**Ken Corbett**

## Phallic Quest:

**Boyhoods** Ken Corbett, 2009-09-22 Familiar and expected gender patterns help us to understand boys but often constrict our understanding of any given boy Writing in a wonderfully robust and engaging voice Ken Corbett argues for a new psychology of masculinity one that is not strictly dependent on normative expectation As he writes in his introduction no two boys no two boyhoods are the same In *Boy Hoods* Corbett seeks to release boys from the grip of expectation as Mary Pipher did for girls in *Reviving Ophelia* Corbett grounds his understanding of masculinity in his clinical practice and in a dynamic reading of feminist and queer theories New social ideals are being articulated New possibilities for recognition are in play How is a boy made between the body the family and the culture Does a boy grow by identifying with his father or by separating from his mother Can we continue to presume that masculinity is made at home Corbett uses case studies to defy stereotypes depicting masculinity as various and complex He examines the roles that parental and cultural anxiety play in development and he argues for a more nuanced approach to cross gendered fantasy and experience one that does not mistake social consensus for well being Corbett challenges us at last to a fresh consideration of gender with profound implications for understanding all boys

*The Phallic Quest* James Wyly, 1989 Priapus was a Greek god famous for the enormous size of his genitals Here he is seen as an apt metaphor for the inflation of modern day patriarchy its grandiosity and search for more and more power

*Queer Sex Life* Terry Goldie, 2010-09 Evocative of writers Patrick Califia Rice and Kate Bornstein whose best works explore gender and sexuality through personal memoir *queer sex life* is a frank and intimate collection of responses to theories of queer sexuality and identity as viewed through the author's own experiences By turns insightful and elegant Terry Goldie delves into contemporary subject matter both fraught and explicit revealing subtle fluid truths about human sexuality and desire drag queens feminism cross cultural sex bisexuality gay youth and the concept of being out among others Goldie explores this diverse terrain with a perceptive and provocative eye as he attempts to understand the complex issues of sexuality and gender from within and as a result to understand himself The result expands and deepens our understanding of the parameters and ramifications not only of queer sexuality but human sexuality in general in terms that are both beautiful and unapologetic *Queer sex life* is a book for LGBTQ studies and general readers alike

*New Adam* Philip Leroy Culbertson, With its deft explanations of male psychology its profound encounters with five biblical texts of terror for men and its pioneering of new ways in men's prayer and men's groups Culbertson's book enables men to come to terms with issues of justice friendship sexuality and love in their lives His book will help men to craft a new spirituality to achieve a new integrity and ultimately to create a new identity

*TechGnosis* Erik Davis, 2015-03-17 *TechGnosis* is a cult classic of media studies that straddles the line between academic discourse and popular culture it appeals to both those secular and spiritual to fans of cyberpunk and hacker literature and culture as much as new thought adherents and spiritual seekers How does our fascination with technology intersect with the religious imagination In

TechGnosis a cult classic now updated and reissued with a new afterword Erik Davis argues that while the realms of the digital and the spiritual may seem worlds apart esoteric and religious impulses have in fact always permeated and sometimes inspired technological communication Davis uncovers startling connections between such seemingly disparate topics as electricity and alchemy online roleplaying games and religious and occult practices virtual reality and gnostic mythology programming languages and Kabbalah The final chapters address the apocalyptic dreams that haunt technology providing vital historical context as well as new ways to think about a future defined by the mutant intermingling of mind and machine nightmare and fantasy

The Dream Structure of Pinter's Plays Lucina Paquet Gabbard,1976 Approaches the problems of obscurities ambiguities and interrelationships in Pinter s plays through the mechanisms of the dream and shows that the plays group around the oedipal wish

The Palgrave Handbook of Ubuntu, Inequality and Sustainable Development Ezra Chitando,Beatrice Okyere-Manu,Sophia Chirongoma,Musa W. Dube,2025-02-28 The Palgrave Handbook of Ubuntu Inequality and Sustainable Development interrogates the multiple inequalities that subsist in the world and explores how Ubuntu emerging from Africa but being potentially applicable elsewhere holds promise for mitigation and resolution It highlights inequalities that relate to gender climate change the environment race migration and the struggle against poverty It reflects on how and the extent to which Ubuntu can be a strategic resource in pursuit of equality and justice

