Lutopia Della Memoria:

The Gallery of Memory Lina Bolzoni, 2001-01-01 This book takes as its starting point a striking paradox that the antique tradition of the art of memory created by an oral culture reached its moment of greatest diffusion during an age that saw the birth of the printed book

The Man Who Closed the Asylums John Foot, 2023-08-01 When the wind of the 1960s blew through the world of psychiatry In 1961 when Franco Basaglia arrived outside the grim walls of the Gorizia asylum on the Italian border with Yugoslavia it was a place of horror a Bedlam for the mentally sick and excluded redolent of Basaglia's own wartime experience inside a fascist gaol Patients were frequently restrained for long periods and therapy was largely a matter of electric and insulin shocks The corridors stank and for many of the interned the doors were locked for life This was a concentration camp not a hospital Basaglia the new Director was expected to practise all the skills of oppression in which he had been schooled but he would have none of this The place had to be closed down by opening it up from the inside bringing freedom and democracy to the patients the nurses and the psychiatrists working in that total institution Inspired by the writings of authors such as Primo Levi R D Laing Erving Goffman Michel Foucault and Frantz Fanon and the practices of experimental therapeutic communities in the UK Basaglia's seminal work as a psychiatrist and campaigner in Gorizia Parma and Trieste fed into and substantially contributed to the national and international movement of 1968 In 1978 a law was passed the Basaglia law which sanctioned the closure of the entire Italian asylum system The first comprehensive study of this revolutionary approach to mental health care The Man Who Closed the Asylums is a gripping account of one of the most influential movements in twentieth century psychiatry which helped to transform the way we see mental illness Basaglia's work saved countless people from a miserable existence and his legacy persists as an object lesson in the struggle against the brutality and ignorance that the establishment peddles to the public as common sense

L'utopia mancata AA. VV., 2024-10-11 T00:00:00+02:00 Il volume offre una riflessione sul potenziale trasformativo della crisi pandemica da Covid 19 sulla base dei dati raccolti attraverso due web survey condotte a distanza di poco più di un anno maggio giugno 2020 e settembre ottobre 2021 A quattro anni di distanza dal primo caso ufficiale di contagio registrato in Italia poco sembra essere rimasto di quell'onda emotiva suscitata dallo shock di scoprirsi fragili vulnerabili soli impotenti ma anche più solidali e consapevoli di un destino comune di fronte al pericolo di una morte di massa Quel pensiero che più aleggiava nelle menti di ciascuno ripetuto come un mantra dai media e dalle più autorevoli istituzioni che nulla più sarebbe stato come prima sembra ormai lontano non tanto perché la malattia da Covid 19 sia stata debellata ma perché la normalità ci ha reso immuni dalla stessa I contributi raccolti nel volume analizzano il come e i perché di questa mancata trasformazione evidente già nell'arco di tempo coperto dalla ricerca nel rapporto tra cittadini e istituzioni nazionali ed europee in termini di memorie condivise di solidarietà sociale e istituzionale di un senso di responsabilità diffusa e

di appartenenza inclusiva **The Individual and Utopia** Clint Jones, Cameron Ellis, 2016-03-09 Central to the idea of a perfect society is the idea that communities must be strong and bound together with shared ideologies However while this may be true rarely are the individuals that comprise a community given primacy of place as central to a strong communal theory This volume moves away from the dominant current macro level theorising on the subject of identity and its relationship to and with globalising trends focusing instead on the individual s relationship with utopia so as to offer new interpretive approaches for engaging with and examining utopian individuality Interdisciplinary in scope and bringing together work from around the world The Individual and Utopia enquires after the nature of the utopian as citizen demonstrating the inherent value of making the individual central to utopian theorizing and highlighting the methodologies necessary for examining the utopian individual The various approaches employed reveal what it is to be an individual yoked by the idea of citizenship and challenge the ways that we have traditionally been taught to think of the individual as citizen As such it will appeal to scholars with interests in social theory philosophy literature cultural studies architecture and feminist thought whose work intersects with political thought utopian theorizing or the study of humanity or human nature

