educated and the ignorant I myself was rich and also educated and possessed therefore all the elements of happiness enjoyed by the most fortunate in that age Living in luxury and occupied only with the pursuit of the pleasures and refinements of life I derived the means of my support from the labor of others rendering no sort of service in return My parents and grand parents had lived in the same way and I expected that my descendants if I had any would enjoy a like easy existence

 Scientific American Editors,2012-12-24 It s hard to believe 2012 is coming to a close Lucky for us this year has seen some
 amazing science and in this eBook we ve compiled Scientific American s best stories of 2012 with an eye on content
 authorship and news value Section One kicks off with the award winners This year Scientific American editors received
 awards from the National Association of Science Writers the American Society of Anesthesiologists the L Oreal Fellowships
 for Women in Science Program and the International Fund for Animal Welfare on stories that ranged from the role of
 propofol in Michael Jackson s death to advocating support to ban research testing on chimpanzees Subsequent sections focus
 on those stories that made headlines and captured our imagination scientists found a Higgs like particle after decades of
 research NASA landed the Curiosity Rover safely on Mars and the Supreme Court upheld the Affordable Care Act Fracking
 was also in the media forefront this year and the bird flu stirred up trouble when scientists created a mutated version that

was contagious between ferrets a potential precursor to human to human transmission The final section is devoted to technology sports and health especially relevant as the world watched Oscar Blade Runner Pistorius become the first double leg amputee to participate in the Olympic Games this July While it s impossible to include everything we hope you find these stories as fascinating as we do

Social Studies of Science and Technology: Looking Back, Ahead B. Joerges,H. Nowotny,2012-12-06 BERNW ARD JOERGES AND HELGA NOWOTNY YET ANOTHER TURN The thing that doesn t fit is the thing that s most interesting Richard Feynman This volume was originally conceived as a contribution to yet another turn not captured by one of the many adjectives that have served to describe the collective meandering of the scholarly community in search of direction It was meant to mark the millennial turn a seemingly purely chronological event but one in search for great meanings and invested with loaded significances The editors wanted to seize the opportunity of the moment in order to pause and reflect on the sociology and history of social studies of science and technology The moment came and went and the new millennium barely nine months later thrust its historical marker upon the world through a horrendous and cruel shock in an unforeseen and unforeseeable way Since then the world appears more vulnerable and volatile fragmented and fraught with uncertainty The universal values as bequeathed by the Enlightenment are either refused or appear refuted The dream of a universal civilization which has accompanied the unfolding of the existing multiple modernities in their historically unique trajectories has been discarded and its promises in tatters
