Knausgaard's first collection of essays to be published in English. In these wide-ranging pieces he reflects openly and with penetrating intelligence on Ingmar Bergman's notebooks, Anselm Kiefer, the northern lights, Madame Bovary, Rembrandt, and the role of an editor. Accompanied by black and white reproductions throughout, these essays illuminate Cindy Sherman's shadowlands, the sublime mystery of Sally Mann's vision, and the serious play of Francesca Woodman. They capture Knausgaard's remarkable ability to mediate between the personal and the universal, between life and art. Each piece glimmers with his candor and his longing to authentically see, understand, and experience the world.

Northern Lights on the Dead Sea Scrolls Anders Klostergaard Petersen, Torleif Elgvin, Cecilia Wassen, Hanne von Weissenberg, Mikael Winnige, 2010-01-01. Structured by four important themes, the book discusses various aspects pertaining to the interpretation of the Dead Sea Scrolls. The first theme is comprised by a number of essays that deal with different aspects of textual interpretation of particular Qumran writings. The second theme centers on the question of historical referentiality: How can the purported referentiality of particular Qumran writings be used in order to reconstruct an underlying historical reality? The third theme includes essays that pertain to different dimensions concerning the methodology of interpretation. The fourth theme focuses on problems relating to the textual reconstruction of specific Qumran texts. In the final section of the book, the perspective is widened to other writings outside the more specific Qumran context.

The Ring and the Swastika Sandy Jenkins, 2016-06-02. This is only a start, he said to Hilder. I think that the English will invade sooner or later. Even though that may not be for some time, the Germans will in the end be thrown out, and I expect that there will be more raids to come. It's 1941, and Erik Kingsnorth, a half-Norwegian Commando captain, lands in German-occupied Norway as a radio communications agent. He is acutely aware of the need at all costs to avoid his Norwegian relations but is spotted on a fishing boat by his cousin Bjorn. But Bjorn turns out to be a collaborator, and Erik is ordered by the Resistance to shoot him. Armed with a pistol, he confronts his cousin on a lonely path at dusk but cannot bring himself to pull the trigger. Later, working alongside the Resistance, Erik discovers what is being constructed on a wild, uninhabited coastline: a top-secret U-boat staging post where he narrowly escapes capture in a fusillade of rifle fire. With the help of the Resistance leader's beautiful daughter, he stumbles across a huge cache of gold ingots in a sea cave which bear Soviet hallmarks: could they really be from HMS Edinburgh, previously torpedoed in the Barents Sea? Erik is soon drawn in to a world of danger, intrigue, and desperate flight from pursuing Nazis. He flies out in a commandeered float plane but crash-lands into the Great Tana River near the Russian border and is arrested by the Soviets who believe him to be a collaborator. Finally, in a gulag in Arctic Russia, he is overtaken by monstrous events too awful even to contemplate. Inspired by books such as *Two Eggs on my Plate* by Oluf Reed Olsen and *We Die Alone* by David Howarth, *The Ring and the Swastika* will appeal to fans of historical novels, especially those with a particular interest in wartime Norway.

We Count, We Matter Christopher Steed, 2018-02-05. This book examines the meaning of Brexit, the election of Trump, and the rising tide of populist revolt on the right amidst the

collapse of the left Exploring the reaction against the establishment or the system the author contends that we are witnessing a new divide between those who wish to see an interconnected world and those who seek distance as transport and technology shrink the world we witness a backlash that favours protectionism and opposes immigration Distance is the new frontier for some remote players are rejected in favour of identities closer to home This divide plays out in relation to the notion of face as individuals react to faceless organisations and processes such as globalisation and automation responding to a sense of alienation on social media and developing a conception of themselves as networked individuals Thus we move towards a type of society characterised not by honour and dishonour or right and wrong but by voice and choice A fascinating and very accessible analysis of the divisions and transformations that have come to dominate the contemporary landscape this book will appeal to political leaders and social scientists with interests in globalisation social movements and social theory
