**Transforming Consciousness** John Makeham, 2014-03-03 Yogacara is one of the most influential philosophical systems of Indian Buddhism. Competing traditions of Yogacara thought were first introduced into China during the sixth century. By the Yuan dynasty (1271-1368), however, key commentaries of this school had ceased being transmitted in China, and it was not until the end of the nineteenth century that a number of them were re-introduced from Japan, where their transmission had been uninterrupted. Within a few short years, Yogacara was being touted as a rival to the New Learning from the West, boasting not only organized, systematized thought and concepts but also a superior means to establish verification. This book accomplishes three goals. The first is to explain why this Indian philosophical system proved to be so attractive to influential Chinese intellectuals at a particular moment in history. The second is to demonstrate how the revival of Yogacara thought informed Chinese responses to the challenges of modernity in particular, modern science and logic. The third goal is to highlight how Yogacara thought shaped a major current in modern Chinese philosophy. **New Confucianism** Transforming Consciousness illustrates that an adequate understanding of New Confucian philosophy must include a proper grasp of Yogacara thought.

**The Oxford History of Historical Writing** Stuart Macintyre, Juan Maiguashca, Attila Pók, 2011-10-27 Volume 4 of The Oxford History of Historical Writing offers essays by leading scholars on the writing of history globally from 1800 to 1945. Divided into four parts, it first covers the rise, consolidation, and crisis of European historical thought and the professionalization and institutionalization of history. The chapters in Part II analyze how historical scholarship connected to various European national traditions. Part III considers the historical writing of Europe's Offspring: the United States, Canada, South Africa, Australia, New Zealand, Mexico, Brazil, and Spanish South America. The concluding part is devoted to histories of non-European cultural traditions: China, Japan, India, South East Asia, Turkey, the Arab world, and Sub-Saharan Africa. This is the fourth of five volumes in a series that explores representations of the past from the beginning of writing to the present day and from all over the world. This volume aims at once to provide an authoritative survey of the field and especially to provoke cross-cultural comparisons.

**Anarchy in the Pure Land** Justin Ritzinger, 2017-08-31 Anarchy in the Pure Land investigates the twentieth-century reinvention of the cult of Maitreya, the future Buddha conceived by the reformer Taixu and promoted by the Chinese Buddhist reform movement. The cult presents an apparent anomaly. It shows precisely the kind of concern for ritual, supernatural beings, and the afterlife that the reformers supposedly rejected in the name of modernity. This book shows that rather than a concession to tradition, the reimagining of ideas and practices associated with Maitreya was an important site for formulating a Buddhist vision of modernity. Justin Ritzinger argues that the cult of Maitreya represents an attempt to articulate a new constellation of values integrating novel understandings of the good clustered around modern visions of utopia with the central Buddhist goal of Buddhahood. In Part One, he traces the roots of this constellation to Taixu's youthful career as an anarchist. Part Two examines its articulation in the Maitreya School's theology and its social development from its inception to World War II. Part Three looks at its subsequent decline and contemporary legacy within

and beyond orthodox Buddhism Through these investigations Anarchy in the Pure Land develops a new framework for alternative understandings of modernity in Buddhism

**The Qing Dynasty and Traditional Chinese Culture** Richard J. Smith, 2015-10-23 The Qing dynasty 1636 1912 a crucial bridge between traditional and modern China was remarkable for its expansiveness and cultural sophistication This engaging and insightful history of Qing political social and cultural life traces the complex interaction between the Inner Asian traditions of the Manchus who conquered China in 1644 and indigenous Chinese cultural traditions Noted historian Richard J Smith argues that the pragmatic Qing emperors presented a Chinese face to their subjects who lived south of the Great Wall and other ethnic faces particularly Manchu Mongolian Central Asian and Tibetan to subjects in other parts of their vast multicultural empire They were attracted by many aspects of Chinese culture but far from being completely sinicized as many scholars argue they were also proud of their own cultural traditions and interested in other cultures as well Setting Qing dynasty culture in historical and global perspective Smith shows how the Chinese of the era viewed the world how their outlook was expressed in their institutions material culture and customs and how China's preoccupation with order unity and harmony contributed to the civilization's remarkable cohesiveness and continuity Nuanced and wide ranging his authoritative book provides an essential introduction to late imperial Chinese culture and society

How China Sees the World John M. Friend, Bradley A. Thayer, 2018-11-01 Han centrism a virulent form of Chinese nationalism asserts that the Han Chinese are superior to other peoples and have a legitimate right to advance Chinese interests at the expense of other countries Han nationalists have called for policies that will allow China to reclaim the prosperity stolen by foreign powers during the Century of Humiliation The growth of Chinese capabilities and Han centrism suggests that the United States its allies and other countries in Asia will face an increasingly assertive China one that thinks it possesses a right to dominate international politics John M Friend and Bradley A Thayer explore the roots of the growing Han nationalist group and the implications of Chinese hypernationalism for minorities within China and for international relations The deeply rooted chauvinism and social Darwinism underlying Han centrism along with China's rapid growth threaten the current stability of international politics making national and international competition and conflict over security more likely Western thinkers have yet to consider the adverse implications of a hypernationalistic China as opposed to the policies of a pragmatic China were it to become the world's dominant state

**After Eunuchs** Howard Chiang, 2018-08-07 For much of Chinese history the eunuch stood out as an exceptional figure at the margins of gender categories Amid the disintegration of the Qing Empire men and women in China began to understand their differences in the language of modern science In *After Eunuchs* Howard Chiang traces the

genealogy of sexual knowledge from the demise of eunuchism to the emergence of transsexuality showing the centrality of new epistemic structures to the formation of Chinese modernity From anticastration discourses in the late Qing era to sex reassignment surgeries in Taiwan in the 1950s and queer movements in the 1980s and 1990s After Eunuchs explores the ways the introduction of Western biomedical sciences transformed normative meanings of gender sexuality and the body in China Chiang investigates how competing definitions of sex circulated in science medicine vernacular culture and the periodical press bringing to light a rich and vibrant discourse of sex change in the first half of the twentieth century He focuses on the stories of gender and sexual minorities as well as a large supporting cast of doctors scientists philosophers educators reformers journalists and tabloid writers as they debated the questions of political sovereignty national belonging cultural authenticity scientific modernity human difference and the power and authority of truths about sex Theoretically sophisticated and far reaching After Eunuchs is an innovative contribution to the history and philosophy of science and queer and Sinophone studies
