Petrified Campus The Crisis In Canadas Universities:

Petrified Campus David Jay Bercuson, Robert Bothwell, J. L. Granatstein, 1997 In 1984 a book called *The Great Brain Robbery* Canada's Universities on the Road to Ruin became a controversial bestseller and caused a media uproar Canada has undergone drastic changes since then *The Great Brain Robbery*'s authors renowned historians David Bercuson Robert Bothwell and J L Granatstein felt compelled to re examine Canada's university system for the nineties What they found there did not please them and the impact it will have on all Canadians could be disastrous **Campus Confidential** Ken S. Coates, Bill Morrison, 2013-03-11 In 2011 the first edition of *Campus Confidential* sparked a lively debate about what is really going on inside our colleges and universities The media and readers alike welcomed this readable honest book University authorities didn't They took the authors to task for spilling the beans In this second edition Ken S Coates and Bill Morrison pick up where they left off adding new and up to date information for students and their parents to consider Among the questions they address Why more students should consider the skilled trades Whether a BA is ever worth the paper it's printed on How roving administrators are undermining universities Why we over produce graduate students What's right and wrong with what's happening on campuses in Quebec Now that nearly everyone goes to college or university but only a small percentage of graduates actually find employment in their chosen field understanding what's really going on in Canadian postsecondary institutions is more important than ever Readers can count on Ken S Coates and Bill Morrison for unexpected insights and lots of fresh new ideas and information *No Place to Learn* Thomas C Pocklington, Allan Tupper, 2011-11-01 The Red Cross is studied and criticized The Royal Family is studied and criticized Churches and hospitals are studied and criticized Canadian universities are seldom studied and criticized and are worse off for this neglect This book seeks to repair this damage by casting a critical eye on how Canadian universities work or fail to work Arguing that too much emphasis is placed on specialized research and too little on teaching *No Place to Learn* contends that students seeking higher education in Canada are being short changed In clear non technical language the book explains the priorities of Canadian universities and outlines several practical reforms that would greatly improve them If you've never known what deans do what tenure is and what professors do when they're not teaching *No Place to Learn* is a must read an eye opening introduction that raises serious questions about the state of higher education in Canada Current students prospective students and their parents will not want to miss this book while professors and administrators would be wise to take note of it **Resources in Education**, 1998 **History** Fouad Sabry, 2024-08-07 What role does history play in shaping today's political world History an essential volume in the Political Science series explores how historical events influence political ideologies governance and societal changes worldwide This book is vital for understanding how the past shapes contemporary politics providing insights into key historical concepts Chapters Summaries 1 History Overview of history's significance in political science and its impact on governance 2 Annales School Innovative approach to social history and its effect on political analysis 3 Historiography Study

Universities for Sale Neil Tudiver, Canadian Association of University Teachers, 1999 In the 1990s Canadian universities experienced an aggressive campaign of corporatization Universities for Sale offers suggestions on how to resist corporatization Neil Tudiver shows how scholarly independence has in recent years been eroded to a point of crisis Left unchecked corporations play a larger and larger role in deciding which fields of study survive and which will disappear He looks at how professors defend free inquiry against the pressures of economic expediency Universities for Sale is a penetrating analysis of the ongoing issue of corporate influence on Canada's universities

Concepts of Capital Jacek Tittenbrun, 2017-07-05 Borrowing terminology from the economic discipline specifically the concept of capital has led to an abundance of new terms in the social sciences human capital social capital and cultural capital to name the most prominent representatives on an ever growing list In this interdisciplinary transaction the concept is borrowed and the original meaning extended until the new concepts often have nothing left in common with their initial referents Here Jacek Tittenbrun offers a critical analysis of human social and cultural capital on the basis of their uses and misuses across a wide range of social sciences simultaneously revealing the source of conceptual diffusion in the real world He presents a two pronged analysis of an intellectual fashion popular in the social sciences and offers a critical analysis of a range of concepts constructed around the common core of capital The analysis is innovative as it is underpinned by a theoretical framework rooted in economic sociology and the concept of ownership in particular The approach is one of the sociology of knowledge coupled with a substantive critique application of the given concepts The volume reveals a range of

processes in the real world that account for the conceptual diffusion The general reader will be drawn to the discussion in the second half of the book a study of a variety of relatable real life situations that illuminate privatization and commodification in our lives Moral Panics Over Contemporary Children and Youth Charles Krinsky,2008 A truly international collection this volume features new global research examining the cultural construction of youth through the dissemination of moral panics This is the first book to make the most of the latest contemporary research to examine this

