Sea Power in its Relations to the War of 1812 Alfred Thayer Mahan, 1968 *Sea Power in its Relations to the War of 1812 II* A. T. Mahan, 2016-08-16 That much of Great Britain's action was unjustifiable and at times even monstrous regarded in itself alone must be admitted but we shall ill comprehend the necessity of preparation for war if we neglect to note the pressure of emergency of deadly peril upon a state or if we fail to recognize that traditional habits of thought constitute with nations as with individuals a compulsive moral force which an opponent can control only by the display of adequate physical power Such to the British people was the conviction of their right and need to compel the service of their native seamen wherever found on the high seas The conclusion of the writer is that at a very early stage of the French Revolutionary Wars the United States should have obeyed Washington's warnings to prepare for war and to build a navy and that thus prepared instead of placing reliance upon a system of commercial restrictions war should have been declared not later than 1807 when the news of Jena and of Great Britain's refusal to relinquish her practice of impressing from American ships became known almost coincidentally But this conclusion is perfectly compatible with a recognition of the desperate character of the strife that Great Britain was waging that she could not disengage herself from it Napoleon being what he was and that the methods which she pursued did cause the Emperor's downfall and her own deliverance although they were invasions of just rights to which the United States should not have submitted **Sea Power in Its Relations to the War of 1812** - Alfred Thayer Mahan, 2015-05-06 *Sea Power In Its Relations To The War Of 1812 Volume II* from Alfred Thayer Mahan United States Navy flag officer geostrategist and historian 1840 1914 *Sea Power in its Relations to the War of 1812. T. (Alfred Thayer) Mahan, 2018-08-14 *Sea Power in its Relations to the War of 1812 Volume 2* by A T Alfred Thayer Mahan The squadron under Commodore William Bainbridge the third which sailed from the United States in October 1812 started nearly three weeks after the joint departure of Rodgers and Decatur It consisted of the Constitution and sloop of war Hornet then in Boston and of the Essex the only 32 gun frigate in the navy fitting for sea in the Delaware The original armament of the latter from which she derived her rate had been changed to forty 32 pounder carronades and six long twelves total forty six guns It is noticeable that this battery which ultimately contributed not merely to her capture but to her almost helplessness under the fire of an enemy able to maintain his distance out of carronade range was strongly objected to by Captain Porter On October 14 he applied to be transferred to the Adams giving as reasons my insuperable dislike to carronades and the bad sailing of the Essex which render her in my opinion the worst frigate in the service The request was not granted and Porter sailed in command of the ship on October 28 the two other vessels having left Boston on the 26th We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents

**Seapower** Geoffrey Till, 2013-02-21 This is the third revised and fully updated edition of Geoffrey Till's *Seapower: A Guide for the 21st Century* The rise of the Chinese and other Asian navies worsening quarrels over maritime jurisdiction and the United States maritime pivot towards the Asia Pacific region reminds us that the sea has always been central to human development as a source of resources and as a means of transportation information exchange and strategic dominion It has provided the basis for mankind's prosperity and security and this is even more true in the early 21st century with the emergence of an increasingly globalized world trading system Navies have always provided a way of policing and sometimes exploiting the system In contemporary conditions navies and other forms of maritime power are having to adapt in order to exert the maximum power ashore in the company of others and to expand the range of their interests activities and responsibilities While these new tasks are developing fast traditional ones still predominate Deterrence remains the first duty of today's navies backed up by the need to fight and win if necessary How navies and their states balance these two imperatives will tell us a great deal about our future in this increasingly maritime century This book investigates the consequences of all this for the developing nature composition and functions of all the world's significant navies and provides a guide for anyone interested in the changing and crucial role of seapower in the 21st century *Seapower* is essential reading for all students of naval power maritime security and naval history and highly recommended for students of strategic studies international security and International Relations

**Sea Power** E.B. Potter, 2014-06-15 A classic work widely acknowledged over the past 20 years as the definitive text on its subject All aspects of over 2 000 years of naval history are covered from Greek and Roman galley warfare to Vietnam and beyond with emphasis on the evolution of strategy tactics and weapons development With 14 authors it is not so much a symposium as a continuous narrative Acclaimed historians such as James C Bradford Henry H Adams and Craig Symonds lend their expertise to the work which continues to serve as a standard for any historical study of the role of navies on history

**Testing American Sea Power** Craig C. Felker, 2013-03-28 The Pacific Theater in World War II depended on American sea power This power was refined between 1923 and 1940 when the U S Navy held twenty one major fleet exercises designed to develop strategy and allow officers to enact plans in an operational setting Prior to 1923 naval officers relied heavily on the theories of Capt Alfred Thayer Mahan who argued that sea control was vital to military victory best attained through use of the battleship Fleet exercises however allowed valuable practice with other military resources and theories As a direct result of these exercises the navy incorporated different technologies and updated its own outdated strategies Although World War II brought unforeseen challenges and the disadvantages of simulation exercises quickly became apparent fleet problems may have

opened the door to different ideas that allowed the U S Navy ultimately to succeed Testing American Sea Power challenges the conventional wisdom that Mahanian theory held the American Navy in a steel grip Felker s research and analysis the first to concentrate on the navy s interwar exercises will make a valuable contribution to naval history for historians military professionals and naval instructors
