Searching For Peace The Road To Transcend:

Searching For Peace Johan Galtung,Carl G. Jacobsen,Kai-Frithjof Brand-Jacobsen,2002-05-20 This new updated and extensively revised edition of Searching for Peace is one of the first books to bridge the gap between peace and conflict studies world order and globalisation Revealing deep structures and deep cultures of violence and finding in them the reasons for increasing violence and peacekeeping failures it presents the lessons that can be learned from the TRANSCEND approach adopted as a UN training guide A critical and piercing analysis of the short comings of conventional approaches to conflict resolution realpolitik and worsening dynamics of global violence which if not resolved threaten even more catastrophic destruction in the future The book maps the conditions and path to sustainable peace and the challenge for peace by peaceful means **Searching for Peace** Johan Galtung,Carl G. Jacobsen,Kai Frithjof Brand-Jacobsen,Finn Tschudi,2000 A comprehensive guide to conflict resolution that draws on the Transcend approach to peace making now adopted by the United Nations The Transformation of Violent Intercommunal Conflict Stephen Ryan,2016-02-24 In recent years there has been a remarkable growth of interest in the concept of conflict transformation and the closely related strategy of grass roots peace building Yet there exists no general critical analysis of the concept of conflict transformation in the context of violent inter communal conflict and the different approaches that can be included in response to this category of dispute This study offers a comprehensive survey and critical overview of this emerging area Examining the reasons for the growing interest in the concept of conflict transformation in situations of ethnic conflict the book explores the different dimensions of transformation It draws on examples of strategies from a number of situations of ethnic conflict including Northern Ireland Israel Palestine Bosnia Kosovo Cyprus Spain Sri Lanka and the former Soviet Union to identify and assess key issues and problems that have emerged and ultimately to propose a stronger emphasis on the promotion of inter subjective understanding *Searching for Peace* ,2000 **Searching for Peace** Johan Galtung,Carl G. Jacobsen,2000 Drawing on the Transcend approach to peace making Searching for Peace provides a comprehensive guide to conflict resolution The TRANSCEND method now used by the UN as a guide to future conflict resolution approaches applies to all conflict constellations It has been used in Northern Ireland Kashmir Korea the Gulf conflict Ecuador and Peru Kosovo Guatemala and Honduras and China and Tibet Searching for Peace provides a wide ranging survey of past and present approaches to violent conflict prevention and includes detailed analysis of over forty conflicts as case studies It critiques the failures of recent peacekeeping and peacemaking efforts while presenting the multi decade research and arguments that underlie the Transcend approach Aiming to include all participants in the peace dialogue TRANSCEND offers hopeful prescriptions for the future **The Ashgate Research Companion to Political Violence** Marie Breen-Smyth,2016-03-23 Aimed at scholars students and lay persons interested in peace and conflict studies The Ashgate Research Companion to Political Violence is a comprehensive resource to understand the principal debates on political violence a field which is

becoming an increasingly important part of courses on peace and conflict Organized into seven main sections this volume deals with a wide range of issues covering the following important research areas Issues of definition and nomenclature and how contests over these relate to political violence Theoretical frameworks and methods for understanding and researching political violence Motivations and goals of those who use political violence The various forms of political violence Perspectives on countering political violence by state and non state actors Why and how political violence ends The aftermath of political violence Contributions by leading scholars in the field provide an authoritative guide and source book on political violence for the scholar the researcher and the informed general reader **Passion for Peace** Stuart Rees,2003 Passion for Peace considers the use of non violence and attaining human rights for all It also raises questions about current issues including peace in the Middle East US unilateralism the war on terrorism powerlessness associated with poverty racism and justice for asylum seekers BOOK JACKET **Peace Through Health** Neil Arya,Joanna Santa Barbara,2008 We typically define and talk about wars using the language of politics but what happens when you bring in a doctor s perspective on conflict Can war be diagnosed like an illness Can health professionals participate in its mitigation and prevention The contributors to Peace through Health How Health Professionals Can Work for a Less Violent World engage with these ground breaking ideas and describe tools that can further peace once war is understood as a public health problem The idea of working for peace through the health sector has sparked many innovative programs described here by over 30 experts familiar with the theory and practice of Peace through Health They cover topics such as prevention and therapy program evaluations medical ethics activism medical journals human rights and the uses of epidemiology Those considering careers in medicine and other health and humanitarian disciplines as well as those concerned about the growing presence of militarized violence in the world will value the book s many insights Other Contributors Will Boyce Caecilie Buhmann Anne BundeBirouste Kenneth Bush Helen Caldicott Rob Chase Khagendra Dahal Hamit Dardagan Ann Duggan Lowell Ewert Paul Farmer Norbert Goldfield Paula Gutlove Katherine Kaufer Christoffel Maria Kett John Last Barry S Levy Tarek Loubani Evan Lyon Graeme MacQueen Ian Maddocks Ambrogio Manenti Klaus Melf Viet Nguyen Gillham Wendy Orr Andrew D Pinto Alex Rosen Simon Rushton Hana Saab Victor W Sidel Sonal Singh John Sloboda Karen Trollope Kumar Marshall Wallace Jim Yong Kim Anthony Zwi **Encyclopedia of Peace Education** Monisha Bajaj,2008-05-01 The rise of peace education both in scholarship and in practice has yielded numerous documents websites and publications with often divergent perspectives on what the field is does and means The Encyclopedia of Peace Education provides a comprehensive overview of the scholarly developments in the field to date so as to provide a common denominator for the various actors involved in advancing peace education internationally Thus this edited volume serves as an essential reference guide that traces the history and emergence of the field highlights foundational concepts contextualizes peace education practice across international and disciplinary borders and suggests new directions for peace educators From core conceptual perspectives to the moral and

