The Grove Encyclopedia of Medieval Art and Architecture Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture      An Illustrated History of Late Medieval England Chris Given-Wilson, 1996 The late Middle Ages c 1200 1500 was an age of transition The major events of this period the Black Death the Hundred Years War the rise of Parliament the depositions of five English kings between 1327 and 1483 are examined in detail in this book      *Studies in the Art and Imagery of the Middle Ages* Richard Marks, 2013-12-31      *The Later Middle Ages, 1272-1485* George Holmes, 1966 Professor Holmes also examines the politics of these years the relations of the kings of England with neighboring rules and with their own subjects This period includes the successful conquest of Scotland the series of wars with France known as the Hundred Years War and the War of the Roses which brought Henry VII the first Tudor to the throne in 1485 Here also is an exploration of the heretical movement initiated by Wycliffe in the thirteen seventies which began a tendency toward loosening the power of the Church and a study of the beginnings of parliamentary government in the later fourteenth century its collapse in the following century and the emergence of a strong self sufficient monarchy English life in the thirteenth century was characterized by a single Christian Church owing allegiance to Rome and living on the revenues of its estates kingship with difficulty kept intact in the face of scheming magnates jealous of their privileges a countryside divided into thousands of small estates tilled by peasants some of them serfs and owned by lords with considerable power over their tenants armies of knights fighting on horseback Gothic cathedrals monasteries castles town gilds Professor Holmes describes this medieval society and its evolution after the Black Death into a somewhat different kind of society in the late fifteenth century He argues that the population decrease as a result of the plague beginning in 1349 brought about fundamental transformations village life changed serfdom disappeared the great estates became less important industry grew and the commodities and directions of trade changed      *Britain's Medieval Episcopal Thrones* Charles Tracy, 2015-01-30 This book is the first major investigation of a subject of seminal importance in the study of church history and archaeology The two stone thrones at Wells and Durham the three timber

monuments at Exeter St Davids and Hereford and the mid 14th century bishop's chair at Lincoln all come under a searching empirical enquiry. The Exeter throne is the largest and most impressive in Europe. It is a distinguished innovative example of the English Decorated style with antecedents passing back to the court of Edward I. It exemplifies most of the historical and formal strands that suffuse the entire book: visual appearance, distinctiveness within the building, prestige, construction, stylistic context, finance and the patronage and personal role of the bishop himself as well as the subtler issues of the personal and collective politics of bishop and chapter, the monument's liturgical applications, its relationship with the cathedral's relics, its symbolism and what it tells us about the aspirations of the institution within the existing ecclesiastical hierarchy. The thrones also reveal much about the personal circumstances of an individual bishop and where he stood on the scale of a good diocesan on the one hand and ambitious politician on the other as exemplified at Exeter and Durham. The text is by the art historian Dr Charles Tracy, a seasoned expert on church furniture both in Britain and on the continent of Europe. The chapter on the stone thrones was prepared by Andrew Budge who is currently preparing a Ph.D. thesis on English Chantry Churches at Birkbeck College. The polychromy authority Eddie Sinclair spent many hours on the scaffold to bring forward her remarkable report on the Exeter throne. Her full report is to be published online. The Exeter throne is also interpreted by the established timber conservation practitioner Hugh Harrison and the St Davids throne by the experienced draughtsman Peter Ferguson. In an age of the CAD, his meticulous measured drawings of the Exeter and St Davids monuments are one of the most remarkable features of the book. The architect Paul Woodfield prepared the drawings for the Lincoln chair.

**The Archaeology of Medieval England and Wales** John Steane, 2014-10-30

In the preceding 25 years to this book's publication in 1985, there was an extensive and unprecedented burst of archaeological activity in evidence from below ground deposits, above ground structures and artefacts. During the boom of the late 1960s and 1970s, which led to so much central town redevelopment, it was buried remains which yielded the most dramatic information. In the recession of the 1980s, it was realised that upstanding remains had a lot to offer as well and they were being subject to ever more sophisticated study techniques. This book examines those recent developments in archaeology and assesses their bearing on the study of medieval English and Welsh history. Taking a series of important themes such as government, religion and the countryside, the book offers a chronological approach from the coming of the Vikings 850 AD to the Reformation in 1530. This approach focuses on the impact of man on the urban and rural landscape. An important text for students of ancient history.

*Routledge Revivals: Medieval England (1998)* Paul E. Szarmach, M. Teresa Tavormina, Joel T. Rosenthal, 2017-07-05

First published in 1998, this valuable reference work offers concise expert answers to questions on all aspects of life and culture in Medieval England, including art, architecture, law, literature, kings, women, music, commerce, technology, warfare and religion. This wide-ranging text encompasses English social, cultural and political life from the Anglo-Saxon invasions in the fifth century to the turn of the sixteenth century, as well as its ties to the Celtic world of Wales, Scotland and Ireland, the French

and Anglo Norman world of the Continent and the Viking and Scandinavian world of the North Sea A range of topics are discussed from Sedulius to Skelton from Wulfstan of York to Reginald Pecock from Pictish art to Gothic sculpture and from the Vikings to the Black Death A subject and name index makes it easy to locate information and bibliographies direct users to essential primary and secondary sources as well as key scholarship With more than 700 entries by over 300 international scholars this work provides a detailed portrait of the English Middle Ages and will be of great value to students and scholars studying Medieval history in England and Europe as well as non specialist readers

