Writings, '67-'72** John Cage, 1983 *Anarchists in the Academy* Dani Spinosa, 2022-08-29 Dani Spinosa takes up anarchism's power as a cultural and artistic ideology rather than as a political philosophy with a persistent emphasis on the common. She demonstrates how postanarchism offers a useful theoretical context for poetry that is not explicitly political specifically for the contemporary experimental poem with its characteristic challenges to subjectivity representation authorial power and conventional constructions of the reader text relationship. Her case studies of sixteen texts make a bold move toward politicizing readers and imbuing literary theory with an activist praxis a sharp hope. This is a provocative volume for those interested in contemporary poetics experimental literatures and the digital humanities. Reading Experimental Writing Colby Georgina Colby, 2019-11-06 Explores the challenges and significance of experimental writing. Offers a forum for reflecting on the significance of avant garde writing for the twenty first century. Explores the way in which contemporary experimental writers engage with socio political issues. Utilizes unpublished archive materials bringing to light a number of previously unpublished works. Includes innovative readings of significant avant garde writers previously neglected in the critical canon. Bringing together internationally leading scholars whose work engages with the continued importance of literary experiment this book takes up the question of reading in the contemporary climate from culturally and linguistically diverse perspectives. New reading practices are both offered and traced in avant garde writers across the twentieth and twenty first centuries including John Cage Kathy Acker Charles Bernstein Erica Hunt Theresa Hak Kyung Cha Rosmarie Waldrop Joan Retallack M NourbeSe Philip Caroline Bergvall Uljana Wolf Samantha Gorman and Dave Jhave Johnston among others. Exploring the socio political significance of literary experiment the book yields new critical approaches to reading avant garde writing. Silencing the Sounded Self Christopher Shultis, 2013-11-05 Christopher Shultis observes an intriguing contrast between John Cage's affinity for Thoreau and fellow composer Charles Ives connection with Emerson. Although both Thoreau and Emerson have been called transcendentalists they held different views about the relationship between nature and humanity and the artist's role in creativity. Shultis explores the artist's sounded or silenced selves the self that takes control of the creative experience versus the one that seeks to coexist with it and shows how understanding this distinction allows a better understanding of Cage. Having placed Cage in this experimental tradition of music poetry and literature Shultis offers provocative interpretations of Cage's aesthetic views especially as they concern the issue of non intention and addresses some of his most path breaking music as well as several experimentally innovative

Reminded by the Instruments You Nakai, Yu Nakai, 2021 David Tudor is remembered today as an extraordinary pianist of post war avant garde music who worked closely with composers like John Cage and Karlheinz Stockhausen and as a founding figure of live electronic music His bold reinterpretation of Cage's *Variations II* and his idiosyncratic performances using homemade modular instruments inspired a whole generation of musicians But his reticence his unorthodox approaches and the diversity of his creative output which began with the organ and ended with visual art have kept Tudor a puzzle *Reminded by the Instruments* sets out to solve the puzzle of David Tudor by applying Tudor's own methods for approaching the materials of others to the vast archive of materials that he himself left behind Author You Nakai deftly patches together instruments electronic circuits sketches diagrams recordings letters receipts customs declaration forms and testimonies like modular pieces of a giant puzzle to reveal a new perspective on Tudor's creative process Rejecting the established narrative of Tudor as a performer turned composer this book presents a lively portrait of an artist whose work always merged both of these roles In reading Tudor's electronic devices as musicological texts and examining his dissection of electronic circuits Nakai transcends discourses on sound and illuminates our understanding of the instruments behind the sounds in post war experimental music *Poetry on & Off the Page* Marjorie Perloff, 1998 The fourteen essays that make up this collection have as their common theme a reconsideration of the role historical and cultural change has played in the evolution of twentieth century poetry and poetics Committed to the notion that in John Ashbery's words You can't say it that way anymore *Poetry On Off the Page* describes the formations and transformations of literary and artistic discourses and traces these discourses as they have evolved in their dialogue with history culture and society The volume is testimony to the important role that contemporary artistic practice will continue to play as we move into the twenty first century

