

A wicker basket overflowing with autumn harvest items. Inside the basket are several green and yellow striped gourds, ears of golden corn, and clusters of red berries. The basket is surrounded by vibrant orange and yellow maple leaves. In the foreground, a large orange pumpkin sits on the ground. The background is a soft-focus field of tall grass and more autumn foliage.

Frank,2021-07-08 2022 Heggoy Prize from the French Colonial Historical Society Royal Historical Society s 2022 Gladstone  
Book Prize Shortlist *Hostages of Empire* combines a social history of colonial prisoner of war experiences with a broader  
analysis of their role in Vichy s political tensions with the country s German occupiers The colonial prisoners of war came  
from across the French Empire they fought in the Battle for France in 1940 and they were captured by the German Army  
Unlike their French counterparts who were taken to Germany the colonial POWs were interned in camps called Frontstalags  
throughout occupied France This decision to keep colonial POWs in France defined not only their experience of captivity but  
also how the French and German authorities reacted to them *Hostages of Empire* examines how the entanglement of French  
national pride after the 1940 defeat and the need for increased imperial control shaped the experiences of 85 000 soldiers in  
German captivity Sarah Ann Frank analyzes the nature of Vichy s imperial commitments and collaboration with its German  
occupiers and argues that the Vichy regime actively improved conditions of captivity for colonial prisoners in an attempt to  
secure their present and future loyalty This French magnanimity toward the colonial prisoners was part of a broader  
framework of racial difference and hierarchy As such the relatively dignified treatment of colonial prisoners must be viewed  
as a paradox in light of Vichy and Free French racism in the colonies and the Vichy regime s complicity in the Holocaust  
*Hostages of Empire* seeks to reconcile two previously rather distinct histories that of metropolitan France and that of the  
French colonies during World War II      *Throne of Wisdom* Ilene H. Forsyth,2019-01-29 The wooden statue of the Mother  
and Child enthroned known as sedes sapientiae the Seat or Throne of Wisdom reached the brilliant culmination of its  
development as a genre of religious sculpture in the twelfth century As a visible expression of the mystery of Incarnation its  
iconography dated back to the early church Translated by the Romanesque sculptor into a fully plastic freestanding form its  
style conveys convincingly the medieval vision of humanity and divinity interfused The recent cleaning and restoration of a  
number of these wood carved figures of the Madonna in Majesty has now made possible a full appraisal of the genre Mrs  
Forsyth s discussion examines the character function iconography and history of the statues distinguishes types and regional  
styles considers their role within the broader context of medieval art and assesses their artistic merit Her register of  
principal examples includes 110 sculptures dating from twelfth century France some of which have never been published  
before 192 illustrations accompany the text Ilene H Forsyth is Associate Professor in the Department of the History of Art at