*The Good And Evil Serpent* James H. Charlesworth,2010-01-01 The serpent of ancient times was more often associated with positive attributes like healing and eternal life than it was with negative meanings This groundbreaking book explores in plentiful detail the symbol of the serpent from 40 000 BCE to the present and from diverse regions in the world In doing so it emphasizes the creativity of the biblical authors use of symbols and argues that we must today reexamine our own archetypal conceptions with comparable creativity From publisher description

**Flaubert** Mary Orr,Professor of French Mary Orr,2000 Here Mary Orr offers a new approach to Flaubert s fiction and to the field of gender studies Various received ideas about Flaubert his novels patriarchy realism and the primacy of gender over sex are re evaluated

The Chicago Gangster Theory of Life Andrew Ross,1995-10-17 Increasingly the most powerful voices on the planet eheads of state corporations global economists eare speaking in the name of environmentalism

**Remaking Men** David Tacey,2013-10-23 The nature of masculinity is a popular subject for contemporary authors either treated critically from a sociological standpoint or analysed from a psychological and spiritual perspective In Remaking Men David Tacey argues that we must strive to bridge the gap between these separate traditions masculinity should neither be hijacked by the spiritual Jung influenced men s movement nor discussed merely as a product of socio political forces Examining his own and other men s experience in a critical and lively discourse he evades the simplistic optimism of the inner journey approach and the chronic pessimism of contemporary academic arguments This is a fascinating and very accessible look at masculinity for those who want to explore self and society with intelligence and soul

Feminist Utopianism & Education Christine Forde,2007-01-01 This book looks to

feminist utopian thinking to seek alternative conceptualisations of the issue of gender and education We are currently faced with a situation where the issue of gender has become one of competing needs Debates on gender have swung from a concern for the progress of girls and women to a moral panic about the lack of engagement of boys in education The formulation of policy that swings from concerns and initiatives to support the educational progress of girls and women to a crisis about the engagement of boys and young men in education is ultimately to the detriment of both genders to the educational system and to society as a whole There is an urgent need for us to consider alternative approaches to the issue of gender and education In utopian writing education has been constructed as one of the means of bringing about the good society but importantly within feminist utopian writing and thinking what we understand as education is itself being transformed In feminist utopian thinking side by side with a critique of formal educational institutions there is an attempt to think more holistically about the relationship between the educative process and the achievement of girls and women s self determination both individually and collectively to bring about a realignment of gender relationships in the sociopolitical order This book draws from the debates about gender in the visions of alternative sociopolitical orders found in feminist utopian thinking to explore the issue of gender and education This book will be of special relevance to those interested in feminism gender studies educational futures and utopian thinking

#### **What Does It Mean to 'Make' Love? Gérard**

Pommier,2024-10-25 What Does It Mean to Make Love shows how the choice of gender does not conform to anatomy and is based on an often unrecognised psychic bisexuality Everyone chooses a gender by repressing another gender which becomes the site of both an attraction and a conflict a war of the sexes the contingencies of which animate desire G rard Pommier explores phantasy desire and perversion and their role in sexual machinery before considering the question of orgasm Pommier s work demonstrates that the analysis of orgasm brings out a political dimension and that aspects of both social and personal life are illuminated by the study of how we think consciously and unconsciously about orgasm and the role we ascribe to it This book makes valuable contributions to the study of sexuality and will be of interest to all psychoanalysts and students of psychoanalysis as well as those in the fields of gender studies anthropology and psychology *The World*

