Luminous Mind:

The Continuity of Madhyamaka and Yogācāra in Indian Mahāyāna Buddhism Ian Charles Harris, 2023-11-27 In the past European scholars have tended to treat both Madhyamaka and Yogācāra as separate and fundamentally opposed trends in Mahāyāna Buddhist thought Drawing heavily on early textual evidence this work questions the validity of such a Mahāyāna schools hypothesis By down playing the late commentarial traditions the author attempts a general reappraisal of the epistemological and ontological writings of Nagarjuna Asanga and Vasubandhu He concludes that the overlap in all areas of doctrine is significant but particularly with respect to the teachings on the levels of truth the enlightened and unenlightened states the status of language and the nature of reality It is hoped that such investigations may provide the basis for a new theory on the proliferation of Indian Mahāyāna Buddhism as an organic process of assimilation to new audiences and specific contemporary problems rather than in the more schismatic manner favoured by past researchers *Original Perfection*

God or the Divine? Bernhard Nitsche, Marcus Schmücker, 2023-03-20 Is there a language of transcendence which does not fall under the well worn categories of monism theism pantheism biblical or pagan monotheism personal or tripersonal God or an impersonal absolute conceived as immanent and or transcendent The present set of studies from different fields of research centers on the question whether it is possible to speak at all of transcendence or a divinity and if it is under what limitations does such speech proceed In current discussion in theology and in philosophy of religion there is a pervasive awareness that the inherited terms and alternatives developed in the western tradition no longer facilitate an adequate understanding of the divine Increasing familiarity with the languages of immanence and transcendence under erasure in Hindu and Buddhist thought has further jumbled our coordinates while holding out the promise of a more subtle and vital engagement with the matter itself of religious inquiry A further long established distinction between personal and impersonal also takes on rich new hues in Asian contexts where the very notion of person may undergo unsettling critiques Transgressing the categories of personal and impersonal points to the mystical depth of religious traditions emphasizes their openness and reintegrates essential elements of both perspectives Advancing with curiosity and caution all the contributors take seriously the diversity of historical religious traditions while nevertheless searching for a fresh

language that may connect these traditions and provide a common ground of understanding **When the Clouds Part**

Superiority Conceit in Buddhist Traditions Bhikkhu Analayo, 2021-02-09 Renowned scholar-monk writes accessibly on some of the most contentious topics in Buddhism guaranteed to ruffle some feathers Armed with his rigorous examination of the canonical records respected scholar-monk Bhikkhu Analayo explores and sharply criticizes four examples of what he terms superiority conceit in Buddhism the androcentric tendency to prevent women from occupying leadership roles be these as fully ordained monastics or as advanced bodhisattvas the Mahayana notion that those who don't aspire to become bodhisattvas are inferior practitioners the Theravada belief that theirs is the most original expression of the Buddha's teaching the Secular Buddhist claim to understand the teachings of the Buddha more accurately than traditionally practicing Buddhists Ven Analayo challenges the scriptural basis for these conceits and points out that adhering to such notions of superiority is not after all conducive to practice It is by diminishing ego letting go of arrogance and abandoning conceit that one becomes a better Buddhist he reminds us no matter what tradition one may follow Thoroughly researched Superiority Conceit in Buddhist Traditions provides an accessible approach to these conceits as academic subjects Readers will find it not only challenges their own intellectual understandings but also improves their personal practice