**Early Gothic Column-Figure Sculpture in France** Janet E. Snyder, 2017-07-05 Richly illustrated Early Gothic Column Figure Sculpture in France is a comprehensive investigation of church portal sculpture installed between the 1130s and the 1170s At more than twenty great churches beginning at the Royal Abbey of Saint Denis and extending around Paris from Provins in the east south to Bourges and Dijon and west to Chartres and Angers larger than life size statues of human figures were arranged along portal jambs many carved as if wearing the dress of the highest ranks of French society This study takes a close look at twelfth century human figure sculpture describing represented clothing defining the language of textiles and dress that would have been legible in the twelfth century and investigating rationale and significance The concepts conveyed through these extraordinary visual documents and the possible motivations of the patrons of portal programs with column figures are examined through contemporaneous historical textual and visual evidence in various media Appendices include analysis of sculpture production and the transportation and fabrication in limestone from Paris Janet Snyder's new study considers how patrons used sculpture to express and shape perceived reality employing images of textiles and clothing that had political economic and social significances

**The Livery Collar in Late Medieval England and Wales** Matthew Ward, 2016 5 Livery Collars in Wales and the Edgecote Connection *Gothic Sculpture, 1140-1300* Paul Williamson, 1995-01-01 This study examines the development of Gothic sculpture throughout Europe It discusses the most famous monuments such as the cathedrals of Chartres Amiens and Reims Westminster Abbey and the Siena Duomo and less familiar buildings in France England Italy Germany Spain and Scandinavia

**Art & Architecture of the Late Middle Ages** Wim Swaan, 1982 Traces the growth and characteristics of medieval art and architecture focusing attention on the individual Gothic styles that evolved throughout Europe

**The Long Twelfth-Century View of the Anglo-Saxon Past** Martin Brett, David A. Woodman, 2016-03-03 Scholars have long been interested in the extent to which the Anglo Saxon past can be understood using material written and produced in the twelfth century and simultaneously in the continued importance or otherwise of the Anglo Saxon past in the generations following the Norman Conquest of England In order to better understand these issues this volume provides a series of essays that moves scholarship forward in two significant ways Firstly it scrutinises how the Anglo Saxon past continued to be reused and recycled throughout the longue dur e of the twelfth century as opposed to the early decades that are usually covered Secondly by bringing together scholars who are experts in various different scholarly disciplines the

volume deals with a much broader range of historical linguistic legal artistic palaeographical and cultic evidence than has hitherto been the case Divided into four main parts The Anglo Saxon Saints Anglo Saxon England in the Narrative of Britain Anglo Saxon Law and Charter and Art history and the French Vernacular it scrutinises the majority of different genres of source material that are vital in any study of early medieval British history In so doing the resultant volume will become a standard reference point for students and scholars alike interested in the ways in which the Anglo Saxon past continued to be of importance and interest throughout the twelfth century *The Lady in Medieval England, 1000-1500* Peter R. Coss, 2000-04 Focuses on the lady's role in medieval society how she was perceived both by herself and by her male counterparts and how she participated in the prevailing male culture of gentility *The Rood in Medieval Britain and Ireland, C.800-c.1500* Philippa Turner, Jane Hawkes, 2020 New readings demonstrate the centrality of the rood to the visual material and devotional cultures of the Middle Ages its richness and complexity The rood was central to medieval Christianity and its visual culture Christ's death on the cross was understood as the means by which humankind was able to gain salvation and depictions of the cross and Christ's death upon it were ubiquitous This volume brings together contributions offering a new perspective on the medieval rood understood in its widest sense as any kind of cross within the context of Britain and Ireland over a wide period of time which saw significant political and cultural change In doing so it crosses geographical chronological material and functional boundaries which have traditionally characterised many previous discussions of the medieval rood Acknowledging and exploring the capacity of the rood to be both universal and specific to particular locations and audiences these contributions also tease out the ways in which roods related to one another as well as how they related to their physical and cultural surroundings often functioning in dialogue with other images and the wider devotional topography both material and mental in which they were set The chapters consider roods in a variety of media and contexts the monumental stone crosses of early medieval England twelfth century Ireland and spreading further afield late medieval Galicia the three dimensional monumental wooden roods in English monasteries Irish friaries and East Anglian parish churches roods that fit in the palm of a hand encased in precious metals those that were painted on walls drawn on the pages of manuscripts and those that appeared in visions dreams and gesture related to one another as well as how they related to their physical and cultural surroundings often functioning in dialogue with other images and the wider devotional topography both material and mental in which they were set The chapters consider roods in a variety of media and contexts the monumental stone crosses of early medieval England twelfth century Ireland and spreading further afield late medieval Galicia the three dimensional monumental wooden roods in English monasteries Irish friaries and East Anglian parish churches roods that fit in the palm of a hand encased in precious metals those that were painted on walls drawn on the pages of manuscripts and those that appeared in visions dreams and gesture related to one another as well as how they related to their physical and cultural surroundings often functioning in dialogue with other images and the wider devotional topography
