Pappas,2011 Aristocrat and The Community are dialogues that take place among friends through the course of a night

Aristocrat is concerned with what it means to want to rule with the comparison of aristocracy to democracy and with duty. The friends begin by touching upon excellence, aristocracy's traditional claim to rule. They soon come to question whether there are in fact but two true claims to rule: force or a system of belief. In addition, they ponder their commitment to the cause, a potentially transpolitical cause. Aristocrat attempts to answer several questions: what is the cause? what does it involve? and what does it mean to serve? The Community attempts to demonstrate a how-to create the new city, a new city determined to set itself apart from the outside world. Discussions of the degree to which quality can be controlled from above and debates over the degree of control versus freedom that would make the city an ideal place to live are interwoven with a concern for viability represented by the Bank, whose interests it seems must always be taken into account. Is the creation of an ideal community an effort that is doomed to be utopian?

With the Joys of Love, Laughter and a Smile Pete Goodwin, 2010. The truth behind all of my work or words and writing and how it all began in the autumn of October 2005 when I was listening to some music over a couple of beers and I took a line from a song: it's true and I came up with my first poem: Love, Joy and Happiness from the heart. And my ex-girlfriend/partner helped me get started properly in 2006 and that's why I write about love, friendship and happiness in my life and work as well as the joys of sadness. In a poem I write to my work, it was also written due to health and mental health.

Emotional Sandwiches Sarah Ashley Neal, 2018-03-28. In a time when we are encouraged to look within and search for answers that are supposedly destined to solve our dilemmas, Sarah Ashley Neal invites readers to fearlessly explore their relationships with words and in the process naturally allow those answers to surface.

What is this thing called Knowledge? Duncan Pritchard, 2013-10-01. What is knowledge? Where does it come from? What kinds of knowledge are there? Can we know anything at all? This lucid and engaging introduction grapples with these central questions in the theory of knowledge, offering a clear, non-partisan view of the main themes of epistemology. Both traditional issues and contemporary ideas are discussed in sixteen easily digestible chapters, each of which concludes with a useful summary of the main ideas discussed, study questions, annotated further reading, and a guide to internet resources. Each chapter also features text boxes providing bite-sized summaries of key concepts and major philosophers, and clear and interesting examples are used throughout. The book concludes with an annotated guide to general introductions to epistemology, a glossary of key terms, and a summary of the main examples used in epistemology. This is an ideal first textbook in the theory of knowledge for undergraduates coming to philosophy for the first time. The third edition has been revised and updated throughout and features two new chapters on religious knowledge and scientific knowledge as part of a whole new section on what kinds of knowledge there are. In addition, the text as a whole has been refreshed to keep it up to date with current developments.
