Look At Leninism:

A Look at Leninism Ron Taber, 1988 **Lenin and Leninism: Lenin as the Organizer and Leader of the Russian Communist Party** Joseph Stalin, 2024-05-09 A new translation from the original Russian manuscript with a new afterword by the translator and a timeline of Stalin's life and works Written by Stalin for the 50th anniversary of Lenin's birthday this article defends Lenin and the Soviet regime from the western Liberal assertion that the Soviet Union did not practice real communism Stalin not only defends Lenin's legacy but begins the process of elevating him to an almost mythic status paving the way for a cult of personality around both Lenin and eventually himself *Unfinished Leninism* Paul Le Blanc, 2014-06-15 Praise for Paul Le Blanc's *Lenin and the Revolutionary Party* A work of unusual strength and coherence inspired not by academic neutrality but by the deep conviction that there is much to learn from the actual ideas and experiences of Lenin Michael L. Wy As a leader of the Russian Revolution Vladimir Lenin was perhaps the greatest revolutionary of the twentieth century These clearly written essays offer an account of his life and times a lively view of his personality and a stimulating engagement with his ideas Paul Le Blanc is a professor of history at La Roche College and has written widely on radical movements [Lenin, Hegel, and Western Marxism](#) Kevin Anderson, 1995 This first full length treatment of Lenin's studies of Hegel presents Lenin as a major figure in Hegelian Marxism providing a more nuanced portrait of his work than that of either official Marxist Leninism or most Western accounts With impressive argumentation and wide ranging scholarship Anderson presents us with a Lenin that no one seriously interested in current debates over the relevance of Marxist theory to socialist practice can afford to miss Bertell Ollman author of *Dialectical Investigations* An important contribution to grasping the conceptual roots of Marxist theory and practice Tom Rockmore author of *Hegel's Circular Epistemology* Today Lenin looks like he did little more than prepare the way for Stalin You will find the opposite view in this novel study I recommend the book to anyone seriously interested in Russia and revolution George Uri Fischer author of *The Soviet System and Modern Society* **Lenin** Beryl Williams, 2014-06-17 Drawing on the flood of new material to emerge from Russian and Western sources in recent years Beryl Williams focuses on Lenin's years in power and provides first rate introduction to the life ideology and impact of one of the formative figures of the 20th century Within an overall chronological framework Williams examines topics such as cultural revolution foreign policy and expansion As well as being an examination of Lenin's life and work this is an up to date evaluation of recent historiographical debates and literature in the context of the period **Lenin** Robert Service, 2011-02-21 Lenin is a colossal figure whose influence on twentieth century history cannot be underestimated Robert Service has written a calmly authoritative biography on this seemingly unknowable figure Making use of recently opened archives he has been able to piece together the private as well as the public life giving the first complete picture of Lenin This biography simultaneously provides an account of one of the greatest turning points in modern history Through the prism of Lenin's career Service examines events such as the October Revolution and the ideas of Marxism Leninism the one

party state economic modernisation dictatorship and the politics of inter war Europe In discovering the origins of the USSR he casts light on the nature of the state and society which Lenin left behind and which have not entirely disappeared after the collapse of the Soviet regime in 1991 Immensely scholarly but also vivid and readable This is a splendid book much the best that I have ever read about Lenin I was overwhelmed by the power and vividness of this portrait Dominic Lieven Sunday Telegraph He has managed skilfully to depict the surreal life of an obsessive brilliant and stubborn individual Guardian Lenin's life was politics but Service has succeeded in keeping Lenin the man in focus throughout This book deserves a place among the best studies of one of the most fascinating figures in modern history Harold Shukman The Times