spiritual foundations of the field to the role of the United Nations the Encyclopedia grounds peace education in a solid theoretical and practical framework through the writings of the field s most renowned scholars This volume will target undergraduate and graduate students as well as scholars and practitioners working in international and non governmental organizations in the field of peace education **Peace in International Relations** Oliver P. Richmond,2020-01-06 This updated and revised second edition examines the conceptualisation and evolution of peace in International Relations IR theory The book examines the concept of peace and its usage in the main theoretical debates in IR including realism liberalism constructivism critical theory and post structuralism as well as in the more direct debates on peace and conflict studies It explores themes relating to culture development agency and structure not just in terms of representations of IR and of peace but in terms of the discipline of IR itself The work also specifically explores the recent mantras associated with liberal and neoliberal versions of peace which appear to have become foundational for much of the mainstream literature and for doctrines for peace and development in the policy world Analysing war has often led to the dominance and mitigation of violence as a basic assumption in and response to the problems of IR This study aims to redress this negative balance by arguing that the discipline offers a rich basis for the study of peace which has advanced significantly over the last century or so It also proposes innovative theoretical dimensions of the study of peace with new chapters discussing post colonial and digital developments This book will be of great interest to students of peace and conflict studies politics and IR *Handbook of Conflict Analysis and Resolution* Dennis J.D. Sandole,Sean Byrne,Ingrid Sandole-Staroste,Jessica Senehi,2008-07-31 This major Handbook comprises cutting edge essays from leading scholars in the field of Conflict Analysis and Resolution CAR The volume provides a comprehensive overview of the core concepts theories approaches processes and intervention designs in the field The central theme is the value of multidisciplinary approaches to the analysis and *Turkey and the Kurdish Peace Process* Arin Savran,2022-11-03 After the fall of the Ottoman Empire following World War I the Kurds in the Middle East became the largest ethnic group in the region without a state of their own Divided between Turkey Syria Iran and Iraq the Kurds have fought for their right to exist as a distinct national group as well as for governing themselves Turkey and the Kurdish Peace Process provides a historical and conceptual account of events in order to detail the key conditions factors and events that gave rise to the PKK Kurdistan Workers Party conflict in Turkey as well as the conditions influencing the emergence management and collapse of the peace talks Drawing from conflict resolution theories this book investigates the transformation of key conflict actors and changes over time in their approach to the main conflict issues Moreover Arin Y Savran expands the concept of conflict transformation to encompass the ideological transformation of a movement as a result of a rigorous and deep intellectual epiphany on the part of the political leaders a phenomenon that is unusual and little is known about making it all the more relevant to include in future theoretical approaches in peace process studies Methodologically she rethinks conflict transformation resolution approaches to focus on shifts in beliefs and relationships

