Questions about meanings of home and domestic culture are triggered by dramatic changes in values and ideals about the dwellings we live in and the dwellings we desire or dread. Deborah Chambers explores how home is idealized as a middle-class haven, managed as an investment, and signified as a status symbol and expression of personal identity. She addresses a range of public, state, commercial, popular, and expert discourses about home: the heritage industry, design exhibitions, television, social media, home mobilities, and migration; smart technologies and ecological sustainability. Drawing on cross-disciplinary research including cultural history and cultural geography, the book offers a distinctive media and cultural studies approach supported by original, historically informed case studies on interior and domestic design, exhibitions of model homes, TV home interiors, media home imaginaries, multiscreen homes, corporate visions of homes of tomorrow, and digital smart homes. A comprehensive and engaging study, this book is ideal for students and researchers of cultural studies, cultural history, media and communication studies, as well as sociology, gender studies, cultural geography, and design studies. **Lifestyle Media in American Culture** Maureen E. Ryan, 2018-02-01 This book explores the emergence of lifestyle in the US, first as a term that has become an organizing principle for the self and for the structure of everyday life, and later as a pervasive form of media that encompasses a variety of domestic and self-improvement genres from newspaper columns to design blogs. Drawing on the methodologies of cultural studies and feminist media studies, and built upon a series of case studies from newspapers, books, television programs, and blogs, it tracks the emergence of lifestyle's discursive formation and shows its relevance in contemporary media culture. It is in the broadest sense about the role played by the explosion of lifestyle media texts in changing conceptualizations of selfhood and domestic life. **Special Report: Mallorca 2025**, As Mallorca undergoes a transformative period defined by sustainable tourism, economic diversification, and social innovation, Special Report Mallorca 2025 offers 200 pages of exclusive insights into the strategies shaping the island's next chapter. phenomenon in many countries and an emerging trend in others They are inextricably linked to tourism recreation and leisure and yet the fundamental relationship between second homes and leisure often appears to have been overlooked by researchers in the area This book seeks to address this absence bringing together an exciting collection of research from around the world Drawing on examples from Canada Japan Morocco Costa Rica New Zealand and the United Kingdom this book highlights the interdisciplinary nature of second home research in the leisure field The book describes the nexus of second homes and leisure from a variety of perspectives planning and policy historical social and cultural It is an essential work for those interested in new cultural viewpoints on second homes and leisure practices This book was originally published as a special issue of *Annals of Leisure Research*

Second Home Tourism in Europe Zoran Roca, 2016-04-01 Bringing together a wide range of studies from twelve European countries this book offers a state of the art overview of the driving forces behind spatial diversity and social complexity inherent in second home expansion in all parts of the continent from Scandinavia to the Mediterranean and from the British Isles to Russia in the context of contemporary mobility patterns largely induced by tourism As befits the overall conception of the book as a compendium of current second home research planning and policy issues the book endorses the following multidisciplinary approaches to the second home phenomenon as an expression of the leisure class mobility and recreation based lifestyles as well as a constitutive element of post productivist land use patterns and landscape change and socio economic and territorial development planning and policy related perspectives on social change and spatial re organization provoked by the expansion of second home tourism in times of prosperity and crisis This book shows that second home tourism has become such an important sector of the economy that it is no longer possible to let it develop freely it is the source of new forms of social deprivation it generates residential economies that are particularly sensitive to the economic cycle it often impairs beautiful landscapes and increases human pressure on natural environments As a result it is one of the major physical planning stakes of touristic areas From the concluding essay by Paul Claval Universit de Paris I Sorbonne Paris France

Shanghai Mundane Lei Ping, 2025-09-18 This book offers a new critical intervention into the studies of the paradox of Chinese socialism Centering on the unremovable Shanghai bourgeoisie and middle class the book brilliantly discovers Chinese society s persistent aspiration to bourgeois lifestyle and remarkable resistance to socialist ideology from the Mao era to the Xi era Shanghai Mundane offers a new critical intervention into the studies of the paradox of Chinese socialism Through the lens of contested state society relations the book challenges conventional China Studies by repositioning Shanghai as the key to decode the protracted ideological warfare between socialism and capitalism Based on significant archival ethnographic and theoretical evidence unearthed from the distinct cases of Shanghai bourgeoisie and
