The Music of Frederick Delius Jeremy Dibble, 2021 This book examines Delius's individual approaches to genre form harmony orchestration and literary texts which gave the composer's musical style such a unique voice Frederick Delius 1862-1934 music has proved impervious to analytical definition Delius's approaches to genre form harmony orchestration and literary texts are all highly individual not to say eccentric in their deliberate aim to avoid conformity Rarely does Delius follow a conventional line and though one can readily point to important influences the larger Gestalt of each work has a syntax and coherence for which conventional analytical methods are mostly inadequate Delius's musical style has also defied one of the most essential critical tools of his musical epoch that of national identity His style bears no relation either to the Victorian or Edwardian aesthetic of British music spearheaded by Parry Stanford and Elgar before the First World War nor to the more overtly nationalist folk song orientated pastoralism of post war Britain in such composers as Vaughan Williams and Holst In contrast Delius acknowledged himself a stateless individual and considered that his music refused to belong to any national school or movement To test these claims the book explores a number of important factors Delius's musical education at the Leipzig Conservatorium and the works he produced there Delius's musical voice notably his harmonic and melodic style and the close structural relationship between these two factors The book also explores the question of Delius and genre in which the investigation of form is central especially in opera the symphonic poem the choral work where words are seminal to the creation of structural design and the sonata and concerto to which Delius brought his own individual solution Other significant factors are Delius's cosmopolitan use of texts operatic plots and picturesque impressions his relationship to Nietzsche's writings and the genre of dance and the role of his earlier works 1888-1896 in which it is possible to plot a course of stylistic change with reference to the influences of Grieg Sinding Florent Schmitt Wagner Strauss and Debussy In Britain in such composers as Vaughan Williams and Holst In contrast Delius acknowledged himself a stateless individual and considered that his music refused to belong to any national school or movement To test these claims the book explores a number of important factors Delius's musical education at the Leipzig Conservatorium and the works he produced there Delius's musical voice notably his harmonic and melodic style and the close structural relationship between these two factors

He was an extraordinarily versatile composer equally at home with orchestral instrumental and chamber works as with choral works and songs and Delius and his Music covers his entire output. Everything he published from his earliest compositions and trifiles to the mighty ninety minute A Mass of Life is analysed here in nontechnical language. The history and background of each work and its critical reception are also examined set within a biography and against a backdrop of the English musical scene and some of its personalities during the seventy years of Delius's life. There are numerous musical examples and many quotations from contemporary newspapers and journals as well as a complete list of Delius's works with catalogue numbers and a select bibliography. This book will appeal not only to students and Delian scholars but also to everyone who already has an interest in Delius's unique music or who would like to discover it for the first time.
