Wolf,2012-04-01 Despite today s historically low maternal and infant mortality rates in the United States labor continues to evoke fear among American women Rather than embrace the natural childbirth methods promoted in the 1970s most women welcome epidural anesthesia and even Cesarean deliveries In Deliver Me from Pain Jacqueline H Wolf asks how a treatment such as obstetric anesthesia even when it historically posed serious risk to mothers and newborns paradoxically came to assuage women s anxiety about birth Each chapter begins with the story of a birth dramatically illustrating the unique practices of the era being examined Deliver Me from Pain covers the development and use of anesthesia from ether and chloroform in the mid nineteenth century to amnesiacs barbiturates narcotics opioids

tranquilizers saddle blocks spinals and gas during the mid twentieth century to epidural anesthesia today Labor pain is not merely a physiological response but a phenomenon that mothers and physicians perceive through a historical social and cultural lens Wolf examines these influences and argues that medical and lay views of labor pain and the concomitant acceptance of obstetric anesthesia have had a ripple effect creating the conditions for acceptance of other often unnecessary and sometimes risky obstetric treatments forceps the chemical induction and augmentation of labor episiotomy electronic fetal monitoring and Cesarean section As American women make decisions about anesthesia today Deliver Me from Pain offers them insight into how women made this choice in the past and why each generation of mothers has made dramatically different decisions

Rochester and Rochester Hills Meredith Long, Madelyn Rzakowski, 2011 Rochester and Rochester Hills grew in a territory of three rivers abundantly fertile pastures and rolling oak forests on land once considered uninhabitable Though only 30 miles from Detroit official government reports of swampy and barren land deterred settlers In 1817 the Graham family disregarded these reports instead following the advice of Native Americans to reach a territory governed by a triumvirate of creeks which were forceful enough to power several mills yet gentle enough to support thriving farms Only 20 years later every plot in Rochester had been sold Later the village was made a stop on the network of Michigan railroads cementing its fate as a vigorous and popular community With a past boasting such illustrious citizens as auto baron John Dodge and internationally prominent obstetrician Dr Bertha Van Hoosen with corporations like Parke Davis and philanthropic organizations such as Leader Dogs for the Blind Rochester remains a source of innovative leadership as well as a model for successful suburbia