The Ph.D. Trap Revisited Wilfred Cude,2000-10 This book lays bare the faults of the Ph D program showing that in most disciplines it is savage mechanical and cruel **Academic Freedom in Canada** Michiel Horn,1998-01-01 Covering issues from the resistance in universities to Darwinist thought to the experience of women and ethnic minorities to economic and political correctness from 1860 to the present *Academia Inc.* Jamie Brownlee,2015-05-01T00:00:00Z Canadian universities are being slowly but inexorably corporatized Casualizing academic labour remaking students into consumers of education implementing corporate management models and commercializing academic research all point to the ascendance of business interests and values in Canada s higher education system Academia Inc examines the tensions that result from the merging of two fundamentally incompatible institutions the university and the corporation Brownlee argues that moving from liberal education to corporate job training public service to profit making and critical research to commercial invention radically undermines the goals of higher education Investigating the history causes and impacts of corporatization this book explores how this transformation has taken shape and its ramifications for both universities and society as a whole Brownlee suggests several strategies for resisting this process *Higher And Technical Education: Book Of Knowledge* B.M. Naik & W.S. Kandlikar,2010 Counting Out The Scholars William Bruneau,Donald C. Savage,Canadian Association of University Teachers,2002-03-07 Canada s universities have lost their autonomy Under the guise of accountability reformers from government and large corporations have undermined the original purposes of these institutions insisting that they operate according to a business model The chief tool used to effect this change is the performance indicator a method of evaluation and ranking well suited to measuring sales per square foot for example but useless in assessing qualities such as critical thinking creativity and wisdom Evaluating use of performance indicators in Canada the United States United Kingdom and New Zealand the authors challenge readers to look beyond this narrow business based measure of value and to consider more creative and effective methods of evaluation Counting Out the Scholars is a penetrating analysis of current methods of performance evaluation in the university one that offers alternatives to the prevailing orthodoxy **Dilemmas of Free Expression** Emmett Macfarlane,2021-11-01 Free expression is under threat Social media and fake news misinformation and disinformation have prompted governments to propose new forms of regulation that are deeply challenging to free expression Hate speech far right populism campus speech debates and censorship consistently make headlines in Canada and abroad Dilemmas of Free Expression offers forward looking appraisals of ways to confront challenging moral issues

policy problems and controversies that pay heed to the fundamental right to free expression The essays in this volume offer timely analyses of the law policy and philosophical challenges and social repercussions to our understanding of expressive freedom in relation to government obligations and public discourse Free expression and its limits are multifaceted deeply complex inherently values based and central to the ability of a society to function Dilemmas of Free Expression addresses the challenges of limiting free expression across a host of issues through an analyses by leading and emerging voices in a number of disciplines including political science law philosophy and Indigenous studies

The New Buffalo Blair Stonechild, 2006-12-15 Post secondary education often referred to as the new buffalo is a contentious but critically important issue for First Nations and the future of Canadian society While First Nations maintain that access to and funding for higher education is an Aboriginal and Treaty right the Canadian government insists that post secondary education is a social program for which they have limited responsibility In The New Buffalo Blair Stonechild traces the history of Aboriginal post secondary education policy from its earliest beginnings as a government tool for assimilation and cultural suppression to its development as means of Aboriginal self determination and self government With first hand knowledge and personal experience of the Aboriginal education system Stonechild goes beyond merely analyzing statistics and policy doctrine to reveal the shocking disparity between Aboriginal and Canadian access to education the continued dominance of non Aboriginals over program development and the ongoing struggle for recognition of First Nations run institutions

Minding the Public Purse Janice MacKinnon, 2003 Although initially opposed to the radical cuts and downloading imposed by Martin in his 1995 budget MacKinnon now argues that they were essential and analyzes how they have irrevocably transformed the Canadian federation

BOOK JACKET

Understanding Neoliberal Rule in Higher Education Mark Abendroth, Brad J. Porfilio, 2015-06-01 The word fundamentalism usually conjures up images of religions and their most zealous followers Much less often the word appears in connection with political economy The phrase free market gives the connotation that capitalism is freedom Neoliberalism is the rise of global free market fundamentalism It reaches into nearly every aspect of our daily lives as it seeks to dominate and eliminate the last vestiges of public domains through wanton privatization and deregulation It degrades all that is public The good news is that a global community of resistance continues to struggle against neoliberal oppression Formal and informal education entities contribute to these struggles offering visions and strategies for creating a better future The purpose of this volume is twofold Several contributors will highlight how the neoliberal agenda is impacting educational policy formation teaching and learning and relationships between institutions of higher education and communities Other contributors will highlight how the global community has gradually become conscious of the ideological doctrine and how it is responsible for human suffering and misery The volume is needed because the growing body of educational research linked to exploring the impact of neoliberalism on education and society fails to provide conceptual or historical understanding of this ideology It is also an

important scholarly intervention because it provides insights as to why educators scholars and other global citizens have challenged the intrusion of market forces over life inside universities and colleges Teaching faculty research faculty and anyone who yearns to understand what is behind the debilitating trend of commercial forces subverting humanizing educational projects would benefit from this volume Activists educators youth and scholars who seek strategies and visions for building democratic higher education and a more democratic society would consider this volume essential reading

Humanism Betrayed Graham Good,2001 In *Humanism Betrayed* Graham Good offers a defence of liberal humanism against the illiberal trends political and intellectual that dominate today s university He uses the McEwen Report episode at the University of British Columbia to illustrate the current political climate in universities showing how due process was neglected in favour of ideological inquisition *Adaptation, Resistance and Access to Instructional Technologies: Assessing Future Trends In Education* D'Agustino, Steven,2010-09-30 This book captures the current trends in technology integration from PreK 12 to higher education focusing on the various constituent groups namely students teachers and communities in education and the effects of educational technology on learning and empowerment Provided by publisher **Rethinking the Future of the University** David Lyle Jeffrey,Dominic Manganiello,1998 This distinguished collection of essays edited under the direction of David Lyle Jeffrey and Dominic Manganiello emerged from the discussions that surrounded the 1995 1996 McMartin Lectures Dedicated to studying the relationship and contributions of historic Christian thought to the intellectual life of university disciplines this series of lectures served as an occasion for scholars to rethink the present crisis in the relationship between the historic identity of the university and the development of the modern university Published in English
