*The Essential Family Guide to Caring for Older People* Deborah Stone, 2019-11-14 No one wants to think about getting older. It's true. At any age when things are moving along normally day to day and everyone seems fit and well there seems no reason to think about future problems that your friends and relatives might and probably will come across as they age. In fact it might even seem a little morbid to think such thoughts or possibly even tempting fate. Yet there will come a time when you must raise these issues and ideally this should be before any problems arise. *The Essential Family Guide to Caring for Older People* is the ultimate source of information and help for families with care responsibilities. Deborah Stone draws on her extensive experience working in elder care to offer practical advice on every aspect of the field in depth. Topics range from how to get help immediately, legal information, care funding options, a guide to useful technology and advice on the main physical and mental health issues that affect older people. Plus guidance is given on dealing with social services and ensuring you choose the right care for your situations. Crucially the book also offers help on how to cope as a carer with practical advice on juggling family work and your caring responsibilities while looking after yourself. *Caring for Older People in Nursing* Sue Barker, 2013-11-12 This book is part of the Transforming Nursing Practice series written specifically to support nursing students on the new degree programme. As medical advances become more sophisticated average life expectancies continue to grow. This presents significant challenges to the healthcare system and caring for older people is now the concern of every nurse. This book aims to help you understand how to care for older people in any care setting. It uniquely focuses on person-centred, humanised care in addition to physical care, helping you to examine attitudes towards older people in healthcare and combat negative stereotypes. The book takes a positive stance on ageing, celebrating the fact that in the Western world we live longer and healthier with a focus on the wellbeing of the individual. Key features: Easy to read introduction written specifically for nursing students with a chapter on making the most of your placements with older people. Theory is linked to practice through case studies and scenarios and shows the lived experiences of the older person. Linked to the latest NMC Standards and Essential Skills Clusters for degree level education. Plenty of activities help you to build critical thinking and graduate skills. *The Destiny Series Books One to Three* Patricia Dixon, 2019-10-23 The first three novels in the acclaimed series full of romance, betrayal and family drama on the French countryside.
