Long Term Care Economic Issues And Policy Solutions:

Long-Term Care: Economic Issues and Policy Solutions Roland Eisen, Frank A. Sloan, 2012-12-06 Ensuring long term care LTC is one of the most urgent problems in health care today Demographic trends are expected to lead to a higher proportion of old and very old people in the global population As a result an increased proportion of global income will be devoted to LTC services With this in mind Long term Care Economic Issues and Policy Solutions aims to address the following important objectives to provide a detailed analysis of the arrangements and institutions designed to protect the disabled and dependent elderly people in various countries and to try to evaluate their respective merits to discuss the projections of future costs of protection for dependent elderly and to assess the impact of improvements in disability free life expectancy on the future cost of care and choices between informal and formal care to present empirical research on these decisions with special consideration of primary caregivers and on the substitution between in kind and cash benefits as well as between institutional or formal care and home or informal care to analyze different theoretical approaches in modeling decisions referring to LTC services to be provided both within and between generations With its mix of empirical theoretical and policy related contributions Long term Care Economic Issues and Policy Solutions will be of interest not only to health economists but also to social scientists health insurers and public policy advocates **Nordic Economic Policy Review**, 2013

Handbook of Health Economics A J. Culyer, J.P. Newhouse, 2000-07-19 What new theories evidence and policies have shaped health economics in the 21st century Editors Mark Pauly Thomas McGuire and Pedro Pita Barros assemble the expertise of leading authorities in this survey of substantive issues In 16 chapters they cover recent developments in health economics from medical spending growth to the demand for health care the markets for pharmaceutical products the medical workforce and equity in health and health care Its global perspective including an emphasis on low and middle income countries will result in the same high citations that made Volume 1 2000 a foundational text Presents coherent summaries of major subjects and methodologies marking important advances and revisions Serves as a frequently used non journal reference Introduces non economists to the best research in health economics **Financing Long-Term Care in Europe** J. Costa-Font, C. Courbage, 2011-11-08 Forecasts predict that those in need of long term care in Europe will double in the next 50 years This book offers a full understanding of the institutional responses and mechanisms in place to finance old age and provides analysis of demand and supply factors underpinning the development of financial instruments to cover long term care in Europe **Economics of Spend-down to Medicaid** Edward C. Norton, 1999 **Cross Atlantic Exchange to Advance Long-Term Care** Svetla Tsoleva, 2006 **Economics and Ageing** José Luis Iparraguirre, 2018-12-05 This upper level textbook provides a coherent introduction to the economic implications of individual and population ageing Placing economic considerations into a wider social sciences context this is ideal reading not only for advanced undergraduate and masters students in economics health economics and the economics of ageing but also policy makers students professionals

and practitioners in gerontology sociology health related sciences and social care This volume discusses the fiscal implications of ageing health economics and long term care Fiscal policy issues include generational accounting and national transfer accounts the relationship between ageing public expenditure and fiscal policy the age profiles of public expenditures and taxes and the relationship between ageing capital and labour taxation Health economics with regard to ageing comprises healthy and disability free life expectancy the relationship between health inequalities and age the macroeconomic implications of population health the socio economic determinants of health the interaction between ageing and both individual and aggregate health expenditure and economic approaches to valuing later life This volume closes with an exposition of the economics of formal and informal care as well as questions around insurance risk and the so called sandwich generation **Journal of Human Services Abstracts** ,1984 Dilemmas of the Welfare Mix Ugo

Ascoli,Costanzo Ranci,2013-04-17 The 1990 s will be remembered in Europe as the period in which privatization assumed significant proportions in the field of welfare policies In an age of crisis for the welfare state and increased demand of care services there is now a widespread opinion that future welfare systems will see more and more space occupied by private and nonprofit organizations taking the direct responsibility of providing services and meeting the needs of the clients A welfare mix is emerging as a system in which government private and nonprofit organizations operate in place of the state monopoly nonprofit organizations in particular have obtained formal recognition as partners of public authorities and professional groups in policy making An increasing interdependence between state private and third sector organizations will characterize next years all post industrial societies Through research in the field of social care in six European Countries France Germany Italy Norway Spain and the U K the authors highlight the role of nonprofit and commercial organizations in the new welfare mix systems and main social and institutional effects of such new order This volume in the Nonprofit and Civil Society Studies series is the first attempt to bridge the relevant gap existing between the literature on the welfare state and studies on the nonprofit sector **Improving Healthcare** David Hyman,2007-04-21 Improving Healthcare A Dose of

Competition systematically examines the American health care system from a competition oriented perspective The volume surveys the performance of each major sector of the health care system and identifies impediments to more effective competition Improving Healthcare examines such issues as competition v regulation public and private sector approaches to health care financing cross subsidies licensure provider market concentration financial and clinical integration payment for performance quality pharmacy benefit managers direct to consumer advertising of pharmaceuticals certificates of need mandates unionization the significance of organizational status nonprofit v for profit and the role of antitrust and consumer protection in health care It offers concrete recommendations to improve the quality and cost effectiveness of the American health care marketplace **Projecting the Impact of Demographic Change on the Demand for and Delivery of**

Healthcare in Ireland , *The US Nursing Home Industry* Robert A Giacalone,2015-04-08 An in depth analysis of the

nursing home industry in America its past present and future It focuses on the business aspects of the industry and provides a detailed examination of the main issues concerning all nursing homes trends in health care expenditures the legislative history of the industry growing demand for care and how to measure it the present structure of the industry funding and financing concerns government regulation inter industry competition and opportunities for growth global comparisons and public policy considerations

Care Work Madonna Harrington Meyer, 2002-05-03 Care Work is a collection of original essays on the complexities of providing care These essays emphasize how social policies intersect with gender race and class to alternately compel women to perform care work and to constrain their ability to do so Leading international scholars from a range of disciplines provide a groundbreaking analysis of the work of caring in the context of the family the market and the welfare state

Regulation of Health: Case Studies of Sweden and Switzerland Peter Zweifel, Carl Hampus Lyttkens, Lars Söderström, 2012-12-06 Health care arguably is the single most regulated industry in industrial countries and possibly in newly industrialized and developing countries as well But what exactly is being regulated what are the instruments used and what are the effects and side effects of such regulation Regulation of Health Case Studies of Sweden and Switzerland seeks to resolve problems in answering these key questions regarding the health care sector in two countries Sweden and Switzerland The volume contains a series of studies that compare the regulation of health and health care in these two apparently very similar countries in considerable detail The contributing teams acquired a great deal of knowledge about health regulation in both countries they also derived comparative predictions when regulation differs using actual observations to check whether these predictions are borne out These comparisons are based on the conditions prevailing in the mid nineties

Health, the Medical Profession, and Regulation Peter Zweifel, 2012-12-06 Health The Medical Profession and Regulation presents new evidence concerning health and the environment inequality of health in many countries and the compatibility of different quality of life measurements along with new solutions to problems of health policy The book is grouped into three sections Section I comprising six papers looks into the determinants of people s health Section II consists of three papers and deals with the supply side of the market for health care services Finally Section III contains three contributions devoted to health regulation The intended market for this volume includes but is not limited to health economists policy makers insurers and governmental advisors who need to stay abreast of the latest developments in health services research worldwide
