Kriegsmarine Auxiliary Cruisers Gordon Williamson, 2012-06-20 Despite being relatively unknown compared to famous ships like Graf Spee or Bismarke or the more famous U-boats the Auxiliary Cruisers were immensely successful not only in the number of enemy ships they sank but in the resources which were tied up trying to track them down The Royal Navy's auxiliary cruisers tended to be merchant vessels used to protect convoys from attack The German Auxiliary Cruisers however heavily armed and usually carried torpedo tubes as well as guns and even sometimes their own aircraft These ships were aggressive predators searching the sea lanes for unsuspecting enemy merchants and were not only capable of destroying enemy merchant ships but also of defending themselves against well

armed enemy warships This book looks at the specifications and designs of the 11 Auxiliary Cruisers as well as their combat histories their eventual fates and the careers of some of the most famous commanders **Paramount World** ,1960 **Mrs Ferguson's Tea-set, Japan and the Second World War** Eiji Seki,2006-11-09 The saga of the sinking of the Blue Funnel Line's ill fated SS Automedon in November 1940 by the German commerce raider Atlantis is well documented but in this new work the author argues that he is not just setting the history right in terms of the inaccuracies so far reported but is also offering significant new information based on direct contact with surviving members of the Automedon's crew and their families together with access to new primary sources Offering a Japanese perspective for the first time the book tracks the role of the Japanese navy as a silent partner and active participant in the war at sea against Britain and her allies prior to Japan's flagrant formal entry into the Second World War at Pearl Harbor The author argues that the cooperation between the German and Japanese navies led to Japan's final defeat when Admiral Yamamoto was misled by the intelligence obtained from the confidential Cabinet papers recovered from the Automedon One of the most significant conclusions to be drawn from this fascinating story that is relived here is how chance impacts on the outcome of conflict had not Mrs Violet Ferguson who was on board the Automedon at the time of its capture asked for the trunk containing her precious tea set to be saved the German crew would never have found the Automedon's secret strong room containing the Most Secret papers
