## **Sea The Sea Xenophon:**

**The Sea, the Sea** Xenophon, 2006 Only one man can lead the Greek army home Trying to help a prince overthrow the king of Persia the Greek army have been betrayed Now the surviving soldiers are trapped in a hostile country as unforgiving enemies attack from all sides Enter Xenophon a tough and brilliant leader He must guide the retreating Greeks across the treacherous mountains and rivers that stand in their way But can he lead them to freedom and to the great sea that will take them home *The Sea! The Sea!* Tim Rood, 2005 This book tells the story of Thalatta Thalatta The sea The sea the shout first uttered on a mountain in eastern Turkey by the army of 10 000 greek mercenaries whose adventures in what are now Turkey Syria and Iraq were described by the Athenian historian and philosopher Xenophon who also participated in the long march to the coast This story has played a persistent part in the European and American cultural tradition over the last two hundred years Rood tells its story taking in literary masterpieces by writers such as Heine Shelley and Joyce books of travel and adventure set in the Middle East and elsewhere articles in Victorian periodicals popular romantic novels newspaper editorials at the time of the British evacuation from Dunkirk a painting by the 19th century artist Benjamin Robert Haydon an unpublished radio play by Louis MacNeice and a modern novel and film which transfer Xenophon s story to New York

**Rulers of the Sea** John Nash, 2023-12-04 This is a study of sea power and maritime strategy in the Classical Greek world More than just a study of navies and battles it examines how the sea was used to influence events ashore and how the use of naval power combined with land power had a defining impact on the period After an examination of the oft overlooked practical issues of navigation and administration the book explores the idea of a maritime consciousness in Greece and how this shaped the way the Greeks engaged in war Naval operations from the Persian Wars down to the rise of Thebes are examined at the operational and strategic level including a catalogue of the hundreds of different maritime operations from the 5th and 4th centuries BCE Further while the great sea power Athens is most prominent it looks at other city states to examine how they utilised sea power This new approach uses modern theory to highlight some enduring lessons of sea power It demonstrates that Classical scholars should embrace sea power as an important concept in the Greek world Modern scholars of naval and strategic studies should cast their gaze further back in time when looking for lessons in sea power This book helps to bridge the scholarship between these two disciplines *The Politics of Viewing in Xenophon's Historical Narratives* Rosie Harman, 2023-01-12 This book considers cultural identity and power relations in early fourth century BCE Greece through a reading of Xenophon s historical narratives the Hellenica Anabasis and Cyropaedia These texts depict conflicts between Greek states conflicts between Greeks and non Greeks and relations between the elite individual and society In all three texts politically significant moments are imagined in visual terms We witness spectacles of Spartan military victory vistas of Asian landscape or displays of Persian imperial pomp and historical protagonists are presented as spectators viewing and responding to events Through this visual form of narration the reader is encouraged imaginatively to

place themselves in the position of the historical protagonists In viewing events from different perspectives and therefore occupying multiple often conflicting political positions the reader not only experiences the problems faced by historical actors but becomes engaged in the political conflicts acted out in the narratives The reader is prompted to take pleasure in the sight of Panhellenic achievement but also to witness the divisions and conflicts between Greeks on class and ethnic lines Similarly the reader is invited to identify with spectacular Greek and non Greek figures of power as emblems of Greek imperial potential but also to see through the eyes of those communities subjugated at their hands The depiction of spectacles and spectators draws the reader into an active participation in the ideological contradictions of their time in a period when Panhellenic aspiration co existed with hegemonic competition between Greek states and when Greeks could be both beneficiaries and victims of imperialism

Waterfield, 2006 With this first masterpiece of Western military history forming the backbone of his book Robin Waterfield explores what remains unsaid and assumed in Xenophon's account much about the gruesome nature of ancient battle and logistics the lives of Greek and Persian soldiers and questions of historical political and personal context motivation and conflicting agendas The result is a rounded version of the story of Cyrus's ill-fated march and the Greeks' perilous retreat a nuanced and dramatic perspective on a critical moment in history that may tell us as much about our present-day adventures in the Middle East since Cyrus's debacle and the last act of the Golden Age as it does about the great powers of antiquity in a volatile period of transition BOOK JACKET
