Sea Island to City Clyde Vernon Kiser, 1932 Sea Island to City. A Study of St. Helena Islanders in Harlem and Other Urban Centers, Etc. [A Thesis.]. Clyde Vernon KISER, 1932 Sea Island to City Clyde V. Kiser, 1967 Sea Island to City Clyde V. Kiser, Julian Smith Duncan, 1932 **First Fruits of Freedom** Janette Thomas Greenwood, 2010-03-01 A moving narrative that offers a rare glimpse into the lives of African American men women and children on the cusp of freedom First Fruits of Freedom chronicles one of the first collective migrations of blacks from the South to the North during and after the Civil War Janette Thomas Greenwood relates the history of a network forged between Worcester County Massachusetts and eastern North Carolina as a result of Worcester regiments taking control of northeastern North Carolina during the war White soldiers from Worcester a hotbed of abolitionism protected refugee slaves set up schools for them and led them north at war s end White patrons and a supportive black community helped many migrants fulfill their aspirations for complete emancipation and facilitated the arrival of additional family members and friends Migrants established a small black community in Worcester with a distinctive southern flavor But even in the North white sympathy did not continue after the Civil War Despite their many efforts black Worcesterites were generally disappointed in their hopes for full fledged citizenship reflecting the larger national trajectory of Reconstruction and its aftermath Daily Life during African American Migrations Kimberley L. Phillips, 2012-05-03 This book examines the century long migration of African Americans who moved within the South after the Civil War and then left to settle permanently in other regions irrevocably altering the political social and cultural history of the United States and considers these movements within the broader historical political and cultural context of the African Diaspora Daily Life during African American Migrations focuses attention to the everyday social cultural and political lives of migrants in the United States as they established communities far away from their former homes This book examines blacks labor and urban experiences social and political activism and cultural and communal identities while also considering the specificity of African Americans migration as part of their long struggle for freedom and equality The author merges information from black migration studies which focus on the internal movement of African American people in the United States with African Diaspora studies which consider peoples of African descent who have settled far from their native homes either voluntarily or through duress to document how these immigrants and their children create new communities while maintaining cultural connections with Africa The stories of the nine million African Americans who collectively left the South between 1865 and 1965 and the millions more who left the Caribbean and Africa not only document this long history of migration but also present compelling human drama *Black Exodus* Alferdteen Harrison, 2010-01-06 With essays by Blyden Jackson Derron Davis Stewart E Tolnay and E M Beck Carole Marks James R Grossman and William Cohen and Neil R McMillen What were the causes that motivated legions of black southerners to immigrate to the North What was the impact upon the land they left and upon the communities they chose for their new

homes Perhaps no pattern of migration has changed America's socioeconomic structure more than this mass exodus of African Americans in the first half of the twentieth century Because of this exodus the South lost not only a huge percentage of its inhabitants to northern cities like Chicago New York Detroit and Philadelphia but also its supply of cheap labor Fleeing from racial injustice and poverty southern blacks took their culture north with them and transformed northern urban centers with their churches social institutions and ways of life In *Black Exodus* eight noted scholars consider the causes that stimulated the migration and examine the far reaching results

Labor of Love, Labor of Sorrow Jacqueline Jones, 2009-12-29 The forces that shaped the institution of slavery in the American South endured albeit in altered form long after slavery was abolished Toiling in sweltering Virginia tobacco factories or in the kitchens of white families in Chicago black women felt a stultifying combination of racial discrimination and sexual prejudice And yet in their efforts to sustain family ties they shared a common purpose with wives and mothers of all classes In *Labor of Love Labor of Sorrow* historian Jacqueline Jones offers a powerful account of the changing role of black women lending a voice to an unsung struggle from the depths of slavery to the ongoing fight for civil rights

Collins,2011-06-01 No detailed description available for *The Processes of Urbanism* **Uncontrollable Blackness** Douglas J. Flowe,2020-05-12 Early twentieth century African American men in northern urban centers like New York faced economic isolation segregation a biased criminal justice system and overt racial attacks by police and citizens In this book Douglas J Flowe interrogates the meaning of crime and violence in the lives of these men whose lawful conduct itself was often surveilled and criminalized by focusing on what their actions and behaviors represented to them He narrates the stories of men who sought profits in underground markets protected themselves when law enforcement failed to do so and exerted control over public commercial and domestic spaces through force in a city that denied their claims to citizenship and manhood Flowe furthermore traces how the features of urban Jim Crow and the efforts of civic and progressive leaders to restrict their autonomy ultimately produced the circumstances under which illegality became a form of resistance Drawing

from voluminous prison and arrest records trial transcripts personal letters and documents and investigative reports Flowe opens up new ways of understanding the black struggle for freedom in the twentieth century By uncovering the relationship between the fight for civil rights black constructions of masculinity and lawlessness he offers a stirring account of how working class black men employed extralegal methods to address racial injustice
