Macarthurs Ultra Codebreaking And The War Against Japan 1942 1945:

MacArthur's ULTRA Edward J. Drea,1992 Cracking the enemy s radio code is a task so urgent and so difficult that it demands the military s best minds and most sophisticated technology But when the coded messages are in a language as complex as Japanese decoding problems multiply dramatically *MacArthur's Jungle War* Stephen R. Taaffe,1998 His book tells not only how victory was gained through a combination of technology tactics and army navy cooperation but also how the New Guinea campaign exemplified the strategic differences that plagued the Pacific War since many high ranking officers considered it a diversionary tactic rather than a key offensive *MacArthur's Victory* Harry Gailey,2007-12-18 A GREAT WARRIOR AT THE PEAK OF HIS POWERS In March 1942 General Douglas MacArthur faced an enemy who in the space of a few months captured Malaya Burma the Philippines the Dutch East Indies and from their base at Raubaul in New Britain threaten Australia Upon his retreat to Australia MacArthur hoped to find enough men and mat riel for a quick offensive against the Japanese Instead he had available to him only a small and shattered air force inadequate naval support and an army made up almost entirely of untried reservists Here is one of history s most controversial commanders battling his own superiors for enough supplies since President Roosevelt favored the European Theater butting heads with the Navy which opposed his initiatives and on his way to making good his promise of liberating the Philippines In the battles for Buna Lae and Port Moresby the capture of Finschhafen and other major actions he would prove his critics wrong and burnish an image of greatness that would last through the Korean War This was the other Pacific War the one MacArthur fought in New Guinea and against all odds and most predictions decisively won **MacArthur and the American Century** William M. Leary,2001-01-01 General Douglas MacArthur has been hailed as the greatest soldier in American history While not everyone would agree with that assessment there is no question that MacArthur played a prominent role in the emergence of the United States as a world power in the twentieth century A distinguished combat soldier during World War I and an innovative educator at West Point in the 1920s MacArthur became the army s chief of staff during the Great Depression He went abroad in the 1930s to prepare the Philippines for war His stand against the Japanese following Pearl Harbor made him a national hero and his subsequent campaign against Japanese forces in the Southwest Pacific only added to his reputation The Korean War gave MacArthur a final opportunity to display his military skills MacArthur and the American Century assembles for the first time a nuanced and full scrutiny of MacArthur s entire career Essays by such experts as Stanley L Falk and D Clayton James accompany materials by Dwight D Eisenhower and MacArthur himself providing analysis and evaluation of the immense impact this dramatic figure had on war peace and the American imagination **The Battle for Leyte, 1944** Milan Vego,2013-03-11 One of the largest and most complex military efforts ever undertaken the Leyte Operation was the Allies first and most important major combined operation to liberate the Philippine archipelago The stakes were high a successful landing at Leyte was critical to a subsequent assault on Luzon and total control of the Philippines If Japan lost the

Philippines its supply of oil and other strategic raw materials would be cut off and its Navy doomed to an inglorious end In this comprehensive study one of the world s leading authorities on the subject addresses all aspects of the two month long ground sea and air invasion and presents a complete evaluation of theater wide command organization intelligence and logistics Drawing on a wealth of Allied and Japanese primary documents and countless secondary sources Milan Vego describes and analyzes the operational planning and preparation as well as the execution of actions on both sides Focusing on the operational versus tactical aspects of the struggle he critically assesses the major decisions made by the senior commanders His access to the Allied Magic radio intercepts allows him to shed light on what Allied and Japanese commanders knew and did not know about each other Unlike other books on the subject Vego draws conclusions and provides operational lessons learned based on his conclusions A large number of maps figures and tables enhance the text

The War for Korea, 1945-1950 Allan Reed Millett,2005 When the major powers sent troops to the Korean peninsula in June of 1950 it supposedly marked the start of one of the last century s bloodiest conflicts In volume 1 Allan Millett however reveals that the Korean War actually began with partisan clashes two years earlier and had roots in the political history of Korea under Japanese rule 1910 1945 In volume 2 he shifts his focus to the twelve month period from North Korea s invasion of South Korea on June 25 1950 through the end of June 1951 the most active phase of the internationalized Korean War

MacArthur's Airman Thomas E. Griffith,1998 Thomas Griffith offers a critical assessment of George C Kenney s numerous contributions to MacArthur s war efforts He depicts Kenney as a staunch proponent of airpower s ability to shape the outcome of military engagement and a commander who shared MacArthur s strategic vision Naval Power and Expeditionary Wars Bruce A. Elleman,S.C.M. Paine,2010-12-09 This book examines the nature and character of naval expeditionary warfare in particular in peripheral campaigns and the contribution of such campaigns to the achievement of strategic victory Naval powers which can lack the massive ground forces to win in the main theatre often choose a secondary theatre accessible to them by sea and difficult for their enemies to reach by land giving the sea power and its expeditionary forces the advantage The technical term for these theatres is peripheral operations The subject of peripheral campaigns in naval expeditionary warfare is central to the British the US and the Australian way of war in the past and in the future All three are reluctant to engage large land forces because of the high human and economic costs Instead they rely as much as possible on sea and air power and the latter is most often in the form of carrier based aviation In order to exert pressure on their enemies they have often opened additional theaters in on going regional and civil wars This book contains thirteen case studies by some of the foremost naval historians from the United States Great Britain and Australia whose collected case studies examine the most important peripheral operations of the last two centuries This book will be of much interest to students of naval warfare military history strategic studies and security studies With the 41st Division in the Southwest Pacific Francis B. Catanzaro,2002-10-24 We began our advance toward the Mokmer Airstrip The road climbed a ridge 15 or

