We are all programmed for natural ability and movement. Our bodies are programmed to instinctively perform athletic movements with balance and coordination like walking, riding a bicycle, roller skating, swimming, and many more. So you do have the natural ability for a good golf swing and to play good golf. Learn how to build your best golf swing using the natural ability that you are programmed with. Without any awareness of how the body and mind work for you, many people never learn to feel the natural movement and allow the body to develop its own natural swing style. Without understanding this and allowing it to happen, you may never reach your potential and will always struggle for consistency. Most elite players on tour started swinging a golf club when they were small children; their mind and body naturally developed this ability without them being aware they were doing so. Children at a young age have little awareness of conscious focus when learning or performing a physical movement as they are usually only focused on the result of what they are trying to do. In the case of golf, this is hitting the ball. There is a lot that the average golfer can learn from this. Many average golfers learn to try and use the swing technique that great players have written about over the years, and a lot of what can be found on instructional videos online or taught by swing coaches is based on the techniques of these great players. What many people don't take into consideration when trying to learn from the teachings of great players like Hogan and Nicklaus is that their swing technique developed over time as a result of specific tendencies with their ball.

striking and shot shape For example in his early career Ben Hogan struggled with a strong hook as the main shot miss in his game Many regard Hogan as the greatest ball striker of all time but he developed his famous swing style and technique over the years as he worked hard to get the hook misses out of his game Learn to understand you own technique and style Once you learn how to allow your mind and body perform your own natural swing you will find it much easier to work on the specific techniques taught by great players or your coach as you will have a greater connection to your subconscious and a feel for the swing and your body movements The more you can allow your conscious mind to stay out of the way and allow your subconscious to take control the quicker you can improve and the more consistent you will play This book covers my story what I learnt in my journey to better golf and the puts together in one place all the information to help you do the same and find your natural golf swing

Ben Hogan's Tips for Weekend Golfers Ted Hunt,2017-04-04 Ben Hogan made hitting a golf ball look easy and the results spoke for themselves But Hogan s swing system is as complex as a spider s web the variables and connections are never ending In Ben Hogan s Tips for Weekend Golfers Hunt presents a selection of simple but valuable tips based on the legendary golfer s secret to a competitive golf swing The book is intended for the recreational golfer not the tournament player who has unlimited time to practice It distills Hogan s observations concerning the vital components of a golf swing one at a time and presents them as simply as possible Each tip is illustrated with a series of photographs which clearly show the proper grip stance backswing and follow through The author addresses these important golfing concepts What powers the takeaway When and how do the wrists hinge What is your first move down from the top of the backswing What is the action of the back knee When does the lead knee straighten How do you connect the arms to the torso How do you maximize power through proper timing in the contact zone What are the two benefits of hovering the putter and the driver How can fifteen minutes a day at your home significantly improve 55 percent of your game In Ben Hogan s Tips for Weekend Golfers Ted Hunt makes the intricate Hogan system accessible and presents it in a way that the Hawk himself might have if he were instructing a club member out on the course
