Birth of Modern Sculpture
 Felicity Moreau, AI, 2025-02-26 Birth of Modern Sculpture delves into the revolutionary period when artists redefined sculpture breaking from classical traditions to embrace innovation The book explores this transformation highlighting how sculptors responded to societal shifts and technological advancements leading to the birth of entirely new forms of artistic expression Notably the rise of steel production and welding provided unprecedented possibilities and the decline of traditional patronage challenged established norms The book examines the rejection of academic conventions the embrace of new materials and the exploration of abstraction Beginning with 19th century traditions it progresses through the influence of early modern sculptors like Auguste Rodin and avant garde movements such as Cubism and Futurism Ultimately the book analyzes the rise of constructivism and non representational forms revealing how sculptors moved beyond mere imitation This exploration provides a comprehensive overview of a pivotal period in art history offering new insights into the forces that shaped modern sculpture

Modern/Postmodern Silvio Gaggi, 2015-08-10 Silvio Gaggi's survey of the vast terrain of twentieth century arts and ideas is unique not only for its scope but also for the clarity and cohesiveness it brings to wide ranging seemingly disparate works By identifying underlying epistemological aesthetic and ethical issues Gaggi draws connections among such modern and postmodern masterpieces as Pirandello's and Brecht's theater Fowles's and Barth's fiction Warhol's paintings Godard's and Bergman's films and Derrida's literary theory Modern Postmodern begins with a discussion of the profound skepticism about traditional beliefs and about our ability to know the self that lies at the heart of both modernism and postmodernism Gaggi identifies the modernist response to this doubt as the rejection of mimesis in favor of a purely formalistic or expressionistic art The postmodern response on the other hand is above all to create art that is self referential concerned with art itself the history of art or its processes Drawing from the work of Piranadello and Brecht paradigms that can be applies to many different art works Gaggi emphasizes how these works from diverse media relate to one another and what their relationships are to the contemporary artistic and philosophical climate He concentrates on the works themselves but examines theory as a parallel manifestation of the same obsessions that inform recent literature and art Gaggi asks finally if self referential art can also be politically and ethically engaged with the reality outside it He concludes that the postmodern obsession with language narrativity and artifice is not necessarily a decadent indulgence but

is at its best an honest inquiry into the problems questions and paradoxes of language Modern Postmodern is a lively approach to postmodern art that will interest all students and scholars of contemporary art and literature *Lessons from the Middle* Sandra Kaplan, Sandra Nina Kaplan, Michael W.
