The Delphian Course Delphian Society,1922 Free the Market! Gary L. Reback,2009-04-16 Why we need government intervention in the free market to protect competition and encourage innovation Starting about thirty years ago conservatives forced an overhaul of competition policy that has loosened business rules for everything from selling products to buying competitors Gary Reback thinks the changes have gone too far Today s competition policies he argues were made for the old manufacturing economy of the 1970s But in a high tech world these policies actually slow innovation hurt consumers and entrench big companies at the expense of entrepreneurs Free the Market is both a memoir of Reback s titanic legal battles involving top companies such as Apple Microsoft IBM Oracle and AT T and a persuasive argument for measured government intervention in the free market to foster competition Among the fascinating questions he considers Can a company ever compete too hard for the public good Should policy makers worry more about promoting competition or improving efficiency Does it help consumers when a manufacturer sets the prices its retailers charge Should the government do more to stop controversial mergers At what point does intellectual property protection hurt innovation
