implement policy initiatives in their respective schools or lead change in that area. The case studies span over a wide range of domains such as instructional leadership, assessment, leadership, stakeholder engagement, professional learning communities and school branding. The data collected from these case studies came primarily from interviews of educators in their respective school contexts in addition to other sources of data such as artifacts. Each case study highlights descriptions, interpretations and perspectives across school contexts which is consistent with the proposition that school leadership is very much shaped by context. At the end of each chapter there are guiding questions to help readers critically analyse and reflect on the main learning points of the case.

Modern Chinese Religion II: 1850 - 2015 (2 vols.), 2015-10-20. The last of four two volume sets on the key periods of paradigm shift in Chinese religious and cultural history, this book examines the transformation of values in China since 1850 in the secular realms of economics, science, medicine, aesthetics, media and gender, and in each of the major religions: Confucianism, Buddhism, Daoism, Christianity, as well as in Marxist discourse. The nation and science are the values invoked most frequently with the market and democracy a distant second. As in previous periods of fundamental change in Chinese history, rationalization and secularization have played central roles but interiorization nearly disappears as a driving force. Also in continuity with the past, the state insists on an exclusive right to define and adjudicate orthodoxy. Contributors include Daniel H. Bays, S. Bastien, Billioud, Adam Yuet Chau, Na Chen, Philip Clart, Walter B. Davis, Arif Dirlik, Thomas David DuBois, Lizhu Fan, David Faure, Melissa Wei Tsing Inouye, Ji Zhe, Xiaofei Kang, Eric I.
