture 1900-1945* Penelope Curtis, 1999 This book provides a comprehensive analysis of the significant growth of sculpture as an artistic form in Europe and America from 1900-1945 Using a clearly defined thematic structure it identifies key issues and developments throughout this important period in the history of art Individual chapters cover public sculpture the monument the object image making the built environment the figurative ideal and different materials These themes broadly reflect the changing cultural and political climate of a turbulent period which included two world wars each preceded by widespread rising nationalism The practice of sculpture is considered within the wider artistic context of painting and architecture and the development of international art markets Auguste Rodin whose ground breaking exhibition opened in Paris in 1900 serves as the book's point of departure and as a recurrent point of reference

Potential Images Dario Gamboni, 2002 In *Potential Images* Dario Gamboni explores ambiguity in modern art considering images that rely to a great degree on a projected or imaginative response from viewers to achieve their effect Ambiguity became increasingly important in late 19th and early 20th century aesthetics as is evidenced in works by such artists as Redon Cezanne Gauguin Ensor and the Nabis Similarly the Cubists subverted traditional representational conventions requiring their viewers to decipher images to extract their full meanings The same device was taken up in the various experiments leading to abstraction For example it was Kandinsky's intention that his work could be interpreted in both figurative and non figurative ways and Duchamp's Readymades suggested the radical conclusion that it is the beholder who makes the picture These invitations to viewers to participate in the process of artistic communication had social and political implications as they accorded artist and beholder symmetrical almost interchangeable roles
