People's China and International Law, Volume 1 Jerome Alan Cohen, Hungdah Chiu, 2017-03-14 In the first of two volumes Jerome Alan Cohen and Hungdah Chiu have presented in a comprehensive form the views of the People's Republic of China on all the major questions of public international law. The material chosen includes official acts and statements from every level of the Chinese government, editorials and major articles from the People's Daily, dispatches of the New China News Agency and other government media, the writings of Chinese scholars and the speeches of China's leaders. Exam Literacy Jake Hunton, 2018-08-13 In *Exam Literacy* A guide to doing what works and not what doesn't to better prepare students for exams. Jake Hunton focuses on the latest cognitive research into revision techniques and delivers proven strategies which actually work. Foreword by Professor John Dunlosky. Read, highlight, reread, repeat. If such a revision cycle sounds all too wearily familiar, you and your students need a better route to exam success. And in light of the recent decision to make all subjects at GCSE linear so that students will be tested in one-off sittings, it will be even more important that students are well equipped to acquire and recall key content ahead of their exams. In this wide-ranging guide to effective exam preparation, Jake Hunton casts a careful eye over a wide range of research into revision techniques and details the strategies which have been proven to deliver the best results. With plenty of practical suggestions and subject-specific examples, *Exam Literacy* provides teachers with user-friendly advice on how they can make the content they cover stick and shares up-to-date evidence-based information on: The nature of learning and the various types of memory; How to improve students' retention of knowledge and recall of content; Why popular revision techniques such as rereading, highlighting and summarising may not be as effective as you think; How revision strategies that have been identified as being more effective, such as interleaving, elaborative interrogation, self-explanation and retrieval practice, can be embedded into day-to-day teaching; How students can be encouraged to make use of these winning strategies when revising independently.

in the cinema and on television The new study looks in detail at the cycle which in previous work has been largely neglected in favour of the James Bond films The study also brings new attention to espionage on British television and popular secret agent series such as *Spy Trap* *Quiller* and *The Sandbaggers* It also gives attention to the more realistic representation of spying in the film and television adaptations of *le Carr* and *Deighton* and other dramas with a more serious intent In addition there is wholly original attention given to nostalgic spy fictions on screen adaptations of classic stories of espionage which were popular in the late 1970s and through the 1980s and to historical spy fiction dramas which treated real cases of espionage and their characters most notably the notorious *Cambridge Spies* Detailed attention is also given to the secret state thriller a cycle of paranoid screen dramas in the 1980s which portrayed the intelligence services in a conspiratorial light best understood as a reaction to excessive official secrecy and anxieties about an unregulated security service The study is brought up to date with an examination of screen espionage in Britain since the end of the Cold War The approach is empirical and historical The study examines the production and reception literary and historical contexts of the films and dramas It is the first detailed overview of the British spy screen in its crucial period since the 1960s and provides fresh attention to spy films series and serials never previously considered **Peking Review**, 1970 *The Communicative Event in the Works of Günter Grass* Nicole A.
