*Technologies of Empire* Dermot Ryan, 2012-12-19 Technologies of Empire reshapes post colonial scholarship of the long eighteenth century by exploring the ways in which post enlightenment authors employ writing and imagination to produce rather than simply represent empire Challenging the assumption that the first imaginings of coordinated global empires occur in the later nineteenth century this study argues that authors ranging from Adam Smith Edmund Burke to William Wordsworth conceive of imagination and writing as technologies that can conceptualize and consolidate the new forms of empire they see emerging      The Publishers' Circular and Booksellers' Record, 1919      **An Introductory History of England ...: From Waterloo to 1880. 1st ed. Srigley, 2011-06-20 Intro Contents Acknowledgments Introduction Chapter One The Absurd Man Chapter Two A History of Rebel Chapter Three Modernity in Its Fullest Expression Conclusion Notes Bibliography Index     **Beyond the Lyric** Fiona Sampson, 2012-09-06 British poetry is enjoying a period of exceptional richness and variety This is exciting but it's also confusing and throws up the need for an enthusiastic guide that can explain and celebrate the many parallel poetry projects now underway *Beyond the Lyric* does just that This is a book of enthusiasms an intelligent and witty map of contemporary British poetry and a radical accessible guide to living British poets grouped for the first time according to the kind of poetry they write In a series of groundbreaking new classifications beginning with the bread and butter diction of the Plain Dealers and ending on the capacious generosity of the Exploded Lyric it examines the broad range of contemporary tendencies from the baroque swagger of the Dandies to the restrained elegance of the Oxford Elegists from the layered haunting verse of Mythopoesis to the inventive explorations of the New Formalists By probing the cultural context from which these groups emerge and shifting the critical focus back to the work itself Sampson's astute analysis illuminates and demystifies each of these terms and asks the big questions about what makes a poem The result is a celebration of poetry as a connected responsive and above all communitarian form Lively engaging and inviting this is the indispensable and authoritative guide for anyone who's ever wondered what's going on in British poetry today     Walker Evans Olivier Richon, 2019-06-18 An examination of one of Walker Evans's iconic photographs of the Great Depression Kitchen Corner Tenant Farmhouse Hale County Alabama shows a painstakingly clean swept corner in the house of an Alabama sharecropper Taken in 1936 by Walker Evans as part of his work for the Farm Security Administration Kitchen Corner was not published until 1960 when it was included in a new edition of Walker Evans and James Agee's classic *Let Us Now Praise Famous Men* The 1960 reissue of Evans and Agee's book had an enormous impact on Americans' perceptions of the Depression creating a memory image retrospectively through Walker's iconic photographs and Agee's text In this latest addition to the *Afterall One Work* series photographer Olivier Richon examines Kitchen Corner The photograph is particularly significant he argues because it uses a documentary form that privileges detachment calling attention to overlooked objects and to the architecture of the dispossessed Given today's growing economic inequality the photograph feels pointedly relevant The FSA established in 1935 commissioned photographers to document the impact of the Great Depression in America and used the photographs to advertise aid relief For four weeks in the summer of 1936 Evans collaborated with Agee on an article about cotton farmers in the American South The result of that project was the landmark publication *Let Us Now Praise Famous Men* documenting three sharecropper families and their environment These photographs were intimate respectful portraits of the farmers and of their homes furniture clothing and rented land Kitchen Corner powerfully evokes Agee's observations of the significance of

bareness and space in these homes general odds and ends are set very plainly and squarely discrete from one another giving each object a full strength it would not otherwise have
