The Oxford History of World War II Richard Overy, 2023-02-01 Histories you can trust World War Two was the most devastating conflict in recorded human history It was both global in extent and total in character It has understandably left a long and dark shadow across the decades Yet it is three generations since hostilities formally ended in 1945 and the conflict is now a lived memory for only a few And this growing distance in time has allowed historians to think differently about how to describe it how to explain its course and what subjects to focus on when considering the wartime experience For instance as World War Two recedes ever further into the past even a question as apparently basic as when it began and ended becomes less certain Was it 1939 when the war in Europe began Or the summer of 1941 with the beginning of Hitler's war against the Soviet Union Or did it become truly global only when the Japanese brought the USA into the war at the end of 1941 And what of the long conflict in East Asia beginning with the Japanese aggression in China in the early 1930s and only ending with the triumph of the Chinese Communists in 1949 In *The Oxford History of World War Two* a team of leading historians reassesses the conflict for a new generation exploring the course of the war not just in terms of the Allied response but also from the viewpoint of the Axis aggressor states Under Richard Overy's expert editorial guidance the contributions take us from the genesis of war through the action in the major theatres of conflict by land sea and air to assessments of fighting power and military and technical innovation the economics of total war the culture and propaganda of war and the experience of war and genocide for both combatants and civilians concluding with an account of the transition from World War to Cold War in the late 1940s Together they provide a stimulating and thought provoking new interpretation of one of the most terrible and fascinating episodes in world history

Model Workers in China, 1949-1965 James Farley, 2019-06-04 Seismic changes in ideology and economic policy in China followed the death of Mao Zedong but one aspect of culture has remained constant the use of Model Workers for the purposes of propaganda and more recent public relations campaigns In both a political and commercial context the use of these individuals continues to thrive and although the messages they promote have largely changed their continued use indicates the extent to which they are believed to be an effective form of persuasion Model Workers were deployed at key points in China's recent history and served to embody the Party's vision of the ideal Chinese citizen as they attempted to reshape the nation following a Century of Humiliation a ruinous war with Japan and a divisive civil war This volume utilises
