Singapore and Asia in a Globalized World Wai Mun Chia,Hui Ying Sng,2009 This book is a spin off from a highly successful seminar series jointly organized by the Division of Economics of the Nanyang Technological University NTU and the Ministry of Education MOE of Singapore The seminars discuss contemporary domestic and regional economic issues and public policies that are relevant to the everyday lives of Singaporeans The wish to introduce these economic issues to a broader audience outside the confinement of a lecture theatre came to fruition with the completion of this book This book contains 13 chapters that are grouped under three sections Under the section Public Policies and Economic Issues of Singapore Singapore s public policies in the areas of healthcare Central Provident Fund and monetary policy are explored as well as issues concerning Singapore s economic development such as economic transformation innovation and capital accumulation are discussed The second section Singapore and the Region in a Globalized World looks at the challenges and opportunities presented to Singapore and the region in an increasingly globalized world Current issues on the sub prime crisis and Asian monetary integration are also discussed The last section Other Economic Issues consists of papers in specific areas such as economics of medical decisions economics of love and the role of exchange rates in foreign direct investment

Singapore, the Energy Economy Weng Hoong Ng,2013-05-24 Singapore might not have survived the 1960s and prospered thereafter had it not built its economy on the foundations of oil refining trading and support for oil and gas

exploration and production Cheap oil sound policies and strong government combined to produce the Singapore economic miracle in its first 50 years of self rule independence With the end of cheap oil how will Singapore fare and what is the relevance of its model of development for other countries Singapore s successful launch coincided with a golden period of cheap energy and a pro globalization and free trade environment These three elements are now under threat from rising energy prices and the global financial crisis which started in 2007 that will leave a lasting impact on the world s political and economic landscape If the Singapore model is reaching or has reached its peak what could take its place This book poses questions for not just for Singapore planners but also for anyone interested in modern economics and trade beyond the current era The book also looks into the numerous subsectors within Singapore s broad energy sector and examines the energy sector s links with the other pillars of its economy trade financial offshore marine operations manufacturing and transportation It considers possible threats and challenges Singapore s rising energy intensity its vulnerability to energy supply cut offs the likely impact of peak oil terrorism and environmental climate issues It also looks at China s growing investment and role in Singapore s oil and gas industry The book is a must read for an excellent insight into Singapore s energy economy filled with data information interviews and analyses previously not available to the public