that occur prior to a peace process or the start of peace negotiations when often much focus on peace processes is on the post agreement phase This book is among the first comprehensive scholarly accounts to date in the English language that analyzes the Kurdish peace process   *The Transformation of Peace* Oliver P. Richmond,2024-06-06 The second edition of this influential book examines the transformation of the discourse and praxis of peace from its early beginnings in the literature on war and power to the development of intellectual and theoretical discourses of peace contrasting this with the development of practical approaches to peace and examining the intellectual and policy evolution regarding peace Now with reflections on each chapter and a new introduction and conclusion the book is essential reading for researchers and students of peace and conflict studies and beyond   **The Palgrave Handbook of Global Approaches to Peace** Aigul Kulnazarova,Vesselin Popovski,2018-12-19 With existing literature focusing largely on Western perspectives of peace and their applications a global understanding of peace is much needed Spurred by more recent debates and discourses that criticize the dominant realist and liberal approaches for crises in contemporary state and peace building the contributors to this handbook emphasize not only the need to solve this eternal conundrum of humanity but also demand with the rise of increasingly more violent conflicts in international relations the development of a global interpretive framework for peace and security To this end the present handbook examines conceptual institutional and normative interpretive approaches for making building and promoting peace in the context of roles played by state and non state actors within local national regional and global units of analysis   **Negotiating Armenian-Azerbaijani Peace** Ohannes Geukjian,2016-04-22 Conflict resolution conflict management and conflict transformations are major themes in this unique book which examines explores and analyses the mediation attempts of the Organization for Security and Cooperation in Europe in the Nagorno Karabakh conflict Ohannes Geukjian shows the most striking characteristic of a protracted internal conflict such as this is its asymmetry and explains that without meeting basic human needs like identity recognition security and participation resolving any protracted social conflict is very difficult The Armenian Azerbaijani case demonstrates how official diplomacy may not be able to solve protracted internal conflicts as without addressing the real causes of the problematic relationship attempts at peace making will always be sporadic and the space for mutual understanding and compromise shrink Geukjian shows that conflict transformation has a particular salience in asymmetric conflicts such as this where the goal is to transform unjust relationships and where a high degree of polarisation between the disputants has taken root Using the Nagorno Karabakh case this book focuses on the anatomy and causes of deadlock in negotiations and highlights the many difficulties in achieving a breakthrough   The Transformation of Peace O. Richmond,2016-01-08 This book examines the transformation of the discourse and praxis of peace from its early beginnings in the literature on war and power to the development of intellectual and theoretical discourses of peace contrasting this with the development of practical approaches to peace and examining the intellectual and policy evolution regarding peace   *Peace in International Relations* Oliver

Richmond,2003-03-19 This book examines the way in which peace is conceptualized in IR theory a topic which has until now been largely overlooked The volume explores the way peace has been implicitly conceptualized within the different strands of IR theory and in the policy world as exemplified through practices in the peacebuilding efforts since the end of the Cold War Issues addressed include the problem of how peace efforts become sustainable rather than merely inscribed in international and state level diplomatic and military frameworks The book also explores themes relating to culture development agency and structure It explores in particular the current mantras associated with the liberal peace which appears to have become a foundational assumption of much of mainstream IR and the policy world Analyzing war has often led to the dominance of violence as a basic assumption in and response to the problems of international relations This book aims to redress the balance by arguing that IR now in fact offers a rich basis for the study of peace   Peace, Conflict and Identity Robert C. Hudson (dir.),Wolfgang Benedek (dir.),Francisco Villanueva Ferrándiz (dir.),2009-07-01 Peace Conflict and Identity is the third book in the junior series of the EDEN European Doctoral Enhancement Programme in Peace and Conflict Studies and contains cuting edge research that was first delivered in a series of presentations by PhD students at two of the EDEN Intensive Programmes held at the universities of Deusto and Graz in 2007 and 2009 respectively The book has been edited in the spirit that publishing work whilst still engaged on a post graduate research programme is an essential element of early career progression As such several of the contributors to this book have since gained their doctorates   **Fostering Change in Institutions, Environments, and People** David C. Berliner,Haggai Kupermintz,2014-04-08 This volume is comprised of contributions from leading scholars in education and psychology In part one of the book the authors provide insight into the psychology of change examining What factors work as catalysts for change in environments institutions and people What factors hinder change When change is deemed beneficial In the second part of this volume the authors turn their attention to the issue of peace education They examine the types of problems that societies and scholars should identify and try to solve in hopes of building more peaceful environments The final chapter is a biography honoring Professor Gavriel Gabi Salomon a significant contributor to the vast literature on change This book is appropriate reading for professors students and academics who are dedicated to fostering change to benefit institutions environments and people   Psychosocial Approaches to Peace-Building in Colombia Stella Sacipa-Rodriguez,Maritza Montero,2014-03-24 This edited volume summarizes the work of a research group called Social Bonds and Cultures of Peace that accompanies and supports victims of socio political violence in Columbia The individual chapters focus on the ongoing violence in the Colombian context a complex and dynamic area in which various groups drug traffickers national armed forces guerrilla fighters self defence groups have been engaged in organized violence for more than 60 years Emphasis is placed on the psychological consequences of violence and various forms of psychosocial support that psychologists have been providing to the victims of violence Central to their work is the notion of accompanying those who have been victims of violence listening to them

engaging them in dialogue and working together to strengthen the resources of victims The recovery of individual and collective memories of atrocities is discussed as an important avenue for healing and for the empowerment of individuals and groups The solidarity among victims creates opportunities at the grassroots level to pursue truth reveal perpetrators of violence seek public acknowledgment and attain social justice For perpetrators of violence and members of armed groups the book addresses a host of psychosocial issues related to disarming demobilizing and reintegrating former combatants including children into society Throughout the book in the spirit of peace psychology the researchers are engaged in a form of praxis that is cognizant of the wider geohistorical context within which victims and perpetrators are embedded and the dialectical relationship between micro and macro level events and change Researchers in Latin American studies peace psychology social justice and transitional justice will find this volume to be an excellent resource
