Grants Jean M. Fromm, 2007 Grants are available from thousands of sources both private and public To the grantseeker however this wealth of sources appears like an impenetrable jungle Where are the grants I need and what do I need to do to submit my ideas and proposals This book is designed to answer these questions by aiming the grantseeker to both the grant givers and by providing a bibliography of book for further research *Peterson's Grants for Post-doctoral Study*, 1992

Peterson's Grants for Graduate Study, 1992 Gathers information about grants and fellowships exclusively for graduate students with details on the eligibility requirements *Resources in Education*, 1995 **Peterson's Graduate Programs in Business, Education, Health, Information Studies, Law & Social Work 2012** Peterson's, 2012-05-15 Peterson's Graduate Programs in Business Education Health Information Studies Law Social Work 2012 contains a wealth of info on accredited institutions offering graduate degrees in these fields Up to date info collected through Peterson's Annual Survey of Graduate and Professional Institutions provides valuable data on degree offerings professional accreditation jointly offered degrees part time evening weekend programs postbaccalaureate distance degrees faculty students requirements expenses financial support faculty research and unit head and application contact information There are helpful links to in depth descriptions about a specific graduate program or department faculty members and their research and more Also find valuable articles on financial assistance the graduate admissions process advice for international and minority students and facts about accreditation with a current list of accrediting agencies Grants A. M. Babkina, 2000 Edited by Babinka no credentials listed this bibliography contains no introductory material stating how or why selections were made Furthermore though the book's title states with indexes there is in fact only one index and this one index simply lists titles providing very little help in accessing the book's contents The citations are Library of Congress catalog records printed about three to a page and inconsiderately without font differentiation of the titles Arrangement is in the following sections general websites government and transportation block community research education literature arts and music environment agriculture business and nonprofit women medicine and health and international Annotation copyrighted by Book News Inc Portland OR