*Computer* Jonathan Beller,2021-01-22 In *The World Computer* Jonathan Beller forcefully demonstrates that the history of commodification generates information itself Out of the omnipresent calculus imposed by commodification information emerges historically as a new money form Investigating its subsequent financialization of daily life and colonization of semiotics Beller situates the development of myriad systems for quantifying the value of people objects and affects as endemic to racial capitalism and computation Built on oppression and genocide capital and its technical result as computation manifest as racial formations as do the machines and software of social mediation that feed racial capitalism and run on social difference Algorithms derived from for profit management strategies conscript all forms of expression language image music communication into the calculus of capital such that even protest may turn a profit Computational

media function for the purpose of extraction rather than ameliorating global crises and financialize every expressive act converting each utterance into a wager Repairing this ecology of exploitation Beller contends requires decolonizing information and money and the scripting of futures wagered by the cultural legacies and claims of those in struggle

Japanese Prehistory Nelly Naumann,2000 The existing literature on Japanese prehistory is mostly focussed on describing material culture this new study surveys the early artifacts and shows that they were either neglected in previous studies or reported of by unfounded and fantastic speculation The author identifies prehistoric ideas concerning hunting and fishing the cult of the dead and the after life The cosmological implications of burial topography and stone circles are as well examined as older written texts from other parts of the world aiding in elucidating the symbols recognized on these remains This helps to link the Jo mon materials to other remains of similar or older age from the ancient Near East China the Pacific and ancient America and proves that prehistoric Japan was never really isolated from the rest of the world Although the method developed in this study which rejects speculation and bases itself entirely on archaeological remains permits only the elucidation of a part of the rich spiritual culture of prehistoric Japan it reveals an abundance of new information concerning the most important religious ideas of mankind the constant renewal of life and the belief that death is not the ultimate end

**The Macabresque** Edward Weisband,2018 Studies of genocide and mass atrocity most often focus on their causes and consequences their aims and effects and the number of people killed But if the main goal is death why is torture necessary By understanding how and why mass violence occurs and the reasons for its variations The Macabresque aims to explain why so many seemingly normal or ordinary people participate in mass atrocity across cultures and why such egregious violence occurs repeatedly through history

The Hostess Tracy McNulty,2007

Paper Swordsmen John Christopher Hamm,2005-01-01 The martial arts novel is one of the most distinctive and widely read forms of modern Chinese fiction John Christopher Hamm offers the first in depth English language study of this fascinating and influential genre focusing on the work of its undisputed twentieth century master Jin Yong

**The Poem's Two Bodies** David Lee Miller,2014-07-14 The role of the human body as a poetic and ideological construct in the 1590 Faerie Queene provides the point of departure for David Lee Miller s richly detailed treatment of Spenser s allegory In this major contribution to the study of Renaissance literature and ideology Miller finds the poem organized by a fantasy of bodily wholeness that like the marriage of Arthur and Gloriana is both anticipated and deferred in the text Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Lacan in America Jean-Michel Rabate,2020-09-08 This interdisciplinary compilation of essays is a welcome tonic for the jet lag or

cultural gap between Lacanian discourse's warm reception in Latin countries and the resistance Lacanian clinical applications have met with in the Anglophone world Lacan in America illuminates important and dynamic debates within a cultural context that Lacan himself has modified Rather than a made simple approach this dynamic collection invokes some of the hesitations contradictions and evolutions that appear to be the most exciting part of his legacy in polylogical discussions by Lacanians who are not averse to a critical reexamination of major concepts or textual and political issues Topics include a regressive sexual science and a postmodern condition technological mediation through seduction and resistance the partisan issues beneath some of the resistances met by Lacanian discourse and Lacan's revelations as responses to Freudian riddles Demonstrating the vitality of Lacanian thought and its impact on disciplines from mathematics to gay lesbian studies Lacan in America works to edify the fruit of Lacan's endless revision an infinitely propagated transfiguration of his search for the meanings of truth Lucid and nonpartisan this collection successfully takes the ideas and issues at the heart of Lacan's work and legacy and reinspects them through the lens offered by their transportation across the Atlantic illustrating what has happened to them in their translation and mistranslation into and through American intellectual and cultural life Daniel Gunn Department of Comparative Literature and English The American University of Paris
