Sustainable Food Networks: Chains of Values and Food Transitions Carolina

Yacamán-Ochoa,José Luis Sánchez-Hernández ,Javier Sanz-Cañada,2025-06-12 Sustainable Food Networks SFNs are emerging as pivotal value chains for agroecological and food transitions in both urban and rural territories These networks aim to create a healthy fair localized and inclusive food supply model standing in contrast to the dominant corporate food system characterized by long haul complex and fragile supply chains Despite their potential SFNs such as community supported agriculture farmers markets and urban agriculture have not been thoroughly examined through the lens of economic geography and related interdisciplinary perspectives The current globalized food system is fraught with economic social and environmental issues including the marginalization of family farming environmental degradation and the loss of local knowledge and biodiversity SFNs offer a critical alternative by emphasizing small batch production environmental sustainability and social equity yet there remains a significant gap in understanding their full impact and potential This research topic aims to collate comprehensive research on Sustainable Food Networks SFNs with specific objectives identifying various SFN initiatives across different territories evaluating their spatial dimensions in global contexts and assessing policies that can enhance the social economic and environmental sustainability of food value chains Key questions include how alternative values are propagated within SFNs the critical spatial nodes for these values the role of urban and peri urban agriculture and the interplay between territorial conditions and SFN performance Additionally the research seeks to understand how SFNs compete with hegemonic value chains and the potential role of public policy in strengthening these networks To gather further insights into the complexities and potentials of SFNs we welcome articles addressing but not limited to the following themes The propagation and transfer of alternative values within SFNs Identification of critical spatial nodes for the reproduction of these values Roles of urban and peri urban agriculture in SFNs Relationships between territorial conditions governance and SFN performance Strategies employed by SFNs to tackle competition from corporate value chains The impact of SFNs on the surge of local organic and healthy food outlets The role of public policy in supporting

and strengthening SFNs      *Structure, Meaning and Ritual in the Narratives of the Southern San* Roger Hewitt, 2008-08-01  
Analyses texts drawn from the Bleek and Lloyd Archive arguably one of the most important collections for the understanding of South African cultural heritage and in particular the traditions of the Xam South Africa's first people Initially appearing in a now rare 1986 edition and here re issued for the first time the doctoral thesis on which the book is based became the catalyst for much scholarly research The book offers an analysis of the entire corpus of Xam narratives found in the Bleek and Lloyd collection focusing particularly on the cycle of narratives concerning the trickster Kaggen Mantis These are examined on three levels from the deep structures with resonances in other areas of Xam culture and supernatural belief through the recurring patterns of narrative composition apparent across the cycle and finally touching on the observable differences in the performances by the various Xam collaborators Hewitt's text remains the only comprehensive and detailed study of Xam narrative and it has become itself the object of study by researchers and PhD candidates in South Africa the United Kingdom Canada and elsewhere This new edition at last makes Hewitt's important work more widely available It will be a welcome addition to the recently burgeoning literature on the place of the Xam hunter gatherers in the complex history of South African culture and society      **Sustainable Entrepreneurship and Entrepreneurial Ecosystems** Eddy Laveren, Robert Blackburn, Cyrine Ben-Hafaïedh, Cristina Díaz-García, Ángela González Moreno, 2020-09-25 Sustainable entrepreneurship and entrepreneurial ecosystems research is ever evolving and this timely book stimulates further exploration offering a research agenda and alternative approaches Presenting new scientific evidence together with policy and other practical implications chapters demonstrate the vibrancy and diversity of approaches in the field      **Asha** American Speech-Language-Hearing Association, 1993