20 feet high and we found ourselves on a flat coral plateau sparsely covered by small trees and scrub growth As we moved westward along the road two of our destroyers were sailing abreast of the lead elements of the advancing column The first indication of trouble was the roar of heavy artillery shells sailing over our heads aimed at our destroyers Shortly after that our forward movement stopped and we heard heavy firing from the head of the column As we waited we began to hear heavy fire from the rear We were cut off and surrounded In the enormous literature of the Second World War there are surprisingly few accounts of fighting in the southwest Pacific fewer still by common infantrymen This memoir written with a simple and direct honesty that is rare indeed follows a foot soldier's career from basic training to mustering out It takes the reader into the jungles and caves of New Guinea and the Philippines during the long campaign to win the war against Japan From basic training at Camp Roberts through combat occupation and the long journey home Francis Catanzaro's account tells of the excitement misery cruelty and terror of combat and of the uneasy boredom of jungle camp life A member of the famed 41st Infantry Brigade the Jungleers Catanzaro saw combat at Hollandia Biak Zamboanga and Mindanao He was a part of the Japanese occupation force and writes with feeling about living among his former enemies and of the decision to drop the atom bomb With the 41st Division in the Southwest Pacific is a powerful gritty and moving narrative of the life of a soldier during some of the most difficult fighting of World War II

In the Service of the Emperor Edward J. Drea, 2003-01-01 Japan's war in Asia and the Pacific from 1937 to 1945 continues to be a subject of great interest yet the wartime Japanese army remains little understood outside Japan Most published accounts rely on English language works written in the 1950s and 1960s The Japanese language sources have remained relatively inaccessible to Western scholars in part because of the difficulty of the language a difficulty that Edward J. Drea who reads Japanese surmounts In a series of searching examinations of the structure ethos and goals of the Japanese military establishment Drea offers new material on its tactics operations doctrine and leadership Based on original military documents official histories court diaries and Emperor Hirohito's own words these twelve essays introduce Western readers to fifty years of Japanese scholarship about the war and Japan's military institutions In addition Drea uses recently declassified Allied intelligence documents related to Japan to challenge existing views and conventional wisdom about the war

Hitler's Japanese Confidant Carl Boyd, 1993 In 1940 the US Army Signal Intelligence Service broke the Japanese diplomatic code In 1975 Oshima Hiroshi Japan's ambassador to Berlin during World War II died never knowing that the hundreds of messages he transmitted to Tokyo had been fully decoded by the Americans and whisked off to Washington providing a major source of information for the Allies on Nazi activities

Alone on Guadalcanal Martin W. Clemens, 2012-10-11 This remarkable memoir tells the compelling story of the near-mythic British district officer who helped shape the first great Allied counteroffensive. Scottish-born and Cambridge-educated Martin Clemens managed to survive months behind Japanese lines in one of the most unfriendly climates and terrains in the world. After countless partisan and spy missions in 1942, he emerged from the jungle and integrated his Melanesian commando force into the heart of the 1st Marine Division's operations, earning the unfettered admiration of such legendary Marine officers as Vandegrift, Thomas, Twining, Edson, and Pate. The book is based on a journal Clemens kept during the war and might well be the last critical source of analysis of the Solomon's campaign. His eyewitness accounts of harrowing long-distance patrols and life on the run from shadowy Japanese intelligence operatives and treacherous islanders are unmatched in the literature of the Pacific War. First published in 1998, the story is essential and enjoyable reading.

Mastering the Art of Command Trent Hone, 2022-09-15 Honorable Mention for the John Lyman Book Award in the category of U.S. Naval History. *Mastering the Art of Command* is a detailed examination of Admiral Chester W. Nimitz's leadership during World War II. It describes how he used his talents to guide the Pacific Fleet following the attacks on Pearl Harbor, win crucial victories against the forces of Imperial Japan, and then seize the initiative in the Pacific. Once Nimitz's forces held the initiative, they maintained it through an offensive campaign of unparalleled speed that overcame Japanese defenses and created the conditions for victory. As a command and operational history, *Mastering the Art of Command* explores how Nimitz used his leadership skills, command talents, and strategic acumen to achieve these decisive results. Hone recounts how Nimitz, as both Commander in Chief of the Pacific Fleet (CINCPAC) and Commander in Chief of the Pacific Ocean Areas (CINCPAC), revised and adapted his organizational structure to capitalize on lessons and newly emerging information. Hone argues that Nimitz, because he served simultaneously as CINCPAC and CINCPAC, was able to couple tactical successes to strategic outcomes and more effectively plan and execute operations that brought victory at Midway, Guadalcanal, the Marshall Islands, the Philippines, Iwo Jima, and Okinawa. As a study of leadership, *Mastering the Art of Command* uses modern management theories and builds upon the approach in his award-winning *Learning War*. Trent Hone explores the challenge of leadership in complex adaptive systems through Nimitz's behavior and causes us to reassess the inevitability of Allied victory and the reasons for its ultimate accomplishment. A new narrative history of the Pacific war, this book demonstrates effective patterns for complexity-informed leadership by highlighting how Nimitz maintained coherence within his organization, established the conditions for his subordinates to succeed, and fostered collaborative sensemaking to identify and pursue options more rapidly. Nimitz's strategic artistry is a pattern worthy of study and emulation for today's military officers, civilian leaders, and managers in large organizations.
