## Search For Our Beginning:

Voices of the Matriarch Nana Ammissah, 2011-08-18 Our being born begs the question for what purpose or reason have we been born What do we need to know and how do we find out that purpose or reason for our lives Does it make any difference whether we know or not One wonders In our quest we become aware of other than we thought existed we become aware that in everything that exists there is an indelible Intelligence an intelligence that pervades all and works all including us This we cannot deny If we cannot deny the machinations of our body then we cannot deny the existence of our Maker Creator In our observance we have noted and acknowledged our God It therefore behoves and necessitates us to raise our awareness consciousness of all that exists The time has now come when man grown to psychological maturity as his god like powers over nature begin to demonstrate must needs express his maturity by coming to terms with the feminine that he has rejected and repressed *The Beginning and the End of 'Religion'* Nicholas Lash, 1996-06-28 The common view that religion is something quite separate from politics art science law and economics is one that is peculiar to modern Western culture In this book Professor Lash argues that we should begin to question seriously that viewpoint the modern world is ending and we are now in a position to discover new forms of ancient wisdom which have been obscured from view These essays explore this idea in a number of directions examining the dialogue between theology and science the secularity of Western culture and questions of Christian hope Part One examines the dialogue between Christianity and Hinduism while Part Two considers the relations between theology and science the secularity of Western culture and questions of Christian hope or eschatology *In the Beginning Were Stories, Not Texts* C S Song, 2012-08-30 According to Song the Christian faith is deeply rooted in storytelling stories are the most basic mode of human communication and in the same idea the Christian Bible is fundamentally a story Though Song regrets the fact that Christians and above all Christian theologians so often fail to express their faith in term of stories Christian theology is most often expressed in terms of concepts ideas and systems Following the conviction that this is the most appropriate way to express our faith the proposal of this book is to speak of Christian faith and theology through stories rather than systems and texts **Naval Research Logistics Quarterly** ,1958

**English Synonymes Explained, in Alphabetical Order; with Copious Illustrations and Examples Drawn from the Best Writers. By George Crabb, of Magdalen Hall, Oxford** George Crabb,1818 *In the Beginning: Hijacking of the Religion of God* Sami M. El-Soudani,2009-01-05 Preface It was shortly after I had graduated from the University of Cambridge in 1980 with a PhD Degree specializing in fracture mechanics and failure analysis of materials and structures that I discovered the dire need for this book This undertaking began to take shape in the early 1980s with the Middle East aflame devastated by what some viewed as a holy war and with millennialists prophesying the end of days by the year 2000 C E After publishing and co authoring 87 scientific and industrial reports and technical papers many of which were in national and international magazines on the subject of failure analysis of metals and fracture mechanics of aircraft structures I came to realize that consequences of failures of the human spirit are far more devastating than failures of metals and aircraft structures But now at the outset of the 21st century the world is still experiencing turmoil and devastation by wars spreading like wildfire with Jews Christians and Moslems at each other s throats in seemingly never ending battles and ugly strife Some call it war on terror others speak of wars of clashing cultures crusades jihad etc etc etc One cant help but wonder how this saga of 99% misery and 1% heroism will ever come to an end Only the gullible would attempt to explain the ongoing world conflict among People of the Book Jews Christians and Moslems based on the course of events during the past few years or even the past few decades This is where this book comes in with a rigorous rationalized and hopefully convincing critical assessment of a never before explored most innate aspect of the human nature and that is its obsession with hijacking of the religion of God For better understanding of the root cause of the ongoing conflict among People of the Book who are supposed to be worshipping the same God we need to take a step back take a deep breath and reflect rationally while ignoring all rhetoric and emotional bias in researching the past three thousand years of religious history And this is exactly what I did in writing this three volume book More specifically this book is addressing the religion of God to whom every human being from among the so called People of the Book today turns in prayer Whether soldiers or civilians when they are caught in the midst of the ongoing grisly and devastating wars some would pray to Yahweh others call upon Jesus Christ

while Moslem brethren whisper the name of Allah upon taking their last breath Who is that God And why is He so shrouded with mystery Is He truly One and the Same God for all these people Or are we suffering from some self delusions and possibly hallucinations that may be the senseless products of our ancient religious fabrications and mythmaking Going back in time three thousand years brings us to one very special night when God was said to have come down in person onto Mount Sinai to have a close encounter with human beings through direct speech This three volume book examines the course of religious events from that magic and apocalyptic moment onwards till this day It took me twenty years of research to show that men who practiced hijacking long before they had wings have been quite active over the past three thousand years engaging in the lucrative business of hijacking the religion of God All three religious persuasions Judaism Christianity and Islam suffered the dire consequences of miserably failing to heed the words of our Merciful and Patient God No irony intended here in calling it a business and indeed a lucrative one because it brings the hijackers power enormous wealth and often glory all of which in the sight of God translate respectively into arrogance greed and most certainly infamy In developing the extensive critical review of religion presented herein detailing the respective histories of the selected three religious persuasions Jud Wisdom Hidden in a Mystery a Love Story Bertha Hicks-Drake,2007 The author reveals who the woman of Revelation is a woman clothed with the sun and the moon under her feet and upon her head a crown of twelve stars And she being with child cried travailing in birth and pained to be delivered and what she is doing in heaven **The Seeker, the Search, the Sacred** Guy Finley,2011-10-01 From the bestselling author of The Essential Laws of Fearless Living and The Courage to Be Free The Seeker the Search the Sacred is about the universal and timeless spiritual principles that lead us to a personal discovery of divine guidance and higher insight This is a landmark work by self realization teacher and bestselling author Guy Finley who offers it as compelling evidence that within every human being dwells a nameless Sacred Being that teaches us to live in the light of our own true selves In The Seeker the Search the Sacred Finley presents passages from all the major religious traditions and philosophies to demonstrate how they all work in concert to describe different aspects of a single compassionate loving and divine intelligence Finley includes hundreds of quotes and inspiring thoughts from writers teachers and philosophers from around the world making The Seeker the Search the Sacred an essential guide for positive living and creating an authentic life **The Writer's Guide to Beginnings** Paula Munier,2016-11-15 Give your story its best start The best beginnings possess a magical quality that grabs readers from the first word and never lets them go But beginnings aren t just the door into a fictional world They are the gateway to the realm of publishing one that could shut as quickly as it opens In The Writer s Guide to Beginnings author and literary agent Paula Munier shows you how to craft flawless beginnings that impress agents engage editors and captivate readers You ll learn how to develop the big idea of your story and introduce it on page one structure opening scenes that encompass their own story arc kickstart your writing with effective brainstorming techniques and introduce a compelling cast of characters that

can make any kind of customization you want from choosing the keystrokes that invoke your favorite commands to creating a whole new work environment that looks like nothing ever developed before It s all in Emacs Lisp and in this short but fast paced book GNU Emacs is more than an editor it s a programming environment a communications package and many other things To provide such a broad range of functions it offers a full version of the Lisp programming language something much more powerful than the little macro languages provided in other editors including older versions of Emacs GNU Emacs is a framework in which you can create whole new kinds of editors or just alter aspects of the many functions it already provides In this book Bob Glickstein delves deep into the features that permit far reaching Emacs customizations He teaches you the Lisp language and discusses Emacs topics such as syntax tables and macro templates in easy to digest portions Examples progress in complexity from simple customizations to extensive major modes You will learn how to write interactive commands use hooks and advice perform error recovery manipulate windows buffers and keymaps exploit and alter Emacs s main loop and more Each topic is explored through realistic examples and a series of successive refinements that illustrate not only the Emacs Lisp language but the development process as well making learning pleasant and natural
