Nine Modern Moralists Paul Ramsey, 2020-05-19 Eminent Princeton Philosopher Paul Ramsey looks at the lives and ideas of nine famous Moralists of the modern age The featured philosophers are Paul Tillich Karl Marx H Richard Niebuhr Fyodor Dostoevski Reinhold Niebuhr Jacques Maritain Jean Paul Sartre Emil Brunner and Edmond Cahn The greatness of the men whose insight and reflections are the subject of the following chapters is obviously a sufficient justification for this volume The reader who simply wants to learn what was felt and thought and believed by some of the outstanding minds of the immediate past and of the present can it is hoped do so by reading the chapters of this book as expository essays Here he will find their thought anatomized and in relatively brief compass it may be possible for him to become seriously engaged in thinking their thoughts after them Certainly no one can come to an understanding of the latest and best of contemporary ideas and ideals by going around these men only by going through them can one gain a deeper understanding of himself and of our epoch

Routledge Revivals: Paul Tillich (1973) Alistair Macleod, 2017-09-29 First published in 1973 this is the first book on Paul Tillich in which a sustained attempt is made to sort out and evaluate the questions to which Tillich addresses himself in the crucial philosophical parts of his theological system It is argued that despite the apparent simplicity in his interest in the question of being Tillich in fact conceives of the ontological enterprise in a number of radically different ways in different contexts Much of the author's work is devoted to the careful separation of these strands in his philosophical thought and to an exploration and assessment of the assumptions associated with them This book will be of interest to readers of Tillich and philosophers who specialise in ontology and linguistics

Lest We Lose Love Scherto Gill, 2023-04-18 Few are aware that since antiquity there has always been the philosophy of love at the core of Western culture It articulates what makes life meaningful and worthwhile and how we can live a good life together through an ethic of love This book fills this significant gap not only reconnecting the reader with such important wisdom and more crucially also reorienting our socio economic institutions and collective actions towards more loving and caring and more concerned with the qualities of our lived experiences By re-discovering the gifts of love we may challenge the existing systemic dehumanisation and draw from knowledge and understanding already present in our culture This is timely because the global crises we are facing are catastrophic especially when it comes to climate change

Therefore we must respond from a place of love rather than fear Whether it is reducing the use of fossil fuels lowering greenhouse emission choosing the right food to eat or advocating for structural transformation our concerted endeavours start with an appropriate appreciation of the nature of our well being which includes the planet s well ness This book highlights a clear pathway forward to ensure collective healing and co flourishing with nature we must practise the art of loving

Deep Symbols Edward Farley, 2010-06-15 Here is an absorbing and exceptionally perceptive account of how deep symbols or words of power which tend to be a culture s normative language have undergone diminishment in a contemporary postmodern society Edward Farley explains that such diminishment does not necessarily imply their demise since traces of these symbols remain and invite their rethinking Two introductory chapters spell out the character and prospect of deep symbols in postmodern society Then follow five chapters each of which considers a particular deep symbol tradition obligation duty reality law and hope A concluding chapter shows the structural entanglement of these symbols with each other and their relation to the sacred and the interhuman From the opening chapter Words of power that is deep and enduring symbols that shape the values of a society and guide the life of faith morality and action are subject to powerful forces of discreditation and even disenchantment If this is so we must find ways to recover their power or live without them Edward Farley is Professor of Theology at Vanderbilt University and the author of many books including Good and Evil Interpreting a Human Condition

Does God live like us If God does not live like us what is the difference between our living and God's living These are the questions Adam Pryor addresses in *The God Who Lives* The book considers life as a conceptual problem examining how new studies about the emergence of life have critical implications for interpreting the religious symbol God is living In particular Pryor suggests how absence and desire what is termed abstenial desire are critical principles of life for scientific and philosophical thinking today He goes on to develop a constructive theological proposal in which the theological meaning of the symbol God is living is interpreted in terms of the insights garnered from the principle of abstenial desire concluding that God can be understood as akin to the role played by absence in living things Life is an absent but effective whole in relation to the material parts of which it is comprised God as living is a similarly effective absence in relation to the world
