Lost Grove Autobiography Of A Spanish Poet In Exile:

The Lost Grove Rafael Alberti, 1976 *Imperialism and the Wider Atlantic* Tania Gentic, Francisco

LaRubia-Prado, 2017-10-28 The essays in this volume broaden previous approaches to Atlantic literature and culture by comparatively studying the politics and textualities of Southern Europe North America and Latin America across languages cultures and periods Historically grounded while offering new theoretical approaches the volume encourages debate on whether the critical lens of imperialism often invoked to explain transatlantic studies may be challenged by the diagonal translinguistic relationships that comprise what the editors term the wider Atlantic The essays explore how instances of inverse coloniality global networks of circulation and linguistic conceptualizations of nation and identity question dominant structures of power from the nineteenth century to today University Bulletin University of California (System), 1976

Surveying the Avant-Garde Lori Cole, 2018-06-04 Surveying the Avant Garde examines the art and literature of the Americas in the early twentieth century through the lens of the questionnaire a genre as central as the manifesto to the history of the avant garde Questions such as How do you imagine Latin America and What should American art be issued by avant garde magazines like *Im n a* Latin American periodical based in Paris and Cuba s *Revista de Avance* demonstrate how editors writers and readers all grappled with the concept of America particularly in relationship to Europe and how the questionnaire became a structuring device for reflecting on their national and aesthetic identities in print Through an analysis of these questionnaires and their responses Lori Cole reveals how ideas like American art as well as modernism and avant garde were debated at the very moment of their development and consolidation Unlike a manifesto whose signatories align with a single polemical text the questionnaire produces a patchwork of responses providing a composite and sometimes fractured portrait of a community Such responses yield a self reflexive history of the era as told by its protagonists which include figures such as Gertrude Stein Alfred Stieglitz Jean Toomer F T Marinetti Diego Rivera and Jorge Luis Borges The book traces a genealogy of the genre from the Renaissance paragone or comparison of the arts through the rise of enqu tes in the late nineteenth century up to the contemporary questionnaire which proliferates in art magazines today By analyzing a selection of surveys issued across the Atlantic Cole indicates how they helped shape artists and writers understanding of themselves and their place in the world Based on extensive archival research this book reorients our understanding of modernism as both hemispheric and transatlantic by narrating how the artists and writers of the period engaged in aesthetic debates that informed and propelled print communities in Europe the United States and Latin America Scholars of modernism and the avant garde will welcome Cole s original and compellingly crafted work Handbook of Autobiography / Autofiction Martina Wagner-Egelhaaf, 2019-01-29 Autobiographical writings have been a major cultural genre from antiquity to the present time General questions of the literary as e g the relation between literature and reality truth and fiction the dependency of author narrator and figure or issues of individual and cultural styles etc can be studied preeminently in the

autobiographical genre Yet the tradition of life writing has in the course of literary history developed manifold types and forms Especially in the globalized age where the media and other technological cultural factors contribute to a rapid transformation of lifestyles autobiographical writing has maintained even enhanced its popularity and importance By conceiving autobiography in a wide sense that includes memoirs diaries self portraits and autofiction as well as media transformations of the genre this three volume handbook offers a comprehensive survey of theoretical approaches systematic aspects and historical developments in an international and interdisciplinary perspective While autobiography is usually considered to be a European tradition special emphasis is placed on the modes of self representation in non Western cultures and on inter and transcultural perspectives of the genre The individual contributions are closely interconnected by a system of cross references The handbook addresses scholars of cultural and literary studies students as well as non academic readers