L'utopia di Dioniso Antonio Ariño, Luigi M. Lombardi Satriani, 1997 L'utopia del vero nelle arti visive Umberto Dante, 2002 **Archeologia Medievale, XXVI, 1999**, 1999-12-01 Archeologia Medievale pubblica contributi originali riguardanti l'archeologia postclassica la storia della cultura materiale in et pre industriale e le scienze applicate nella forma di saggi e studi originali relazioni preliminari di scavo contributi critici su libri articoli ritrovamenti ecc Vengono pubblicati sia testi in italiano che in altre lingue *Italo Calvino's Architecture of Lightness* Letizia Modena, 2011-05-09 This study recovers Italo Calvino s central place in a lost history of interdisciplinary thought politics and literary philosophy in the 1960s Drawing on his letters essays critical reviews and fiction as well as a wide range of works primarily urban planning and design theory and history circulating among his primary interlocutors this book takes as its point of departure a sweeping reinterpretation of Invisible Cities Passages from Calvino s most famous novel routinely appear as aphorisms in calendars posters and the popular literature of inspiration and self help reducing the novel to vague abstractions and totalizing wisdom about thinking outside the box The shadow of postmodern studies has had a similarly diminishing effect on this text rendering up an accomplished but ultimately apolitical novelistic experimentation in endless deconstructive deferrals the shiny surfaces of play and the ultimately rigged game of self referentiality In contrast this study draws on an archive of untranslated Italian and French language materials on urban planning architecture and utopian architecture to argue that Calvino s novel in fact introduces readers to the material history of urban renewal in Italy France and the U S in the 1960s as well as the multidisciplinary core of cultural life in that decade the complex and continuous interplay among novelists and architects scientists and artists literary historians and visual studies scholars His last love poem for the dying city was in fact profoundly engaged deeply committed to the ethical dimensions of both architecture and lived experience in the spaces of

modernity as well as the resistant practices of reading and utopian imagining that his urban studies in turn inspired

Doing psychiatry in postwar Europe Gundula Gahlen,Volker

Hess,Marianna Scarfone,Henriette Voelker,2024-04-30 Doing psychiatry engages with the history of European psychiatry in the second half of the twentieth century through a close and fresh look at the practices that contributed to reshape the mental health field Case studies from across Europe allow readers to appreciate how new ways of doing contributed to transform the field beyond the watchwords of deinstitutionalisation the prescription of neuroleptics centrality of patients and overcoming of asylum era habits Through a variety of sources and often adopting a small scale perspective the chapters take a close look at the way new practices emerged and at how they installed themselves eventually facing resistance injecting new purposes and contributing to enlarging psychiatry s fields of expertise therefore blurring its once more defined boundaries

Epistemic Communities at the Boundaries of Law Cecilia Blengino,Andrés Gascón-Cuenca,2019 As richly described in the various chapters of this book we see that clinics can act as a window to the functioning of law and the legal system Clinics allow students and faculty to see how laws and the legal system are functioning for groups of people who otherwise likely would not be a part of the common experience of professors and their students poor people generally migrants and refugees women and children exploited by trafficking people with disabilities ethnic minorities prisoners and so on Legal systems the world over tend to give less care and attention to the problems of the poor and other disempowered groups and such people usually lack access to well educated legal advocates to help them fight to make the legal system work for them Through clinic cases students and faculty see the day today lives of people marginalized by the society see how the law affects and influences their lives and see how it serves or fails to serve them For law professors involved in clinical education such as the authors of this book heightened awareness of the law s operation for poor people adds another important perspective to the subjects of their research and work as commentators on the law Students can also be inspired to select topics for research papers master or PhD theses by exposure to problems in the law and legal system as it functions for their clients

Paolo Furia, 2020-01-23T00:00:00+01:00 L'opera di Paul Ricoeur Percorsi del riconoscimento rappresenta un efficace rilettura del suo più che cinquantennale itinerario di pensiero alla luce del concetto di riconoscimento centrale nella filosofia politica più recente Ricoeur ci conduce a ripensare il soggetto a partire da una meditazione sulla ricca polisemia del termine riconoscimento Non la stessa cosa riconoscere un diritto una diversità una persona amata Né la stessa cosa riconoscere a valle di una lotta contro il misconoscimento o riconoscere nel senso di essere riconoscente Rifiuto altrove utopia ha l'ambizione di gestire questa grande varietà di significati attraverso figure filosofiche appunto il rifiuto l'altrove e l'utopia che raramente sono associate alla trattazione del riconoscimento Anche se il libro prende le mosse dall'opera ricoeuriana la fenomenologia estetica del riconoscimento che qui viene tratteggiata va intesa come un itinerario nuovo al confine tra ermeneutica antropologia culturale storia dell'utopia

L'utopia del Catasto nella Toscana di Pietro Leopoldo. La questione dell'estimo geometrico-particellare nella seconda metà del Settecento Anna Guarducci, 2009-06-01 Il volume ricostruisce la storia dei procedimenti adottati nel Settecento nella messa a punto di uno strumento per la registrazione del patrimonio costituito dal territorio in tutte le sue articolazioni insediative e produttive attraverso il graduale passaggio da un catasto puramente descrittivo a quello geometrico In via teorica i principi sui quali fondare la rilevazione sul terreno erano già stati fissati da almeno due secoli ma solo in qual periodo ci furono le condizioni per mettere in pratica le regole e costruire collettivamente il sapere della topografia scientifica e pratica