Marxism and Leninism John H. Kautsky, 2020-03-25 One of the pre eminent scholars in the history and theory of European socialism John Kautsky in this volume develops the argument that Marxism and Leninism are two quite different ideologies He counterposes this view with the commonly accepted one of Leninism as simply one form that Marxism took in the course of its evolution The easy identification of Marxism and Leninism with each other has been responsible for great confusion in the realm of both scholarly and political discourse Kautsky develops his position within the tradition of the sociology of knowledge by the close examination of the different meanings of the Marxist vocabulary as it was used by Marxists and Leninists His frame of reference turns on the position of labor in turn of the century industrial Europe and the role of modernizing intellectuals in underdeveloped countries While the vocabulary used was often common to Marx and Lenin Marxism was explicitly concerned with appeals to workers in industrial nations such as Germany and Austria whereas Leninism appeals to revolutionaries in underdeveloped nations such as Russia and China Whatever be the current assessment of the future of socialism and communism Kautsky holds that it is important to study the core structure of both Marxism and Leninism since they were major phenomena that powerfully affected the world in the twentieth century Beyond that in dealing with how different ideologies can be ensconced within the same rhetoric the book offers an outstanding entrance into the sociology of knowledge as a tool for political analysis This is a unique work in the function of language no less than the nature of ideology The work is divided into five parts Two environments two ideologies one terminology The evolution of Marxism its appeals in the German Empire The evolution of Leninism its appeals to strata involved in making modernizing revolutions The differential outcomes of Marxism in the East and Leninism in the West And finally an examination of why Marxism and Leninism have been seen as a single ideology In a new essay prepared for this new edition Kautsky provides important

autobiographical as well as historical reflections on how this book fits into the overall pattern of the author's work **Soviet Scholasticism** J.E. Blakeley, 2012-12-06 The present work is a study of the method of contemporary Soviet philosophy By Soviet philosophy we mean philosophy as published in the Soviet Union For practical purposes we have limited our attention to Soviet sources in Russian in spite of the fact that Soviet philosophical works are also published in other languages see B 2029 21 38 The term method is taken in the sense usual in Western books on methodology 1 In view of the content of the first chapter it will be useful to explain the last term a little more fully By method we mean a procedure and it is obvious that the principles according to which a procedure is carried out are rules i e imperatives which tell us not what is but what should be done Such imperatives may or may not be connected with and founded on certain descriptive statements the fact that every rule of formal logic is based on a corresponding law has been well known since Husserl's *Logische Untersuchungen* and is generally accepted in contemporary logic but such a foundation is irrelevant to a methodological study The object of such a study is to find out what these rules are why they are accepted and how they are interconnected and applied This is how methodology the science of method is conceived in Western treatises on the subject and this is also the standpoint assumed here **V.I. Lenin is Missing** Thomas H. Tolmasoff, 1992 This satire introduces four intrepid Russian entrepreneurs who are planning to bridge the gap between socialism and a free market economy by buying and selling contraband Western goods They are clever they are resourceful and they think they are above suspicion because they are the caretakers of the Glorious Remains of the Father of Soviet Communism Then a KGB colonel wants in on the action and someone steals Lenin's body just before it is to be displayed for May Day Sash Natash Olya and Viktor are in deep trouble unless someone poses as Lenin in the casket *Looking for the Proletariat* Stephen Hastings-King, 2014-05-08 Looking for the Proletariat is a contribution to understanding the implosion of the Marxist Imaginary The implosion is staged in terms of the first English language history of the French revolutionary group Socialisme ou Barbarie from 1949 to 1957 It explains why Socialisme ou Barbarie was the only Marxist organization interested by worker experience and how the group's anti Leninist position on organization led it to privilege first person worker narratives in order to understand worker experience and its revolutionary possibilities Using the only first person accounts of working class experience in French industry of the 1950s the book explores the disintegration of collective investment in the Marxist Imaginary that unfolded at Renault's Billancourt factory in the aftermath of the Hungarian Revolution and the contexts that shaped it *Thermidorian Societies and Their Enemies* Leslie Herzberger, 2007-01-25 The author was born in Budapest Hungary in 1946 He served in the U S Army then attended Columbia University School of International Affairs and the Ph D Program in History at New York University This book is part of the follow up of the Ph D Thesis Proposal that the author presented to New York University on December 24 1980 and worked out as a private scholar the next 20 years The work that went into the book spanned a period of around thirty years overall **The Writings of Mao Zedong, 1949-1976: January 1956-December 1957** Zedong
