 well being meteorology the ocean environment navigation communications conservation and minimal impact camping  
 conservation seamanship electrical bilge pumps solar panels light sources boat repairs leadership risk management basic  
 safety and survival strategies as well as a brief overview about the history and various types of canoeing There is also a  
 comprehensive glossary to assist the reader in understanding the terms and concepts discussed in the main text Woodhouses  
 work differs from most manuals about sea kayaking in that it is written from the perspective of someone who paddles the  
 Southern Hemisphere As such the major differences between the two hemispheres weather patterns navigation laws and  
 terminology are discussed as well as compared to their Northern Hemisphere counterparts In the end paddling skills are  
 paddling skills hypothermia is hypothermia and twenty five knot winds are twenty five knot winds A three metre tidal range  
 can still produce a long haul across mud flats when the tide is out and landing through two metre surf is still scary though a
