## Look At Both Sides:

**Debating the Holocaust** Thomas Dalton,2020-02-04 For the past few decades there has been raging a kind of subterranean debate one of monumental importance It is a debate about the Holocaust not whether or not it happened this is a meaningless claim but rather how it happened through what means and to what extent On the one hand we have the traditional orthodox view the six million Jewish casualties the gas chambers the cremation ovens and mass graves On the other hand there is a small renegade band of writers and researchers who refuse to accept large parts of this story These revisionists as they call themselves present counter evidence and ask tough questions Among the issues they raise are these There is no trace of a Hitler order to exterminate the Jews key witnesses have either falsified or greatly exaggerated important aspects of their stories major death camps Belzec Chelmno Sobibor and Treblinka have all but vanished we find little evidence of disturbed earth for mass graves we find few remains of the millions of alleged victims neither bones nor ash mass gassing with Zyklon B would be nearly impossible without ventilators and ceiling holes mass gassing with diesel engine exhaust is practically impossible given the low level of carbon monoxide wartime air photos of Auschwitz show none of the alleged mass burnings or cremations the 6 million number has no basis in fact and actually traces back decades before the war trends in Jewish world population strongly suggest less than 6 million lost and the present number of survivors currently over 1 million implies few wartime deaths The revisionists arrive at a different account Hitler they say wanted to expel the Jews not kill them The ghettos and concentration camps served primarily for ethnic cleansing and forced labor not mass murder The Zyklon gas chambers did in fact exist but were used for delousing and sanitary purposes And most important the Jewish death toll was much lower than commonly assumed on the order of 500 000 In this book for the FIRST TIME EVER the reader can now judge for himself Arguments and counter arguments for both sides are presented and all relevant facts are laid out in a clear and concise manner The entire debate is presented in a scholarly and non polemical fashion Citations are marked and facts are checked READ and JUDGE FOR YOURSELF *The Universal School Reader ...* Louise Emery Tucker,1910 **The Temperance Mirror ...** ,1885 *Conference on Photographic Astrometric Technique* Heinrich Karl Eichhorn,Heinrich Eichhorn,1971 **New York Supreme Court Papers on Appeal** , **Look at Both Sides** Elena Martin,2004 Simple text and photographs introduce the concept of symmetry as displayed by familiar creatures and objects
