## **Searching Beyond The Horizon:**

*In Search of the Hidden Treasure* George Rapanos, 2006-12-01 *In Search of the Hidden Treasure* The Pearl of Great Worth is a book dealing with religious transformation It is an aggregate of various sources as diverse as Buddha Meister Eckhart Edna St Vincent Millay Samuel Taylor Coleridge Walt Whitman and the Bible This book is both a spiritual autobiographical affirmation of my faith and encouragement to those who wish to follow a path that may lead them to spiritual fulfillment It evolved from a religious revelation which I had in 1984 and is an anguished forthright attempt to come to grips with the religious issues which I found hostile and unfriendly and contained in daily life It is not my intent to reveal a set of truths about God as much as it is an attempt to convey through prose poetry quotations parables wisdom tales and my own mythological story and poetic works the intuition of reality that touches the heart and burns and stirs the soul I have written what I feel is crucial and important in describing the reality of truth

**Looking Beyond?**, 2012-01-01 Religion is undergoing a transformation in current Western society In addition to organized religions there is a notable movement towards spirituality that is not associated with any institutions but in which experiences and notions of transcendence are still important Transcendence can be described as God the absolute Mystery the Other the other as alterity depending on one's worldview In this book these shifts in the views of transcendence in various areas of culture such as philosophy theology art and politics are explored on the basis of a fourfold heuristic model proposed by Wessel Stoker In conversation with this model various authors established scholars in their fields explain the meaning and role or the critique of transcendence in the thought of contemporary thinkers fields of discourse or cultural domains *Looking Beyond* will stimulate further research on the theme of transcendence in contemporary culture but can also serve as a textbook for courses in various disciplines ranging from philosophy to theology cultural studies literature art and politics

Forging the Trident John B Hattendorf, William P Leeman, 2020-11-15 Although Theodore Roosevelt has been the subject of numerous books there has not been a single volume that traces Roosevelt's interaction with the U S Navy from his work as a naval historian in the 1880s through his leadership of the Navy as president in the early twentieth century The editors of

this volume fill in this gap in the historical literature Each essay in this collection by leading historians of American naval history will cover one aspect of Roosevelt s relationship with the Navy while addressing the unifying theme of his use of history and America s naval heritage to advocate for strengthening and modernizing the Navy during his own lifetime In addition to the book editors contributors are Sarah Goldberger James R Holmes David Kohnen Branden Little Jon Scott Logel Edward J Marolda Kevin D McCranie Matthew Oyos Jason W Smith and Craig L Symonds **Looking Beyond Borderlines** Lee Rodney,2016-12-19 American territorial borders have undergone significant and unparalleled changes in the last decade They serve as a powerful and emotionally charged locus for American national identity that correlates with the historical idea of the frontier But the concept of the frontier so central to American identity throughout modern history has all but disappeared in contemporary representation while the border has served to uncomfortably fill the void left in the spatial imagination of American culture This book focuses on the shifting relationship between borders and frontiers in North America specifically the ways in which they have been imaged and imagined since their formation in the 19th century and how tropes of visibility are central to their production and meaning Rodney links ongoing discussions in political geography and visual culture in new ways to demonstrate how contemporary American borders exhibit security as a display strategy that is resisted and undermined through a variety of cultural practices Logistics and Supply Chain Management ,2001

and witty exuding an energy enthusiasm and youthful spirit that belied his years by decades Aging does not diminish our power our energy and our quest for life but reshapes it with new understandings goals and needs But says Guttmann we live in a technical and machine based world now in which there is a danger of losing our souls Here readers find a new creative perspective on aging and a fresh spiritual outlook This book will be of interest not only to general readers especially those at midlife and beyond but also to their families friends and students or professionals in the helping professions This unique work provides knowledge to find meaning in life derived from the fields of philosophy psychology religion and gerontology with case illustrations and vignettes to give readers both intellectual pleasure and practical guidance *Printers' Ink* ,1925