Reading the Modernist Long Poem Brendan C. Gillott, 2020-12-10 How do readers approach the enigmatic and unnavigable modernist long poem Taking as the form's exemplars the highly influential but critically contentious poetries of John Cage and Charles Olson this book considers indeterminacy the fundamental feature of the long poem by way of its analogues in musicology mycology cybernetics and philosophy It addresses features of these works that figure broadly in the long poem tradition such as listing typography archives mediation and mereology while articulating how both poets broke with the longform poetic traditions of the early 1900s Brendan C. John Cage Marjorie Perloff, Charles Junkerman, 1994-08 John Cage Composed in America is the first book length work to address the other John Cage a revisionist treatment of the way Cage himself has composed and been composed in America Cage as these original essays testify is a contradictory figure A disciple of Duchamp and Schoenberg Satie and Joyce he created compositions that undercut some of these artists' central principles and then attributed his own compositional theories to their tradition An American in the Emerson Thoreau mold he paradoxically won his biggest audience in Europe A freewheeling Californian artist Cage was committed to a severe work ethic and a firm discipline especially the discipline of Zen Buddhism

The Ashgate Research Companion to Experimental Music James Saunders, 2017-02-03 The recent resurgence of experimental music has given rise to a more divergent range of practices than has previously been the case The Ashgate Research Companion to Experimental Music reflects these recent developments by providing examples of current thinking and presenting detailed case studies that document the work of contemporary figures The book examines fourteen current

practitioners by interrogating their artistic practices through annotated interviews contextualized by nine authored chapters which explore central issues that emerge from and inform these discussions Whilst focusing on composition the book also encompasses related aspects of performance improvisation and sonic art The interviews all explore how the selected artists work focusing on the processes involved in developing their recent projects set against more general aesthetic concerns They aim to shed light on the disparate nature of current work whilst seeking to find possible points of contact Many of the practitioners are active in areas that span disciplines such as composition and improvisation and the book explores the interaction of these activities in the context of their work The other chapters consider a range of issues pertinent to recent developments in the genre including definitions of experimentalism and its relationship with a broader avant garde experimentalism and cultural change notation and its effect on composition realising open scores issues of notation and interpretation in live electronic music performing experimental music improvisation and technology improvisation and social meaning instrumentalizing objects visual artists relationships to experimental music working across interdisciplinary boundaries listening and the soundscape working methods techniques and aesthetics of recent experimental music

Heiner Goebbels and Curatorial Composing after Cage Ed McKeon, 2022-11-24 This Element introduces the notion of curatorial composing to account for certain musical practices that emerged from the 1960s as the founding concepts of music as an art instituted in the modern era were systematically dismantled It raises the key question of how musical value and authority might be produced without recourse to an external principle origin transcendental framework or other foundation It argues that these practices do not dismiss the issue of value or simply relativise it but shift the paradigm to a curatorial concern for composing public encounters and staging events The Element shows that Lydia Goehr's elaboration of the work concept provides a framework that was transformed by John Cage in his work from 0 00 1962 onwards The Element then introduces Heiner Goebbels practice and focus on his role as Artistic Director of the Ruhrtriennale 2012 14 which it argues was an extension of his curatorial composing Corita Kent and the Language of Pop Susan Dackerman, 2015-01-01 Exhibition catalog published in conjunction with the exhibition held at the Harvard Art Museums Cambridge Massachusetts September 3 2015 January 3 2016 and at the San Antonio Museum of Art San Antonio Texas February 13 May 8 2016

Poetry as Re-Reading Ming-Qian Ma, 2008-08-20 Grounded in a detailed and compelling account of the philosophy guiding such a project Ma's book traces a continuity of thought and practice through the very different poetic work of objectivists Louis Zukofsky George Oppen Carl Rakosi and John Cage and language poets Susan Howe Lyn Hejinian Bruce Andrews and Charles Bernstein His deft individual readings provide an opening into this notoriously difficult work even as his larger critique reveals a new and clarifying perspective on American modernist and post modernist avant garde poetics Ma shows how we cannot understand these poets according to the usual way of reading but must see how they deliberately use redundancy unpredictability and irrationality to undermine the meaning oriented foundations of American modernism
