Confirmative Evaluation Joan C. Dessinger, James L. Moseley, 2003-12-22 This much needed book offers trainers, consultants, evaluation professionals, and human resource executives and practitioners a hands on resource for understanding and applying the proven principles of confirmative evaluation. Confirmative evaluation is a marriage of evaluation and continuous improvement. Unlike other types of evaluation which are used during the design of a learning program or applied immediately after conducting a program, confirmative evaluation follows several months after the program is implemented. It tests the endurance of outcomes, the return on investment, and establishes the effectiveness, efficiency, impact, and value of the training over time.
