Restoring North America's Birds Robert A. Askins, 2008-10-01 DIV The decline of bird species in a wide range of North American habitats forests prairies shrublands mountain regions marshes and deserts has inspired two decades of intense scientific study of bird ecology and conservation But for professional scientists and amateur birders alike interpreting the results of these diverse studies is often complex and bewildering This accessible book pulls together recent research on bird species and habitats to show how basic ecological principles apply in seemingly different situations Robert A Askins provides an engaging introduction to bird ecology and concepts of landscape ecology focusing on such intriguing species as Bachman's Warbler Red Crossbill Mountain Plover and Marbled Murrelet Understanding the ancient landscapes of North America and how humans have changed them Askins says is essential for devising plans to protect and restore bird populations In addition to such obvious changes to the landscape as the clearing of forests and plowing of prairies more subtle changes also dramatically affect birds Species may disappear when we interrupt natural disturbances by suppressing wildfires or trapping out beaver or when we disrupt habitat with roads and housing developments Askins challenges some of the assumptions that underlie current conservation efforts and offers concrete recommendations based on sound ecological principles for protecting the rich natural diversity of North America's birds div [The Last Flight of the Scarlet Macaw](#) Bruce Barcott, 2009-01-13 The first time we came here I didn't know what to expect she told me as we paddled upstream What we found just blew me away Jaguars pumas river otters howler monkeys The place was like a Noah's Ark for all the endangered species driven out of the rest of Central America There was so much life That expedition was when I first saw the macaws As a young woman Sharon Matola lived many lives She was a mushroom expert an Air Force survival specialist and an Iowa housewife She hopped freight trains for fun and starred as a tiger tamer in a traveling Mexican circus Finally she found her one true calling caring for orphaned animals at her own zoo in the Central American country of Belize Beloved as the Zoo Lady in her adopted land Matola became one of Central America's greatest wildlife defenders And when powerful outside forces conspired with the local government to build a dam that would flood the nesting ground of the last scarlet macaws in Belize Sharon Matola was drawn into the fight of her life In *The Last Flight of the Scarlet Macaw* award winning author Bruce Barcott chronicles Sharon Matola's inspiring crusade to stop a multinational corporation in its tracks Ferocious in her passion she and her confederates a ragtag army of courageous locals and eccentric expatriates endure slander and reprisals and take the fight to the courtroom and the boardroom from local village streets to protests around the world As the dramatic story unfolds Barcott addresses the realities of economic survival in Third World countries explores the tension between

environmental conservation and human development and puts a human face on the battle over globalization In this marvelous and spirited book Barcott shows us how one unwavering woman risked her life to save the most beautiful bird in the world Barcott's compelling narrative is suspenseful right up to the last moment Publisher's Weekly An engrossing but sad account of a brave and quirky champion of nature Kirkus A riveting account of one woman's fight to save one of the last bastions of an endangered Species Barcott writes of international politics ecology and endangered species and human relations with equal facility This real page turner of narrative nonfiction is hard to put down Booklist

Early American Proverbs and Proverbial Phrases Bartlett Jere Whiting, 1977 p B J Whiting savors proverbial expressions and has devoted much of his lifetime to studying and collecting them no one knows more about British and American proverbs than he The present volume based upon writings in British North America from the earliest settlements to approximately 1820 complements his and Archer Taylor's Dictionary of American Proverbs and Proverbial Phrases 1820 1880 It differs from that work and from other standard collections however in that its sources are primarily not literary but instead workaday writings letters diaries histories travel books political pamphlets and the like The authors represent a wide cross section of the populace from scholars and statesmen to farmers shopkeepers sailors and hunters Mr Whiting has combed all the obvious sources and hundreds of out of the way publications of local journals and historical societies This body of material because it covers territory that has not been extracted and compiled in a scholarly way before can justly be said to be the most valuable of all those that Whiting has brought together according to Albert B Friedman What makes the work important is Whiting's authority a proverb or proverbial phrase is what BJW thinks is a proverb or proverbial phrase There is no objective operative definition of any value no divining rod his tact feel experience determine what's the real thing and what is spurious
