**Inquiry and Change** Charles E. Lindblom, 1990-01-01 Winner of the American Political Science Association's 1991 Woodrow Wilson Foundation Book Award for the best book published in the United States during 1990 on government politics or international affairs How do ordinary citizens government officials opinion leaders or social scientists attempt to solve social problems How competent are we at defining the problems seeking information and finding answers In this important and controversial book a distinguished social scientist meticulously analyzes our attempt to understand society so that we can reshape it In so doing he largely bypasses both epistemology and contemporary highly abstract theory on knowledge and society in order to achieve a far more concrete analysis of discourse and inquiry in social problem solving There is a tragic discrepancy argues Charles E Lindblom between our abilities to solve problems and the difficulty of the problems to be solved We must make do with inadequate information and inconclusive analyses for the task is less one of learning the truth than of proceeding in inquiry and decisions when the truth cannot be known Lindblom discusses the many obstacles that prevent us from solving social problems focusing in particular on learned incompetence According to Lindblom parents teach children not to think certain thoughts and schools often engage more in indoctrination than education Political rhetoric and commercial sales promotion feed a steady diet of misrepresentation Social science does help But because it is dependent on popular thought it shares the impairments of thought found in both political figures and ordinary citizens It also develops its own distinctive impairments and is to a degree crippled by its narrow view of scientific method often more interested in proving than probing Although social science can be improved in ways that Lindblom outlines in his book social inquiry calls for such significant contributions from lay thought that it renders many conventional ideals of scientific problem solving inappropriate Lindblom contends that the route to better social problem solving is not through either scientific or popular consensus or agreement however much they are valued in the world of science and social science but through a competition of ideas The index of a society's competence he states is in its discord over ends values or purposes As usual Lindblom cuts through to the core of the issue How is society to understand its central problems and challenges With originality and courage he takes on the
